HITACHI

2007
curriculum
software

Cambridge–Hitachi is a dynamic software company that combines the curriculum knowledge and educational expertise of Cambridge University Press and the innovative technology of Hitachi Software Engineering.

Curriculum focused

We keep curriculum requirements at the heart of our publishing so you can be confident our software meets your needs and that you are spending your money or eLearning Credits wisely.

Creative, compelling software

We design software that helps you to maximise the use of your interactive whiteboard and computers as essential teaching tools to challenge and inspire your pupils.

For effective teaching

Our software is approved by Curriculum Online. It is easily installed and has intuitive functionality so you can rest assured that the technology supports your teaching.

Approved for SMART Board

Customer Services

For product information or to place an order call 01223 325588.

Evaluation

Visit our website for tours and demos. If you require a more detailed demonstration, please contact your local sales consultant.

Demonstration service

Your local sales consultant will be happy to visit your school to talk you through our software. Please call 01223 325588 to make an appointment.

Schoolzone evaluations

Independent evaluations of Cambridge–Hitachi curriculum software can be found on the Schoolzone website: www.schoolzone.co.uk

Curriculum Online

The software contained in this brochure may be purchased using eLearning Credits or your normal budget. Your eLC spend will be recorded on your invoice.

Technical Support

If you have any problems with the installation or running of our CD-ROMs please either:

- Complete an online support form at www.cambridge-hitachi.com/customersupport
- Email: techsupport@cambridge-hitachi.com
- Phone: 01223 325040

The Cambridge–Hitachi Guarantee

Should you experience a technical fault or if your CD-ROM is damaged in any way we will be happy to send you a replacement copy free of charge.

LEAs/Clusters/MLEs/VLEs and online delivery

In addition to publishing curriculum software on CD-ROM, Cambridge–Hitachi content is available for use in learning environments for educational projects of all sizes. Please email info@cambridge-hitachi.com if you would like more information about a curriculum-focused content solution from Cambridge–Hitachi.

For the latest information on licences, terms and conditions, and system requirements for individual products please visit the Cambridge–Hitachi website: **www.cambridge-hitachi.com**

Our Licensing Policy for UK Schools

For Primary Schools

The published price of our CD-ROMs includes a single user*, site* and network* licence, giving you the freedom to use the software in your school however you wish, with no hidden costs. (No separate paper licence is required.)

For Secondary Schools

The published price includes a single user and site licence. For some products an additional network licence is required. Schools wishing to install the software on a network server for use inside and/or outside the school site should refer to the order form or contact customer services on 01223 325588 for pricing and licensing information.

Terms and Conditions

- Licensing policy applies only to UK schools ordering direct from Cambridge–Hitachi.
- For site licence information for intranet and online delivery or regional/territorial licences please contact info@cambridge-hitachi.com.
- The school site is defined as the single main address of the school.
- Unauthorised copying of Cambridge–Hitachi software is not permitted for any reason.

Single user licence*

Permits a purchasing school in the UK to install the software on an individual computer for use by a single user.

Site licence*

Permits a purchasing school in the UK to install the software on one or more freestanding individual computers on the school site.

Network licence*

Permits a purchasing school in the UK to install the software on a network server for use by any number of users across the school's computer network.

▲ Lesson Builder

▼ Main Menu – organised into 7 new strands across each year group.

Mult-e-Maths
New Framework Edition

AGES 7–11

Series consultant Anita Straker

Written in conjunction with BEAM and Anita Straker, *Mult-e-Maths* helps strengthen pedagogy, employing your interactive whiteboard as an effective resource.

- **encouraging flexibility** in the organisation of the curriculum and the structure of mathematics lessons.

- **structuring teaching and learning** over sequences of lessons as well as within lessons.

- **raising expectations** for all children.

- **more effective use of assessment** to inform and direct teaching and learning.

- **broadening and strengthening pedagogy**.

The **new Lesson Builder** featured in each year allows you to personalise resources and organise lessons to suit the needs of your class, helping you respond to pupils' progress.

The new **Planning CD-ROM** adds *Mult-e-Maths* to the structure suggested by the Primary Strategy, helping your school implement the renewed Framework by choosing sections to adapt and embed.

Organised into the **seven new strands** across each year group, *Mult-e-Maths* builds progression across topics and years, helping you increase pace.

Alongside the renewed Framework, *Mult-e-Maths* incorporates suggestions for **assessment**, careful questioning and **differentiation** into every activity.

Mult-e-Maths provides visual and effective resources with **clear teaching notes** for the more challenging areas of mathematics.

'*Mult-e-Maths* is extremely well designed and researched. It makes the best possible use of interactive technology.'

Maths Co-ordinator,
Quarry Mount Primary School, Leeds

'Very clear and nicely differentiated.'

Maths Subject Leader,
Uphill Primary School, North Somerset

'The interactive nature of the activities is excellent.'

Y6 Teacher,
Intake Primary School, Doncaster

'The visual images provided help children to 'see' the concept clearly.'

Deputy Headteacher,
East Rainton Primary School, Sunderland

Customise *Mult-e-Maths* by using the *Lesson Builder* to add Toolbox and other activities – **see pages 4 – 5.**

www.cambridge-hitachi.com/multemaths

Fully revised and matched to the renewed Primary Framework

3

Mult-e-Maths Toolbox

AGES 4–14

Series consultant Anita Straker

A powerful, flexible interactive whiteboard resource, the *Mult-e-Maths Toolbox* consists of a workspace and tools that you combine and use to create learning experiences customised for your class.

- Set up maths activities to suit your learning objectives, save the file and have everything ready to teach.
- Set up progressive pages to give your lessons a clear structure and help you maintain a good pace.
- Share saved lessons across a network, email them to colleagues, or set them up at home and email them to yourself at school.
- All tools are easily accessible at any point whilst using the program.
- Files can be imported into the *Mult-e-Maths* New Framework Edition Lesson Builder allowing you to differentiate lessons to suit the needs of your class.

PC only

www.cambridge-hitachi.com/multemaths

Find hundreds of ideas for using the *Mult-e-Maths Toolbox* – **see page 5**.

'The new Toolbox has been a real revelation. The staff has been delighted by the power of the product and the children have just been amazed. It certainly brings a 'magic' to the teaching of mathematics, but most importantly I believe it helps children learn in a fun and meaningful way.'

Braniel Primary School, Belfast

'…a dynamic, colourful and adaptable resource, perfect for teaching those difficult teaching points – with high visual impact… The Toolbox is truly interactive… and adds up to a powerful way to focus teaching and learning. Definitely a 'must have' for all maths teachers!'

Tim Rylands, Junior Education

'Having this specialised Toolbox means that you can get to the tools and images you need for a maths lesson in a matter of seconds. It's highly likely that your maths teaching will become more effective as a result.'

ICT Ideas

AGES
4–14

Written by Anita Straker,
Paula Beverley, Fran Wilson

Straightforward advice, ideas and activities using the *Mult-e-Maths Toolbox* to support effective teaching and learning with an interactive whiteboard.

- Gives you the confidence to use your **interactive whiteboard** to deliver appropriate aspects of the maths curriculum.
- Helps you embed **using and applying** into your lessons, fostering a problem solving approach to each objective.
- *Talking points* emphasises **speaking and listening**, as encouraged within the renewed Framework, helping children to make connections between different concepts.
- Teacher's Books help you **adapt and develop** the ideas from the prepared activities provided on the accompanying CD-ROMs.
- Hundreds of ideas for the busy teacher, all **matched to the renewed Primary Framework** objectives.

NEW

Apex Maths Word Problems

AGES 5–11

Written by Paul Harrison and Peter Clarke

An extensive database of mathematical word problems that will save you time and provide children with motivating problems to solve.

- Mix and match problems by complexity, mathematical operation and topic to tailor work to the needs of individual pupils.
- Flexible use – the photocopiable sheets can be generated quickly for early finishers or homework, used as class work, or planned for an end-of-topic test.
- Whiteboard-friendly so you can teach or consolidate problem solving skills, or draw ideas together in a plenary.
- Answers are included to save your time, together with useful advice on teaching and learning problem solving strategies.
- Helps you embed the use and application of key calculation skills into your lessons.
- The new 6 Extension CD-ROM provides word problems for your more able year 6 who are working at Level 5.

'*Apex Maths Word Problems* has been designed with the busy teacher in mind. With a few clicks of the mouse teachers can draw on a wide-ranging bank of 'story' problems to create high-quality worksheets with electronic whiteboard versions if needed.'

Paul Harrison, author

'*Apex Word Problems* are an ideal source for providing relevant real life problems. They are flexible and easy to use and allow the teacher to make the necessary changes to make the problems easier or harder but contextually the same. We would recommend the *Apex Maths* CD-ROMs to other maths co-ordinators.'

A Maths Dictionary for Kids

AGES 4+

By Jenny Eather

A Maths Dictionary for Kids is an animated, interactive dictionary for primary children which explains over 470 common mathematical terms in simple language.

- Contains definitions, examples, activities, practice and calculations related to terminology found in the Primary Framework.
- Can be used in many ways during daily mathematics lessons, for whole-class, group, paired or individual activities.
- Provides illustrated and interactive examples to help children recognise, understand and use correct mathematical terms.
- Can be used on an interactive whiteboard by the teacher to demonstrate new terminology, for introducing oral starters and for exploring plenary ideas.
- Can be used on computers to provide consolidation and practice for all children.

For PC only

Perfect Times

AGES 4+

Created by Wendy Fortescue-Hubbard

Perfect Times is suitable for all ages, and is stimulating and challenging for children and adults alike. It has been created by Wendy Fortescue-Hubbard, maths specialist and TES Mathagony Aunt.

- Fun and motivating games help pupils to improve their knowledge of number facts, as encouraged by the renewed Primary Framework.
- Raises standards for all ability levels and ages.
- Helps you to teach and reinforce number recognition, multiplication and division skills as well as common number sequences.
- Allows you to set learning programmes to meet individual pupil needs.
- Results can be displayed as printable graphs so that you can monitor progress easily and set targets.
- For use on a whiteboard with the whole class or on single computers for individual learning.
- Standardises the assessment of fluency through a time score.

For PC and Mac

NEW *From May 2007*

i-read Key Stage 1

AGES 5–7

Series Editors Pie Corbett and Ann Webley

i-read is an easy-to-use resource that has been specially designed for teaching reading skills and strategies to the whole class using an interactive whiteboard. *i-read* offers continuity and progression in learning to read from Year 1 to 6.

The stories, poems and non-fiction in *i-read* KS1 have been written to develop children's reading skills by building word-, sentence- and text-level work onto their enjoyment of a high-quality text.

- High quality, whole texts from top children's authors including Martin Waddell, Debjani Chatterjee, Val Bloom and Tony Bradman to foster reading for pleasure.
- Integration of poetry, fiction and non-fiction on one CD-ROM to support your planning and delivery.
- Each CD-ROM contains nine themes and can be easily integrated into your existing schemes of work.
- Accompanying books can be used for guided group reading or homework to consolidate skills learnt in the whole-class session.
- Objectives match the renewed Primary Framework, including the need to read texts on screen.

NEW

i-read
Key Stage 2

AGES 7–11

Series Editor Pie Corbett

i-read is an easy-to-use resource that has been specially designed for teaching reading skills and strategies to the whole class using an interactive whiteboard.

- Built around the idea of the direct teaching of reading – you demonstrate different strategies then the children have a go themselves.
- Music, video clips, sound effects, poetry readings, oral storytelling and dialogues hone listening skills and help children engage with the text.
- Pupil anthologies support guided and independent reading away from the whiteboard. The anthology packs contain four copies each of the fiction, non-fiction and poetry anthologies.
- Engaging stories and non-fiction texts have been newly written by children's (and your!) favourite authors.
- Easily integrated with cross-references to the renewed Primary Framework, the Scottish 5–14 Guidelines and the Northern Ireland Lines of Development.
- Supports the teaching and learning of reading and manages the transition from reading to writing.

www.cambridge-hitachi.com/i-read

'*i-read* covers all learning styles and really brings the text alive with its use of audio and video clips.'

Literacy Co-ordinator,
Delphside C P School, Lancs.

Penpals for Handwriting CD-ROMs

AGES 3–11

Written by Gill Budgell and Kate Ruttle

Penpals for Handwriting is a complete handwriting scheme that ensures progression from early development of gross and fine motor skills to confident letter formation and accomplished joins. The CD-ROMs are ideally used alongside the print materials, published by Cambridge University Press.

The CD-ROMs offer:

- animations of letter formations and key joins for a perfect model – taking the pressure off you!
- animated sky-writing patterns for practising letters and joining patterns in the air
- videoed exercises for gross and fine motor skills to prepare pupils for handwriting
- video clips for guidance on correct posture and pencil hold for left- and right-handed pupils
- teacher's notes to support you in directly teaching handwriting
- presentation skills and revision of basic handwriting issues at Years 5 and 6.

www.cambridge.org/penpals

'A brilliant resource for teaching handwriting and a highly appropriate use of ICT to enhance the delivery of literacy.'

Junior Education

'*Penpals* has really made a difference to all our pupils – one boy in particular has turned a corner so much so that his parents didn't even recognise his handwriting!'

▲ Phonics Focus

▼ Storybook Phonics 3

Every morning, Mrs Troy
boiled an egg for her little boy.
But Roy said, in a sulky voice,
"I hate boiled eggs, so take it away.
I want some popcorn for breakfast today."

Phonics Focus

AGES 5–9

Written by Kate Ruttle

Phonics Focus helps pupils to accelerate their learning of phonics to become confident and successful spellers.

- Structured, progressive and cumulative practice activities for all pupils.
- Especially beneficial for those who struggle with spelling.
- Record and track progress and set a sequence of work to give children support where it is needed most.
- Customise activities with your own word lists so that practice is tailored to individual needs.
- Can be use alongside any phonics or spelling programme.
- Designed for individual use at a computer.

Storybook Phonics

AGES 4–7

Written by Tony Mitton, Cynthia Rider, Francis Lynne and Kate Ruttle

Storybook Phonics offers a story-based approach to phonics practice that helps pupils to read with confidence.

The stories are:
- attractively illustrated and animated to motivate pupils
- brought to life by engaging narrators
- supported by fun, interactive games
- also available as pupil's books published by Cambridge University Press – an ideal guided reading resource
- ideal for independent and pair work on computers, and for whole-class work using an interactive whiteboard
- supported by printable teacher's notes.

Vikings!

AGES 7–11

Vikings! is a unique CD-ROM made up of two components that are rich in teaching resources and interactive learning experiences for pupils.

- *Sagas and Sums* transports children to the year AD 900.
  - Five sagas build up to a complete story about Erik's journey to his new home in England and his subsequent life here.
  - What children learn through the sagas can then be compared with what they unearth in a fascinating, virtual archaeological dig.
- *The World of the Vikings* is an unparalleled resource for Key Stage 2 history and project work.
  - Twelve themed evidence boxes contain primary source material covering all aspects of Viking life.
  - The research database has 20 minutes of original video, plus over 3600 images of sites, landscapes, artefacts and excavations drawn from 18 countries across the Viking world.

For PC and Mac

Victorian Britain

AGES 7–11

Victorian Britain provides motivating support for Key Stage 2 history, literacy and citizenship. It is made up of two components, the Virtual Burton CD-ROMs and a linked *Victorian Britain Online* website.

- *Virtual Burton* evokes the sights and sounds of Burton upon Trent in 1881 and includes a faithful reconstruction of 450 buildings.
- Pupils can question thirteen characters about their different backgrounds as they go about their daily lives, allowing them to understand what life was like in 1881.
- The exceptional graphics will make an immediate impact with your class when you explore *Virtual Burton* using an interactive whiteboard.
- The two CD-ROMs include a wealth of resource material, plus teacher notes and pupil worksheets.
- The linked *Victorian Britain Online* website enables pupils to connect with a series of interactive, illustrated stories. Each story has a narrated version so pupils can work individually at a computer.

▼ Shakespeare's Language CD-ROM

NEW
Cambridge School Shakespeare Picture Collections

AGES 11–19

Part of the bestselling and well respected *Cambridge School Shakespeare* series, these CD-ROMs are designed to support students' exploration of interpretation, staging and performance.

- A fantastic collection of production photographs from a wide range of stage and film versions.
- Flexible for whole-class teaching using interactive whiteboards or for independent work at a single machine.
- Using these CD-ROMs you will be able to:
  – discuss elements of interpretation, performance and staging
  – compare and contrast different productions
  – listen to parts of the plays, and record your own speeches!
  – annotate images with speech and thought bubbles
  – sequence images and create your own storyboards.
- Each CD-ROM includes editable teacher's notes, lesson ideas and worksheets – all fully differentiated for use with students aged from 11 to 19.

Shakespeare's Language CD-ROM

AGES 11–19

Help students to grasp how Shakespeare's dramatic language expresses the conflicts which are at the heart of all drama. This electronic version of the popular teacher's resource book *Shakespeare's Language* offers enjoyable and motivating analysis of language to reveal important wider aspects of the play being studied.

- Contains 150 worksheets which cover a wide variety of stimulating activities to support class discussion, drama, group presentations and homework.
- All worksheets are editable, enabling you to tailor them to your students' needs.
- Search by play or language topic to find the most appropriate worksheet for your class quickly and easily.
- This flexible resource can be used to enrich the study of Shakespeare at Key Stages 3–5.
- The CD-ROM also features: a cross-referencing facility, enabling you to move easily between related worksheets; a glossary with hyperlinks to worksheets and teacher's notes giving background information.

For PC only

Cambridge Gateway Sciences Whole Class Teaching

Deliver captivating lessons with the new *Cambridge Gateway Sciences* Whole Class Teaching software for the new OCR GCSE specification B.

- Two separate CD-ROMs for Science and Additional Science.
- Can be used for starters, plenaries or to teach the main part of a lesson.
- The software can be used on an interactive whiteboard, with a data projector or on individual computers.
- Offers different ways to approach more challenging scientific concepts, making them more accessible.
- The 'lesson builder' feature allows you to tailor-make and edit text for your own lessons.
- Can be used as a blended learning solution with the *Cambridge Gateway Sciences* textbooks and other class books, or as a stand alone resource.

For PC and Mac

Science Whole Class Teaching	978-1-84565-964-6	£480.00 + VAT
Additional Science Whole Class Teaching	978-1-84565-965-3	£480.00 + VAT

Price includes site and network licences.

For associated print resources, see the secondary science catalogue from Cambridge University Press. Call 01223 325588.

NEW

Cambridge Gateway Sciences Teacher Files

Provide lesson plans and activity sheets, plus advice on the best way to use the *Cambridge Gateway Sciences* resources. They provide each teacher with their own work area and the ability to share planning work done by other teachers.

For PC and Mac

Science Teacher File	978-1-84565-127-5	£250.00 + VAT
Additional Science Teacher File	978-1-84565-129-9	£250.00 + VAT

Price includes site and network licences.

NEW *From March 2007*

Cambridge Gateway Sciences Online

Cambridge Gateway Sciences Online offers you a science resource that will really engage your students at school or at home.

- A secure on-line resource for school-based teaching or for use at home for teacher preparation or students to complete assignments.
- Hosted by Cambridge–Hitachi, it is easy-to-use and minimises server requirements.
- Access both Science and Additional Science content at the same time, and use a combination of both to create student assignments.

Cambridge Gateway Sciences Science Online

Initial payment	978-1-84565-162-6	£480.00 + VAT
Annual subscription after 1st year		£190.00 + VAT

Scientific Enquiry

AGES 11–14

Scientific Enquiry is a set of three fully networkable CD-ROMs for Key Stage 3, covering the scientific enquiry objectives set out in the Science Framework. There is one CD-ROM per year, each containing twelve topics comprising activities designed for use within the units of the QCA Scheme of Work.
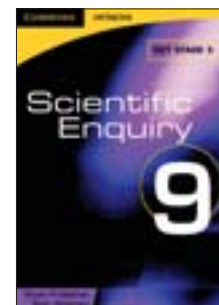

- By breaking down the teaching of scientific enquiry skills into topics matched to the QCA units, the CD-ROMs provide you with a way to teach scientific enquiry as small chunks within your normal teaching, as suggested by the Science Strategy.
- All activities can be saved, and there is a print option providing pupil record sheets to help with assessing progress.
- Integrate scientific enquiry skills into teaching in line with the Framework objectives and QCA Scheme of Work guidance.
- Support the transition of skills learning from Key Stage 2 to Key Stage 3.
- Record and build on pupil progress with scientific enquiry skills.

For PC and Mac

Assessment for Learning

AGES 11–14

This CD-ROM is an invaluable referencing tool for the whole of Key Stage 3, following the assessment for learning approach. It provides you with levelling target sheets and clear references to aid monitoring student performance.

- Helps you to identify gaps in your students' knowledge so they can revisit concepts and ideas for revision and consolidation.
- Provides you with levelling target sheets and clear reference material so you and your students can recognise what level they are at and where they can find suitable materials to revise and revisit concepts.
- The levelling target sheets and reference material are easy to print off and are provided in Microsoft Word, Excel and PDF formats for flexibility, allowing you to set your own targets if you wish.
- The sheets are referenced to the QCA Scheme of Work and other Cambridge–Hitachi science resources, including *Scientific Enquiry* and *Reviewing and Checking Progress* so you can clearly identify material to revisit concepts.

Assessment for Learning	978-1-84565-960-8	£200.00 + VAT

Price includes site and network licences.

Reviewing and Checking Progress

AGES 11–14

Reviewing and Checking Progress CD-ROMs are effective tools for assessing student progress without formal testing. They use a range of innovative activities based on suggestions from the QCA Scheme of Work to ensure full coverage of the curriculum.

- The activities are specially designed to review elements of the QCA Scheme of Work and check student progress.
- Includes a wide range of simulations, animated exercises, quizzes, games and group activities, including a statement map builder.
- Free teacher's notes and model answers are available online from www.cambridge-hitachi.com/reviewingandchecking.
- Flexible – for use on an interactive whiteboard, with a data projector or on individual computers.

For PC and Mac

Year 7 CD-ROM	978-1-84565-018-6	£159.75 + VAT
Year 8 CD-ROM	978-1-84565-019-3	£159.75 + VAT
Year 9 CD-ROM	978-1-84565-020-9	£159.75 + VAT

Price includes site licence. Network licence covering all three discs available for £159.75 + VAT

'The students were focused during the individual activity and enjoyed it. They liked the variety it added to lessons.'
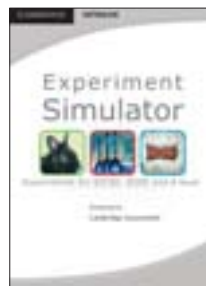

Liz Goffin, Charters School, Ascot

Experiment Simulator

AGES 14+

Providing you with six simulated experiments, based on real life experimental data, including scientifically valid error ranges. The design of the product, with little text on screen, makes the simulations ideal as an all-class teaching tool and allows you to use the accompanying worksheets, lesson plans, and static artworks at either GCSE or AS level.

- Simplicity of use also allows students to use the product independently.
- Aimed purely at experimental science and experimental skills development.
- Real error ranges are included to produce realistic results.
- Ideal for whiteboard or data projector, or for use on individual computers.

For PC and Mac

Experiment Simulator   978-1-84565-140-4   £204.00 + VAT

Price includes site licence. Network licence available for £102.00 + VAT

www.cambridge-hitachi.com/simulator

Bioscope

AGES 14+

Bioscope is a fully functioning simulation of a real microscope that has been developed by Cambridge Assessment and the University of Derby Centre for Interactive Assessment Development.

- A real microscope simulation with 56 sets of botanical and zoological microscope slides at a range of magnifications, accompanied by more than 50 hours of student tasks.
- Ideal for students to practise their observation skills, or work to develop and improve their practical skills such as focusing, stage movement and measurement.
- Versatile – can be used for whole class teaching via an interactive whiteboard or by individual students on PCs.
- The slides are suitable for use with most A Level syllabuses, and tasks have also been included for GCSE, IGCSE and O Level students.

For PC only

Bioscope CD-ROM   978-1-84565-026-1   £212.00 + VAT

Price includes site licence. Network licence available for £106.00 + VAT

'Offers both versatility and quality.'

TES

Human Body Systems

AGES 14+

The *Human Body Systems* CD-ROMs provide a rich archive of teaching materials to support science teaching, including animations, video clips, photos, diagrams and activities.

- A rich range of dynamic and exciting resources to add variety to your science teaching.
- Clear animations, including powerful 3-D models and simulations, present challenging concepts in an accessible way.
- Video clips, photographs and diagrams vividly illustrate topics, supported by activities to consolidate learning.
- An innovative navigation radar shows how topics interrelate and allows you to explore linked topics with ease.
- Flexible – for use on a whiteboard, with a data projector or on individual computers.

For PC and Mac

Human Body Systems 1 978-1-84565-029-2   £230.00 + VAT
Human Body Systems 2 978-1-84565-030-8   £230.00 + VAT

'Colourful and well laid out.'
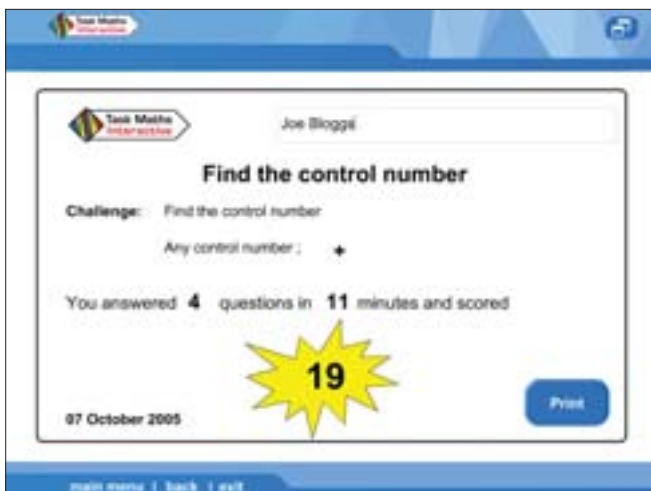

Schoolzone reviewer

▲ Task Maths Interactive – Sequence Machines activity

▼ Task Maths Interactive – Summary screen

NEW

Task Maths Interactive

AGES 11–14

Each *Task Maths* CD-ROM contains an engaging task for whole class and individual pupil use with teacher support material and worksheets. The tasks provide a coherent structure for several weeks' work and can be used flexibly for a consolidated piece of work, a starter activity or during a plenary.

- There are different levels of challenge within each task with core questions linked to objectives and further ideas for extension and problem solving.
- Pupils can enhance and consolidate their understanding of key mathematical concepts from the KS3 Programme of Study while solving problems. Different activities within each task focus on objectives across all the year groups.
- All the activities are adaptable so you can set up the software to suit your requirements.
- Printable worksheets are included for consolidation away from the computer or to set situations to investigate with the computer.
- The Teacher's Notes suggest a range of different activities for each task with detailed guidance offering a wealth of creative ideas.
- The material is organised by tasks rather than by content to be suitable for pupils with a wide range of abilities.

PC and Mac

Vital Statistics

AGES 14+

An enjoyable and flexible CD-ROM that enables you to teach statistics with ease and build your students' confidence as they learn and revise. *Vital Statistics* supports the teaching of statistics to GCSE Foundation level and the discrete sections make it ideal for revision at Key Stages 3 and 4.

- Divided into easy-to-teach sections: Data Collection; Tabulation and Representation; Diagrammatic Representation; Data Analysis; Summary Statistics and Probability.
- Clear explanations and animated examples support independent learning.
- Interactive exercises allow students to test their understanding.
- All sections are supported with paper-based worksheets.
- Can be used for whole-class teaching using an interactive whiteboard or for individual work for independent learning.
- Covers topics and knowledge for the Foundation GCSE Statistics course and beyond.

For PC and Mac

Vital Statistics CD-ROM   978-1-84565-025-4   £185.50 + VAT

Price includes site licence. Network licence available for £334.50 + VAT

'I found this to be a very versatile piece of software.'

Headteacher,
Saint Benedict Catholic School

Mult-e-Maths Toolbox

A flexible set of tools that you can combine and use to create customised maths lessons.

- Contains eight mini toolboxes, arranged by mathematical strand which are easily accessible at all times.
- Use multiple sheets to set up progressive maths lessons in a single document.
- Easily demonstrate concepts that can't be easily shown in any other way.

See page 4 for full details.

NEW

## Ideas Using the Mult-e-Maths Toolbox at Lower Secondary

AGES 11–14

This excellent resource gives you exciting ideas and suggestions for using the *Mult-e-Maths Toolbox* at Key Stage 3. The handbook and CD-ROM include:

- Ready-made activities linked to medium term plans that fit directly into schemes of work.
- Pre-selected Toolbox files for immediate use with no set-up required.
- Specific ideas for lesson starters and plenaries that can be used straight away.

See page 5 for full details.
