Step 4 – Start trading

1. Select the currency pair you would like to trade from “Quotes” and select “Trade”.

2. Select the type of order by pressing “Market Execution”, and then select the “trading volume”.

3. Order Type

i) Market execution – after selection of the correct trading volume, press “Sell by Market” or “Buy by Market” to execute.

The screenshot shows a trading interface for AUDUSD.v1. At the top, there is a navigation bar with a back arrow and the text "Trade AUDUSD.v1". Below this, the text "Market Execution" is centered. A row of volume buttons includes "-0.1", "-0.01", "0.01", "+0.01", and "+0.1". Below the volume buttons, there are two large price buttons: "0.9407³" (highlighted in red) and "0.9408⁸" (highlighted in blue). Underneath these are two buttons: "Sell by Market" (red) and "Buy by Market" (blue). A price chart is displayed below, showing two lines: a blue line for the bid price and a red line for the ask price. The y-axis ranges from 0.94055 to 0.94095. The current bid price is 0.94088 and the ask price is 0.94073. At the bottom, a text box states: "With Market Execution the price depends on the market situation. The order price will be quoted by a dealer."

ii) Pending order - Buy limit

After selection of “Buy Limit”, enter the price and other details if necessary, then press “Place” to place the order.
