Charging the Reader

- You need to charge the Reader prior to using it for the first time or when battery power is low.
- You can charge the Reader via:
- Connect to PC or other USB adapter via supplied USB cable.
- When charging through PC, you cannot operate the Reader. To operate the reader during charging, click the Safely Remove Hardware from your desktop with the Reader remains connection to PC. Upon Reader is safely removed, you can operate it while charging.
- Please turn the Reader to standby mode to shorten the charging process.
- It will take about 6 hours (By USB) to fully charger the reader in standby mode (LCD off)
- The battery status is displayed at the bottom left corner. The remaining battery playback time is displayed right next to the battery icon.

Inserting Memory Card

The Reader supports Micro SD/SDHC card. To insert a Memory card:

- Check that the Micro SD card is in the correct position with the contact pin facing upwards as illustrated below. You may damage the card and the reader if Micro SD card is not inserted in correct position.
- Push the Micro SD card into the card slot until it clicks.
- To remove Micro SD card, push the Micro SD card once again until it clicks.
- We recommend using only Micro SD or SDHC cards up to 8GB capacity.

Starting from Home Menu

When the Reader is turn on, you will enter into the Home Menu.

1. Continue Reading
-display the page of the last read book. Press <OK> button to open the last read page.
