Warranty:	90 Days

CAUTION! Please read and understand these instructions before installing or operating this unit. Never open unit when in use

Operating Instructions:

The Electro Splash is a powerful effect for clubs and dj's. The Electro Splash is a light weight, compact moonflower effect. This unit features an internal microphone that allows the beams to be triggered by sound. The Electro Splash's beams bounce up and down to the beat of the music. The Electro Splash is ready to be hung or set on the ground in a safe position. When mounting this unit to truss be sure to use a clamp. Plug the unit in to a standard wall outlet. After plugging the unit in, the fixture will react to the beat of the music via the sound active internal microphone. The unit has a sensitivity knob on the rear of the unit that makes more or less sensitive to sound. Turning the knob in clockwise direction will make the unit more sensitive to sound. The unit requires sound to activate the movement.
