TROUBLESHOOTING

Frequent issues

Solution

- | | |
|--|---|
| <ul style="list-style-type: none"> • Can not see more than 30 folders but my HDD or USB key has more • The hard disk drive is no more recognized after copying files from the PC • Does not sort files by alphabetical order properly • EPG date / time is sometimes incorrect after reboot • Timeshift function is limited to 30 minutes • DTV setup menu is not accessible • The remote control doesn't work anymore
The Movie Cube doesn't respond to the remote control | <ul style="list-style-type: none"> → Download the latest firmware → Eject the media properly with the "safely eject" function under Windows or install the latest firmware → Normal behavior, due to the improvement of number of files / folders supported this option has been disabled → Reboot the Movie Cube → Normal behavior, it is a hardware limitation → DTV setup menu is only available from the DTV menu → Change the batteries |

GETTING HELP - Did the customer think about ...

1. **Checking our Frequently Asked Question (FAQ)?**
Please go to our website: <http://www.emtec-international.com/en-eu/faq> to find solutions.
2. **Contacting our technicians?**
You can contact our technicians using our Emtec Online Assistance form.
Please check our website: http://www.emtec-international.com/en-eu/online_assistance
3. **Updating the firmware?**
A vast majority of the issues can be solved by updating the product yourself.
Please check our website to download the latest version of the firmware:
http://www.emtec-international.com/en-eu/firmware_mc_list

HOW TO UPDATE THE FIRMWARE ?

1. Copy the « UPG956M.AP» file to the root directory of an empty USB stick. Do not change file name.

2. Power on the Movie Cube and connect it with the TV. Plug the USB key to the Movie Cube.

3. A message will be displayed on the top of the TV screen. Select « yes » to confirm.

4. The firmware update will start. **DO NOT UNPLUG THE USB KEY DURING THE UPDATE !** Once the upgrade is done, the Movie Cube will turn off.
