NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The Safety of Your Ears is in Your Hands

Get the most out of your equipment by playing it at a safe level – a level that lets the sound come through clearly without annoying blaring or distortion and, most importantly, without affecting your sensitive hearing. Sound can be deceiving. Over time, your hearing "comfort level" adapts to higher volumes of sound, so what sounds "normal" can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level BEFORE your hearing adapts.

ESTABLISH A SAFE LEVEL:

- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:

- Do not turn up the volume so high that you can't hear what's around you.
- Use caution or temporarily discontinue use in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle; the use of headphones may create a traffic hazard and is illegal in many areas.

For U.S.A. IMPORTANT SAFETY INSTRUCTIONS

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer.
- 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

How to read this manual

 Thank you for buying this Pioneer product. Be sure to read both this leaflet and the operating instructions! Both documents include important information that you must understand before using this product.

After you have finished reading the instructions, put them away in a safe place for future reference.

- For instructions on acquiring the operating instructions, see Acquiring the manual (p. 12).
- In this manual, names of screens and menus displayed on the product and on the computer screen, as well as names of buttons and terminals, etc., are indicated within brackets. (e.g.: [CUE] button, [Files] panel, [MIC] terminal)
- Please note that the screens and specifications of the software described in this manual as well as the external appearance and specifications of the hardware are currently under development and may differ from the final specifications.
- Please note that depending on the operating system version, web browser settings, etc., operation may differ from the procedures described in this manual.

Features

This unit is an all-in-one DJ system combining Pioneer DJ units that have earned a high reputation among professional DJs for their high operability with the "Serato DJ Intro" DJ software from Serato. This unit is equipped with a large body and "Big Jog" dials optimum for scratching as well as performance pads allowing tracks to be arranged with such dynamic actions as tapping and rolling, so that the various functions of Serato DJ Intro can be operated intuitively and accurately. There is also a built-in sound card (audio interface), eliminating the need for complex wiring and settings so that users can start making DJ performances immediately.

What's in the box

- CD-ROM (Installation Disc)
- USB cable
- Warranty (for some regions)[⊥]
- Read Before Use (Important)/Quick Start Guide (this document)
- 1 The included warranty is for the European region.
 - For the North American region, the corresponding information is provided on the last page of both the English and French versions of the "Read Before Use (Important)/Quick Start Guide".
 - For the Japanese region, the corresponding information is provided on the last page of the Japanese version of the "Read Before Use (Important)/Quick Start Guide".

Installing the software

Before installing the software

For the latest version of the Serato DJ Intro software, access Serato. com and download the software from there. A software download link is also provided on the included CD-ROM.

- For details, refer to Installation Procedure (Windows) or Installation procedure (Mac OS X).
- The user is responsible for preparing the computer, network devices and other elements of the Internet usage environment required for a connection to the Internet.

About the driver software (Windows)

This driver software is an exclusive ASIO driver for outputting audio signals from the computer.

• There is no need to install the driver software when using Mac OS X.

Checking the latest information on the driver software

For detailed information on this unit's designated driver software, see the Pioneer DJ support site below. http://pioneerdj.com/support/

About the Serato DJ Intro software

Serato DJ Intro is a DJ software application by Serato. DJ performances are possible by connecting the computer on which this software is installed to this unit.

Operation

Always disconnect the USB cable before making or changing equipment connections.

Be sure to use the USB cable included with this product.

Refer to the operating instructions for the component to be connected. With this unit, the power is supplied by USB bus power. The unit can be used simply by connecting it to a computer using the USB cable.

- Connect the computer to which this unit is to be connected to an AC power supply.
- A USB hub cannot be used.
- In cases like the ones below, the power may be insufficient and this unit may not operate on USB bus power.
 - $-\!-$ When the computer's USB power supply capacity is insufficient.
 - When other USB devices are connected to the computer.
 - When headphones with an impedance of less than 32 $\boldsymbol{\Omega}$ are connected.
 - When headphones are simultaneously connected to the stereo phone jack and the stereo mini-phone jack.
 - When a monaural jack is connected to the [HEADPHONES] terminal.

Connections

1 Connect headphones to one of the [HEADPHONES] terminals.

2 Connect such devices as a power amplifier, powered speakers, etc., to the [MASTER OUT] terminals.

- For details on connecting the input/output terminals, see the Operating Instructions.
- 3 Turn on the computer's power.
- 4 Connect this unit to your computer via a USB cable.

For Windows users The message [Installing device driver software] may appear when this unit is first connected to the computer or when it is connected to a different USB port on the computer. Wait a while until the message [Your devices are ready for use] appears.

5 Turn on the power of the devices connected to the output terminals (power amplifier, powered speakers, etc.).

 When a microphone is connected to input terminals, the power of the microphone also turns on.

B Waveform display

The loaded track's waveform is displayed here.

C Browser section

Crates in which tracks in the library or sets of multiple tracks are stored are displayed here.

This manual consists mainly of explanations of functions of this unit as hardware. For detailed instructions on operating the Serato DJ Intro software, see the Serato DJ Intro software manual.

Importing tracks

The following describes the typical procedure for importing tracks.

- There are various ways to import tracks with the Serato DJ Intro software. For details, see the Serato DJ Intro software manual.
- If you are already using Serato DJ software (Scratch Live, ITCH or Serato DJ) and have already created track libraries, the track libraries you have previously created can be used as such.

1 Click the [Files] key on the Serato DJ Intro software screen to open the [Files] panel.

The contents of your computer or the peripheral connected to the computer are displayed in the [Files] panel.

2 Click the folder on the [Files] panel containing the tracks you want to add to the library to select it.

3 On the Serato DJ Intro software screen, drag and drop the selected folder to the crates panel.

A crate is created and the tracks are added to the library.

Troubleshooting

- Incorrect operation is often mistaken for trouble or malfunction. If you think that there is something wrong with this component, check the points below and the [FAQ] for the [DDJ-SB] on the Pioneer DJ support site.
- Sometimes the problem may lie in another component. Inspect the other components and electrical appliances being used. If the problem cannot be rectified, ask your nearest Pioneer authorized service center or your dealer to carry out repair work.
- This unit may not operate properly due to static electricity or other external influences. In this case, proper operation may be restored by turning the power off, waiting 1 minute, then turning the power back on.

The indicator flashes and operation is strange.	-	It is sometimes possible to restore normal operation by disconnecting the included USB cable, waiting at least 1 minute, then reconnecting the USB cable. If the same problem persists, disconnect the USB cable then request repairs.
Tone does not change when the [FILTER] control is operated.	Is the filter fade function on? When the filter fade function is on, the tone does not change when the [FILTER] control is operated.	Turn the filter fade function off.

Problem	Check	Remedy
Serato DJ Intro operation is unstable.	Are you using the latest version of the software?	Free updates of Serato DJ Intro can be downloaded from the website. Use the most recent version. (page 4)
	Are you using softwares other than Serato DJ Intro at the same time?	Quit other applications to decrease the load on the computer. If operation continues to be unstable, try disabling the wireless network or other wireless connections, antivirus software, the screen saver, the low power mode, etc.
	Is another USB device connected to the computer?	Disconnect other USB devices from the computer. When another USB audio device is connected to the computer at the same time, it may not operate or be recognized normally.
	Are you using a USB hub?	USB hubs cannot be used. Connect the computer and this unit directly using the included USB cable.
	There is a problem with the USB port to which this unit is connected.	If your computer has multiple USB ports, try connecting this unit to a different USB port.
	Is this unit connected to a notebook computer running on its battery?	Supply power to the notebook computer from an AC power supply. (Depending on the notebook computer's settings, the low power mode may be set when the computer is running on its battery, automatically reducing the performance of the computer itself.)
	The USB buffer size is too small.	Raise the USB buffer size.
The BPM is not displayed.	Has the track been analyzed?	Analyze the track.
The sync and auto loop functions do not work.	Is [Set Auto BPM] checked in the offline player settings?	Re-analyze the track with [Set Auto BPM] checked. For detailed instructions on analyzing tracks, see the Serato DJ Intro software manual.
BPM is not displayed properly.	Is the BPM analysis range set appropriately in the offline player settings?	Change the BPM analysis range, then re-analyze the track. If this does not solve the problem, set the BPM manually.
