1. INTRODUCTION

This document describes the steps required to install RASS-S v 7.0.5.x

1.1. General information

RASS-S v 7 is a software and hardware system designed to test radar systems. The RASS-S licence is granted based on purchased RASS-S hardware and/or included in a maintenance contract on purchased RASS-S hardware. The customer is entitled to install the software on maximum 2 separate computers, typically one of them will be a laptop system and one will be a desktop system. The laptop will be used to do field work, and run the equipment in real time. The desktop can be used for preparation work on the engineer's workplace.

Please make sure the installation is performed using an XP or win7 administrator account!

RASS-S will run on Windows XP professional SP3 and

Windows 7 professional, 32 bit mode!

It will NOT run on VISTA or Win7 64 bits!

1.2. Installation contents

The installation of RASS-S typically contains a number of installers, that are combined into one combined installation.

Following items will be installed on your C: (or D:) drive:

-RASS-S7 software -RASS-S7 User manual -RASS-S7 Calibration data

-RASS-S7 latest patch data

-Labview v7 Runtime environment

Following items will be installed in your "programs" folder on your C: drive:

-RASS-M tools:

- -DRFA912 Scope
- -TTB Scope
- -RASS-M Solar extractor
- -RASS-M Sectorial Recorder
- -RASS-M DRFA Scope
- -RASS-M Sectorial Extractor
- -RASS-M Sectorial Viewer
- -RASS-M PSR Viewer

-Intersoft Electronics Proxy

2. RETRIEVING THE LATEST VERSION OF RASS-S

You can receive the latest version RASS-S free of charge in case you have purchased the RASS-S in the last year, or purchased a running maintenance contract at any time prior to expiration of the Maintenance contract.

You can receive RASS-S on a DVD (hardcopy) upon simple request to support@intersoft-electronics.com Shipping is always at charge of the customer.

Alternatively, you can request an ftp access point to our servers, and download the latest release from the ftp server. Typically, only ONE password and login name is assigned per customer or division. The login is the email address of the POC person.

You can access the ftp site on ftp://ftp.inventive-engineering.com , by typing in this address in your windows explorer:

🕸 ftp://ftp.inventive-engineerin	g.com/software-distribution/R	ASS-S/		
File Edit View Favorites Tools	Help			A.
🚱 Back 👻 🕥 - 🏂 🔎 S	earch 😥 Folders 🛄 🗸			
Address () ftp://ftp.inventive-engineer	ing.com/software-distribution/RASS-S/			💌 🄁 Go
	Name 🔺	Size	Туре	Modified
Other Places	NEW APPLICATION NOTES		File Folder File Folder File Folder	10/11/2011 0:00 10/11/2011 0:00 21/02/2012 0:00
Hy Documents	CALIBRATION.zip	76,8 MB	File Folder File Folder Compressed (zippe	4/04/2012 0:00 1/06/2012 21:55 18/04/2012 0:00
Details 🛞	Readme-installing RASS-5.txt	1,33 GB 2,05 KB	ISO File Text Document	1/06/2012 22:06 10/11/2011 0:00
				22

And download either the full 1.3 GB iso file (this is a disk image that you can burn to a DVD) or download the *RASS-S installer folder* to your computer.

Iso file: RASS-Sv7058-010612.iso (example)

Installer folder is RASS v7.0.5.8 010612 folder (example)

Use Nero or other DVD burning utility to burn the iso file to a DVD, or copy the installation folder to your C: drive (desktop).

<u>Note:</u> The installer will NOT install in the correct location if it is copied onto a USB stick or external HD. You have to copy it to your C: or D: drive! It will also run directly of a DVD, but not from a writable disk.

Alternatively, we recommend to use the "Filezila" freeware application to download the installer or patch data from the ftp site:

3. INSTALLATION

If you have a virgin system, that has never had any RASS-S installed on it, proceed directly to step 3.2.

If you have a system with an older version of RASS-S installed, proceed with step 3.1.

3.1. Upgrading from previous version 7.0.x

If you find an older RASS-S7 software on your computer, you need to remove it first, if it is version 7.0.x. Version 6.x of RASS-S can remain present on the computer, or can be removed.

To remove RASS-S, load the "Add or remove programs" control panel of windows:

Then select "Intersoft Electronics RASS-S7" and click Remove.

🐻 Add or Rei	move Programs

componentes	🔀 Intersoft Electronics RASS-M Solar Extractor	Size	18,26MB 🧹
<u> </u>			

-If you want to uninstall the calibration files, repeat the step for the RASS-S calibration files. If you want to keep your Calibration folder data, now is the time to remove them from the old RASS-S7 folder and backup them on your desktop. The best solution is always to locate the latest version of the calibration files on the CD delivered with your equipment upon delivery, or download it from the ftp server.

-Now check your harddisk where RASS-S was installed. This can be C: or D: drive. <u>The folder RASS-S7 should be removed or emptied by the above process</u>, the folder :CAMPAIGN-S6 should be untouched.

-Uninstalling RASS-S will NEVER remove your recorded data if it is stored in CAMPAIGN-S6.

Remark: although this is RASS-S7, a CAMPAIGN S7 folder does NOT exist!

-If the RASS-S7 folder is still present on your Harddisk, this could indicate that you have installed patches on this previous version, that can not be removed automatically.

Delete the "RASS-S7" folder manually from your HD.

It is important before to proceed with installation that neither your C: or D: disk contains a folder named "RASS-S7" anymore!!

3.2. New system installation

Insert the DVD into your optical drive, and open the DVD, or alternatively, open the Installation folder that was downloaded from the ftp site.

In there you will find a file called "IE Installer.exe" Double click it.

	v	
	< Back Next > Cancel	

Click Next to install RASS-S7

RASS-S will be installed on the D: drive if it is available, if not, it will be installed on the C: drive.

🔂 Intersoft Electronics RASS-S7 Setup 🛛 🔀
Network Location Please specify a network location for the server image of Inters
Enter a installation location or click Browse to browse to one.
D:\RASS-S7\
Browse
\mathbf{k}
·
< Back Next > Cancel

Do not browse the location manually, since RASS-S will not work If it is not installed on the root of C: or D: .

The install may take several minutes!

Click Finish to complete.

Next, some other installers will run, installing the RASS-M tools which are much smaller in size than the RASS-S tool.

A special tool is the TTB tool. If you need to use it with Mode 5, select "complete" install, if not , just use the Typical Install:

🛃 Intersoft Electron	ics TTB Scope Setup 🛛 🔀
Choose Setup Type Choose the setup ty	pe that best suits your needs
	<u>Typical</u> Installs the most common program features. Recommended for most users. Custom Allows users to choose which program features will be installed and where they will be installed. Recommended for advanced users. Complete
	All program features will be installed. (Requires most disk space) < Back

In case you select "Complete", the tool requests a licence key. This is to protect Mode 5 secure data packages included. If you do not need this, click Back. The key can be requested from Intersoft if you are a NATO or military user. We reserve the right to deny this key.

Click Install. And then Finish

ł

Click OK.

Finally, the tool will install a patch for RASS-S 7.0.5 if you selected this in the post install list, and if available in the installer. .

Install Patches for RASS-S7	\times
Updating C:\RASS-S7 with v7.0.5.8 Please wait	
Patch path	
D:\V7.0.5\PatchData\RASS-S7	

You should now see a successful Installation summary:

ŝ

3.3. Mode 5 tools installation

In case you own a RSE760 and wish to use it for Mode 5 target injection or FRUIT generation, you can install the RASS-S for Mode 5 option.

To install, open the folder "Products" in your installation DVD or folder.

Locate the file "Intersoft Electronics RASS-S7-M5.msi" and double click it.

Beware! The Mode 5 software is the version of the original 7.0.5 software. The patches might include update to the Mode 5 tools as well, so next proceed to the step 3.4.1, and <u>rerun the patch installation</u>!

3.4. Patch installation

On a monthly basis, Intersoft releases patches on the latest released software. To find out what these patches do, you can download the Release Notes of the latest version from the ftp site.

If you have installed a version 7.0.5.x before, and wish to update to the latest patch , you can do this in several ways:

3.4.1. Patch installation from DVD or full installer

Use or create a DVD from a ftp download , containing the latest released version of RASS-S. For example v7.0.5.8.. This is RASS-S v7.0.5 , plus patch 8.

On the DVD, locate the "E:\PatchData\InstallPatch.exe" file and run it,

վես		
IE Installer v 1.2.0	< Back Next > Cancel	

Following window will appear, and the tool will install a patch for RASS-S 7.0.5. (in this case patch 8)

Install Patches for RASS-S7	
Updating C:\RASS-S7 with v7.0.5.8 Please wait	
Patch path	
D:\V7.0.5\PatchData\RASS-57	

Beware! The tool will search for C:\RASS-S7 folder first, if not found, it will search for D:\RASS-S7. So if you have 2 RASS-S7 folders, only the one on your C: drive will be upgraded. So make sure the doubles are removed!

÷

3.4.2. Patch installation from Patch zip file

Alternatively, download the "Patch 7.0.5px.zip" file from our ftp site. (See step 2 above)

Unzip this folder, and locate the InstallPatch.exe" file on it and run it

Updating C:\RASS-S7 with ¥7.0.5.8 Please wait	
Patch path	
D:\V7.0.5\PatchData\RASS-S7	

Beware! The tool will search for C:\RASS-S7 folder first, if not found, it will search for D:\RASS-S7. So if you have 2 RASS-S7 folders, only the one on C: drive will be upgraded.

4. RUN RASS-S7

Finally, you should see a "RASS-S7.vi" RASS-S7.VI shortcut on your desktop.

Alternatively, you can open the C: or D:\RASS-S7\RASS-S7.vi tool .

Check the version number in the upper right corner, it should indicate the latest version number. (7.0.5.8 or later) .
