Introduction

This Licensing Information document is a part of the product or program documentation under the terms of your Oracle license agreement and is intended to help you understand the program editions, entitlements, restrictions, prerequisites, special license rights, and/or separately licensed third party technology terms associated with the Oracle software program(s) covered by this document (the “Program(s)”). Entitled or restricted use products or components identified in this document that are not provided with the particular Program may be obtained from the Oracle Software Delivery Cloud website (<https://edelivery.oracle.com>) or from media Oracle may provide. If you have a question about your license rights and obligations, please contact your Oracle sales representative, review the information provided in Oracle’s Software Investment Guide (<http://www.oracle.com/us/corporate/pricing/software-investment-guide/index.html>), and/or contact the applicable Oracle License Management Services representative listed on <http://www.oracle.com/us/corporate/license-management-services/index.html>.

Licensed Products, Restricted Use Licenses, and Prerequisite Products

Certain Oracle licensed products require valid licenses for other Oracle products; licenses for these other Oracle products are included with your core license. Included licenses give you the rights to functionality limited to what is needed for your core licensed product; these are referred to as Restricted Use Licenses. In addition, some products require that you install other Oracle products; these are referred to as Prerequisite Products. The following topics identify what technologies are included within each core product license and also any other products you need to install in order to fully use the core product. Please see you Oracle Sales Representative for details.

Primavera P6 Enterprise Project Portfolio Management License

Restricted Use Licenses

The following restricted use licenses are included with your Oracle Primavera P6 Enterprise Project Portfolio Management license:

- ▶ **WebLogic Server Standard Edition:** only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering, coherence or EJBs. For example, if a customer wishes to cluster their Primavera P6 Enterprise Project Portfolio Management instance, that would trigger a full-use license of WebLogic Server Enterprise Edition (or WebLogic Suite for Oracle Applications).
- ▶ **JRockit JVM:** only used for Primavera P6 Enterprise Project Portfolio Management servers. This is a runtime license that does not allow customers to utilize JRockit JVM for other applications or instances. For users who change or create new workflows using web services and events from Primavera applications, Named User Plus licenses are recommended for Unified Business Process Management Suite (or Unified Business Process Management Suite for Oracle Applications), SOA Suite for Oracle Middleware (or SOA Suite for Oracle Middleware for Oracle Applications), and WebLogic Suite (or WebLogic Suite for Oracle Applications). There is no minimum Named User Plus requirement for the recommended products above.
- ▶ **WebCenter Content:** only valid for workspaces or folders that are built from Primavera P6 Enterprise Project Portfolio Management. Only valid for repositories that store Primavera P6 Enterprise Project Portfolio Management documents, artifacts and work products. Creating any repositories, folders, workspaces, etc. manually outside of Primavera applications will trigger full-use. Only licensed Primavera application users can access the repository. For example, creating a new departmental workspace or folder would trigger a full-use license.
- ▶ **Application Development Framework.** This does not grant permission to customers to build, deploy or resell Application Development Framework user interface components or applications.
- ▶ **Oracle HTTP Server:** used for access outside corporate firewall and single sign-on (SSO). May not be used for any purposes outside of those requirements.
- ▶ **EclipseLink:** used only for Primavera P6 Enterprise Project Portfolio Management persistence. Run-time only and may not be used to build any other applications.
- ▶ **Unified Business Process Management Suite and its prerequisites (SOA Suite for Oracle Middleware and WebLogic Suite)** for licensed users of the Primavera application who are consuming/participating in the Primavera workflows (workflows within Primavera applications or integrating Primavera applications with Oracle applications) or forms. Any users who need to change or create new workflows will need a full-use license of Unified Business Process Management Suite (or Unified Business Process Management Suite for Oracle Applications) and its prerequisite products. There is no minimum Named User requirement for full use licenses.

- ▶ Web Center: only for portals built using Primavera portlets. Not valid for adding non-Primavera portals, workspaces, etc. For example, a user who creates additional organizational or departmental portals would trigger full-use license of Web center. Additionally, attempts to modify Primavera portals would likewise trigger full-use license.
- ▶ Primavera Gateway: for the exclusive use of integrating Primavera P6 Enterprise Project Portfolio Management with other Primavera applications.
- ▶ Business Intelligence Publisher: valid for users to schedule/execute/run reports within the Primavera application. Any users who need to customize or create new reports will need a full-use license of Business Intelligence Publisher (or Business Intelligence Publisher for Oracle Applications). There is no minimum named user requirement for Business Intelligence Publisher for Primavera applications.

Notes

- ▶ For users who change or create new workflows using web services and events from Primavera applications, Named User Plus licenses are recommended for Unified Business Process Management Suite (or Unified Business Process Management Suite for Oracle Applications), SOA Suite for Oracle Middleware (or SOA Suite for Oracle Middleware for Oracle Applications), and WebLogic Suite (or WebLogic Suite for Oracle Applications). There is no minimum Named User Plus requirement for the recommended products above.
- ▶ Developers and/or users (i) who are not already licensed for the Primavera P6 Enterprise Project Portfolio Management program and (ii) who access (including through Access Points) applications, must be licensed for the Primavera P6 Enterprise Project Portfolio Management Web Services program. “Access Points” includes, but is not limited to, third party, Oracle or custom versions of the following: interfaces, API’s, web services and database links.
- ▶ Other included components: Primavera P6 Professional Project Management, Primavera P6 Enterprise Project Portfolio Management Web Services, Primavera P6 Team Member Web, Primavera Team Member for iOS, Primavera Team Member for Android, and Email Statusing.

Primavera P6 Enterprise Project Portfolio Management Web Services License

Restricted Use Licenses

The following restricted use licenses are included with your Oracle Primavera P6 Enterprise Project Portfolio Management Web Services license:

- ▶ WebLogic Server Standard Edition: only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering, coherence or EJBs. For example, if a customer wishes to cluster their Primavera P6 Web Services instance, that would trigger a full-use license of WebLogic Server Enterprise Edition (or WebLogic Suite for Oracle Applications).
- ▶ WebCenter Content: only valid for workspaces or folders that are built from Primavera Web Services. Only valid for repositories that store Primavera Web Services documents, artifacts and work products. Creating any repositories, folders, workspaces, etc. manually outside of Primavera applications will trigger full-use. Only licensed Primavera application users can access the repository. For example, creating a new departmental workspace or folder would trigger a full-use license.

Prerequisite Products

Install the following additional Oracle products to use Primavera P6 Enterprise Project Portfolio Management Web Services:

- ▶ Primavera P6 Enterprise Project Portfolio Management

Notes

- ▶ Other included components: P6 Web Services and Events, P6 Java APIs, P6 e-mail statusing service, Primavera P6 Team Member Web, and P6 mobile.

Primavera P6 Progress Reporter

Restricted Use Licenses

The following restricted use licenses are included with your Oracle Primavera P6 Enterprise Project Portfolio Management license:

- ▶ WebLogic Server Standard Edition: only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering, coherence or EJBs. For example, if a customer wishes to cluster their Primavera P6 Progress Reporter instance, that would trigger a full-use license of WebLogic Server Standard Edition (or WebLogic Suite for Oracle Applications).
- ▶ JRockit JVM: only used for Primavera P6 Progress Reporter servers. This is a runtime license that does not allow customers to utilize JRockit JVM for other applications or instances.
- ▶ Application Development Framework: This does not grant permission to customers to build, deploy or resell Application Development Framework user interface components or applications.
- ▶ Oracle HTTP Server: used only for access outside corporate firewall and single sign-on (SSO). May not be used for any purposes outside of those requirements.
- ▶ EclipseLink: used only for Primavera P6 Progress Reporter persistence. Run-time only and may not be used to build any other applications.
- ▶ WebCenter Content: only valid for workspaces or folders that are built from Primavera P6 Progress Reporter. Only valid for repositories that store Primavera P6 Progress Reporter documents, artifacts and work products. Creating any repositories, folders, workspaces, etc. manually outside of Primavera applications will trigger full-use. Only licensed Primavera application users can access the repository. For example, creating a new departmental workspace or folder would trigger a full-use license.

Prerequisite Products

Install the following additional Oracle products to use Primavera P6 Progress Reporter:

- ▶ Primavera P6 Enterprise Project Portfolio Management

Notes

- ▶ Other included components: Primavera P6 Team Member Web, Primavera Team Member for iOS, Primavera Team Member for Android, and Email Statusing.

Third Party Notices and/or Licenses

Required notices for open source and commercial software products or components distributed in P6 EPPM are identified below, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or readme files of the individual third party open source software.

Adobe

Adobe, Reader, and RoboHelp are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1) Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

- 2) Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
- 3) Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
- 4) Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - a. You must give any other recipients of the Work or Derivative Works a copy of this License; and

- b. You must cause any modified files to carry prominent notices stating that You changed the files; and
- c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

- 5) **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
- 6) **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
- 7) **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
- 8) **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

- 9) Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Crc32.pas

CRC-32 version 2.0.0 by Craig Bruce, 2006-04-29.

This program generates the CRC-32 values for the files named in the command-line arguments. These are the same CRC-32 values used by GZIP, PKZIP, and ZMODEM. The Crc32_ComputeBuf() can also be detached and used independently.

THIS PROGRAM IS PUBLIC-DOMAIN SOFTWARE.

Based on the byte-oriented implementation "File Verification Using CRC" by Mark R. Nelson in Dr. Dobb's Journal, May 1992, pp. 64-67.

CXF

For More Information

Where to Get Documentation

Complete documentation libraries for P6 EPPM releases are available on the Oracle Technology Network (OTN) at:

<http://www.oracle.com/technetwork/documentation/primavera-093289.html>

From this location you can either view libraries online or download them to have local copies. We recommend viewing them from OTN to ensure you always access the latest versions, including critical corrections and enhancements.

P6 EPPM is configured to access its help systems on OTN. However, you can also install local versions when you install the software.

The documentation assumes a standard setup of the product, with full access rights to all features and functions.

The following table describes the core documents available for P6 EPPM and lists the recommended readers by role. P6 EPPM roles are described in the *Planning Your P6 EPPM Implementation* guide.

Title	Description
<i>What's New in P6 EPPM</i>	<p>Highlights the new and enhanced features included in this release.</p> <p>You can also use the <i>P6 EPPM Cumulative Feature Overview Tool</i> to identify the features that have been added since a specific release level.</p> <p>All users should read this guide.</p>
<i>Planning Your P6 EPPM Implementation</i>	<p>Explains planning your implementation and provides an installation process overview, frequently asked questions, client and server requirements, and security information.</p> <p>The P6 EPPM network administrator/database administrator and P6 administrator should read this guide.</p>
<i>P6 EPPM Installation and Configuration Guide</i>	<p>Explains how to install and configure P6 EPPM using the P6 EPPM Installation and Configuration wizards.</p> <p>The P6 EPPM network administrator/database administrator and P6 administrator should read this guide.</p>

Title	Description
<i>P6 EPPM Installation and Manual Configuration Guide</i>	<p>Explains how to install and configure the P6 EPPM using the P6 EPPM Installation wizards, and how to manually configure individual components.</p> <p>The P6 EPPM network administrator/database administrator and P6 administrator should read this guide.</p>
<i>P6 EPPM System Administrator's Guide</i>	<p>Describes how to configure P6 EPPM applications after you have installed them. This guide provides information for using Primavera P6 Administrator, configuring client machines, configuring P6 Team Member Web settings, setting up P6 Integration API and P6 EPPM Web Services, and troubleshooting advice for P6 EPPM.</p> <p>The P6 EPPM network administrator, system administrator, or database administrator should read this guide.</p>
<i>P6 EPPM Application Administrator's Guide</i>	<p>Describes how to get started using P6 EPPM applications after you have installed and configured them. Complete the tasks in this guide before letting your users work with these applications. These tasks include information about configuring your users and security settings and privileges and finalizing your P6 Integration API and P6 EPPM Web Services settings.</p> <p>The P6 EPPM application administrator should read this guide.</p>
<i>Primavera Cloud Service Administrator's Guide</i>	<p>This guide describes how to configure and administer Primavera products hosted on the Oracle Cloud for industries. It supersedes all the other installation and configuration guides for Primavera products, since they are for on-premises deployments.</p> <p>Cloud administrators should read this guide.</p>
<i>Tested Configurations</i>	<p>Lists the configurations that have been tested and verified to work with P6 EPPM.</p> <p>The network administrator/database administrator and P6 EPPM administrator should read this document.</p>
<i>P6 User's Guide</i>	<p>Explains how to plan, set up, and manage projects in a multiuser environment. If you are new to P6, start with this guide to learn how to use the software effectively to plan and manage projects. When you need more detail, refer to the P6 Help.</p> <p>The program manager, project manager, resource/cost manager, team leader, and all P6 users should read this guide.</p>

Title	Description
<i>P6 Help</i>	<p>Explains how to use P6 to administer, plan, set up, and manage projects, portfolios, workflows, timesheets, documents, and reports in a multiuser environment. Describes how to analyze performance and ROI, and analyze budgets. If you are new to P6, use this Help to learn how to use the software effectively.</p> <p>The operations executive, P6 EPPM and P6 administrator, program manager, project manager, resource/cost manager, team leader, and all users should read this Help.</p>
<i>P6 Data Dictionary</i>	<p>Defines fields used in P6.</p> <p>All P6 users should refer to this guide if they need a field definition.</p>
<i>P6 Team Member Web Help</i>	<p>Describes how to use P6 Team Member Web to provide status on activities.</p> <p>P6 Team Member Web users should read this Help.</p>
<i>P6 EPPM Web Services Programmer's Guide</i>	<p>Describes how to invoke, use, and troubleshoot the available services and operations within supported environments. When you need specific information about the services and operations available, refer to the P6 EPPM Web Services Reference Manual.</p> <p>Anyone who wants to develop applications that interact with P6 should read this guide.</p>
<i>P6 EPPM Web Services Reference Manual</i>	<p>Describes all services and operations available in P6 EPPM Web Services.</p> <p>Anyone who wants to develop applications that interact with P6 should read this guide.</p>
<i>P3 to P6 EPPM Migration Guide</i>	<p>Provides best practices for migrating your P3 data to P6 EPPM and details how P3 functionality maps to P6 EPPM functionality.</p> <p>All administrators should read this guide if your organization is moving from P3 to P6.</p>

Distributing Information to the Team

You can copy the online documentation to a network drive for access by project participants. Team members can then view or print those portions that specifically relate to their roles in the organization.

Throughout this documentation, the Security Guidance icon  helps you to quickly identify security-related content to consider during the installation and configuration process.

Where to Get Training

To access comprehensive training for all Primavera products, go to:

<http://education.oracle.com>

Oracle Learning Library

The Oracle Learning Library (OLL) provides online learning content covering Primavera products. Content includes whitepapers, videos, tutorials, articles, demos, step-by-step instructions to accomplish specific tasks, and self-paced interactive learning modules.

To access the learning library's Primavera content, go to:

<http://www.oracle.com/oll/primavera>

Where to Get Support

To get the latest information about Critical Patch Updates, visit <http://www.oracle.com/technetwork/topics/security/alerts-086861.html>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/us/corporate/accessibility/support/index.html>.

P6 EPPM integrates with different Oracle applications; when you create a Service Request, be sure to open the request with the proper Support team. To ensure you reach the proper Support team, enter the correct product information when you create the Service Request. Each product has its own support line.

- ▶ Use the **Primavera P6 EPPM** support line when you are having installation, configuration, or connection issues related to P6 EPPM.
- ▶ Use one of the following support lines when you are having installation or configuration issues that do not relate to P6 EPPM.
 - ▶ Oracle WebLogic Server
 - ▶ Oracle Database Server
 - ▶ BI Publisher
 - ▶ BPM
 - ▶ Oracle Webcenter Content Core Capabilities (formerly Universal Content Management)
 - ▶ Oracle Enterprise Manager
 - ▶ Oracle Access Manager
 - ▶ Oracle AutoVue

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/us/support/contact-068555.html> or visit <http://www.oracle.com/us/corporate/accessibility/support/index.html> if you are hearing impaired.

Using Primavera's Support Resource Centers

Primavera's Support Resource Center provides links to important support and product information. Primavera's Product Information Centers (PICs) organize documents found on My Oracle Support (MOS), providing quick access to product and version specific information such as important knowledge documents, Release Value Propositions, and Oracle University training. PICs also offer documentation on Lifetime Management, from planning to installs, upgrades, and maintenance.

Visit <https://support.oracle.com/epmos/faces/DocumentDisplay?id=1486951.1> to access links to all of the current PICs.

PICs also provide access to:

- ▶ **Communities** which are moderated by Oracle providing a place for collaboration among industry peers to share best practices.
- ▶ **News** from our development and strategy groups.

Education via a list of available Primavera product trainings through Oracle University. The Oracle Advisor Webcast program brings interactive expertise straight to the desktop using Oracle Web Conferencing technology. This capability brings you and Oracle experts together to access information about support services, products, technologies, best practices, and more.
