## HYSTORICAL AUTHENTICITY AND "MADE IN ITALY" VALUES

Medel was established in Parma in 1966. It started its business in the field of inhalation with the development of aerosol therapy systems. Medel aerosol devices soon built a reputation for their simplicity of use combined with the utmost efficacy. Today Medel is proud of its technological innovations, real solutions that have obtained worldwide patents. Thanks to its professionalism over the years, Medel has become a leader in the medical field. Medel technological developments have made life easier for millions of people all over the world. A strong propensity towards genuine new advances and a desire to deliver its vision in other settings, still connected to the health and well being of the individual, are the factors that have driven the company to establish its credentials in different fields and define Medel as a robust and yet diverse reality.

The company claim.....FOR YOUR HEALTH is evidence of its historical values. "Innovation and Technology for your health" is our mission. Over time this development has seen the introduction of new product lines and categories, for example Diagnostics (Blood pressure monitors and thermometers), Wellbeing (Humidifiers, scales, heating pads, oral care) Fitness (heart rate monitors, electro-stimulators, step counters). At the same time different brands have been introduced: Mebby Love & Science, an innovative product line dedicated to babies and mothers. Sinuosa, a beauty experience and Zeiner for professional medical equipment. The Medel Group is now a well established entity, with its brand names distributed all over the world through nursery stores, high quality pharmacies and medical product stores. It exports over 60% of its production and is represented in over 70 countries, including the United States, Europe, Japan and the Arab states.

The company strategic focus is its commitment to quality and sensitivity to the needs of patients and clients all over the world. This dedication to quality is officially acknowledged year after year by some of the worlds' most important institutions: in 1994 Medel was the first European company to gain accreditation by the Japanese Quality Assurance organisation (JQA), whilst its operations have conformed to the Quality System certification, ISO 9001 and ISO 13485. The Medel Group; based in Italy with an international reputation.

# MEBBY PHILOSOPHY

## A NEW GENERATION OF BABY PRODUCTS FROM THE FASTEST GROWING ITALIAN NURSERY BRAND

Medel is experienced in the research and development of innovative products.

It also has close collaboration with the academic and medical world. These factors combined with direct daily contact with consumers have helped to bring about the creation of the Mebby brand for the world of early childhood.

**Mebby Love & Science** is an innovative product line dedicated to babies and mothers, where love and science are fused to guarantee safety and efficacy.

Our promise and commitment is to study a new generation of more efficient products with enhanced safety, ever closer to the needs of infants and mothers whilst continuing to respect the environment in which we live.

# BREAST FEEDING

# BREAST FEEDING

GENTLEFEED.

## ELECTRIC BREAST PUMP GENTLEFEED MONO

The Gentlefeed Mono is a single channel electric breast pump that creates a gentle vacuum effect that can be adjusted to suit your individual needs. The liner is made from extremely soft silicone that contracts during the suction to further stimulate let down. These two features help to mimic the baby's suckling. It is equipped with a single suction cup, one 250ml milk container and lid. This is useful to preserve the breast milk either in the freezer or in the refrigerator. It is supplied with a handy carrying case. Optional rechargeable batteries available.

Cod. 91388

CE 0123

## ELECTRIC BREAST PUMP GENTLEFEED DUO

The Gentlefeed Duo is a double channel electric breast pump that creates a gentle vacuum effect that can be adjusted to suit your individual needs. The liner is made from extremely soft silicone that contracts during the suction to further stimulate let down. These two features help to mimic the baby's suckling. The Duo can be used on both breasts simultaneously. It is equipped with two suction cups, two 250ml milk containers and lids. These are useful to preserve the breast milk either in the freezer or in the refrigerator. It is supplied with a handy carrying case. Optional rechargeable batteries available.

Cod. 91536

CE 0123

## MANUAL BREAST PUMP GENTLEFEED MANUAL

The Gentlefeed Manual is a manual breast pump that creates a gentle vacuum effect that can be adjusted to suit your individual needs. The liner is made from extremely soft silicone that contracts during the suction to further stimulate let down. These two features help to mimic the baby's suckling. It is equipped with a single suction cup, one 250ml milk container and lid. This is useful to preserve the breast milk either in the freezer or in the refrigerator.

Cod. 91494

CE 0123

## KIT BREAST PUMP GENTLEFEED KIT

Gentlefeed Kit is equipped with a 250ml container with lid, soft silicone liner and suction tube.

Cod. 91496

CE 0123

## **THERMAL BAG** **GENTLEFEED THERMOBAG**

Mebby thermobag is a thermal case for food and bottles. It contains: two 250 ml container with lid and two cold/hot pack sleeves.

Cod. 91559

## **BREAST MILK CONTAINER** **GENTLEFEED CONTAINER**

Mebby containers are the ideal solution to store any excess breast milk or when the mother cannot breastfeed her baby. They are suitable for storage in the refrigerator or the freezer. The containers have a tight seal that preserves the milks' nutrients and offers the best hygienic conditions. They are also useful when travelling.

Cod. 90750

# BOTTLE WARMER

## LCD BOTTLE WARMER HOME & CAR

The Mebby LCD bottle warmer is equipped with a LCD monitor that allows selection of the desired temperature and, by means of a timer button, control of the period of heating. A table located on the back of the product and the instruction manual show the amount of time and quantity of water necessary for use. It can be used with all types of bottles and is equipped with a basket for baby food jars and food carrier for heating food directly in the device.

If the device is not switched off, the temperature maintenance function allows the warmer to remain at the set temperature. Equipped with a car adapter, it is useful for keeping food and milk always warm.

Cod. 91599

CE 0123

## QUICK BOTTLE WARMER HOME & CAR

The Mebby quick bottle warmer heats the bottles and food jars in 3/7 minutes, depending on the quantity and the initial temperature of the food. Fill the measuring cup with water to the appropriate measuring point depending on whether you are heating bottles or jars. The bottle warmer is supplied with a dedicated measuring cup holder. Suitable even for wide neck bottles. The lift-out basket enables you to position or remove the food jar easily. A "beeping" sound and the indicator light alert you that the warming cycle is complete. The warmer automatically shuts off.

Cod. 91108

CE 0123

BOTTLE - FEEDING

# STERILISERS

## MICROWAVE STERILISER

The Mebby microwave steriliser, sterilises 5 bottles in 8 minutes helping to eliminate germs and bacteria in a quick and natural way. The lid is fitted with two vent valves to minimise residual steam. The side clips guarantee a perfect seal and do not heat, allowing you to handle the steriliser in complete safety. It is also very convenient as a carry case when travelling.

Cod. 91866

CE 0123

## ELECTRIC STERILISER MONO

The Mebby Mono steriliser is provided with a special chamber to retain residual steam. The water that condenses during sterilisation is collected in this chamber. This prevents it from coming into any further contact with the items in the steriliser. When the sterilising cycle is finished, you can simply throw this excess water away, so there is no risk of re-using it in the appliance. When the sterilising cycle is finished, the appliance will automatically switch off and makes a beep alert sound 8 times. Large capacity: hold up to 6 baby bottles and accessories.

Cod. 91597

CE 0123

## ELECTRIC STERILISER DOUBLE

The Mebby Double steriliser has two functions: sterilising and drying. It has an LCD display. By pressing "Sterilize" the appliance will start sterilising; by pressing "Sterilize/Dry" the appliance will start sterilising and automatically dry the accessories at the end of the cycle; by pressing "Dry" the appliance will dry only. At the end of each cycle, the appliance makes a beep alert sound 8 times. Once your chosen procedure is completed, the steriliser will start to automatically count down for 12 hours. If it is still plugged into the mains at the end of this time and another cycle has not started, it will alert you to start another cycle. This system is to help guarantee the health and safety of your baby. Large capacity: holds up to 6 baby bottles and accessories.

**HYGIENE**

# DERMOCOSMETICS

## COSMEBBY

### PROTECTIVE PASTE

The gentle skin-protective paste is a nappy change cream formulated with great care and love to prevent counter chapping and inflammation of baby's skin caused by rubbing against nappies and the prolonged contact with physiological liquids. Its gentle formulation is enriched with Corn Starch and Vitamin F. It protects and prevents skin disorders, quickly restores the natural skin condition and soothes irritations. Dermatologically tested, it is paraffin and comedogenic substances free.

Cod. 91509

### SKIN PROTECTIVE MOISTURIZING

The skin-protective moisturizing cream has been carefully developed with care and love to moisturize and protect the sensitive delicate skin of your baby from external factors (pollution, chemicals, etc) when out walking, after a day spent outdoors, on a journey or before sleeping. Its gentle formulation with Beeswax, Ginkgo Biloba Phytosome, Chamomile Extract and Hyaluronic Acid keeps the skin moisturized, thus ensuring the integrity of the skin barrier preventing irritation and chapping. It may be used as cosmetic adjuvant to treat skins affected by irritative dermatitis (atopic, seborrheic, psoriasis, etc...). Dermatologically tested, it is paraffin, fragrance and comedogenic substances free.

Cod. 91512

### BODY HAIR BATH OIL

The gentle body-hair bath oil has been carefully developed with care and love to gently cleanse baby's sensitive and delicate skin without altering its physiological pH. Its gentle formulation, enriched with Hemp Oil, Omega 3 and 6 and Enteline, safely removes impurities respecting the natural balance of the skin, helping prevent against redness and itching. It can also be used directly as a skin emollient without the need to rinse off. Dermatologically tested, it is paraffin and comedogenic substances free.

Cod. 91510

### HYGIENE

## SOOTHING MASSAGE OIL

The cosmebby soothing massage oil has been carefully developed with care and love for mother and baby for those relaxing cuddly moments. Its gentle formulation is enriched with Hemp Oil, Omega 3 and 6, and Essential Fatty Acids that act by restructuring the skin's barrier where it is compromised and immediately bestowing a smooth and silky appearance. It is also ideal for the mother during pregnancy to help prevent the formation of stretch marks and rhagases. Dermatologically tested, it is paraffin and comedogenic substances free. Available in two different size: 100 ml and 200 ml.

Cod.

100 ml	200 ml
91514	91513

## SEBUM REGULATING MOUSSE

The sebum regulating mousse has been carefully developed with care and love to prevent and counteract the appearance of cradle cap, dandruff and other skin conditions caused by excess sebum. It frees the scalp from the excess sebum, thus counteracting the appearance of redness and dry skin. Dermatologically tested, fragrance, it is paraffin and comedogenic substances free.

Cod. 91511

CE 0123

# HUMIDIFIER

## HOT STEAM HUMIDIFIER UMILDO

The Mebby Umildo helps to quickly restore and maintain the proper humidity level in your child's room. There is an adjustable steam flow output. The level of water in the humidifier can be checked thanks to the transparent side window.

Cod. 91375

CE 0123

## ULTRASONIC HUMIDIFIER POLAR

The Mebby Polar ultrasonic humidifier operates by nebulising cold air created by vibrations which are undetectable to the human ear (ultrasounds). It is therefore extremely silent and can be left on day and night without disturbing your baby. Steam is directed upward to allow minimum condensation on contact surfaces. Mebby Polar is equipped with an adjustable nebulisation system and illuminating LEDs to indicate when the equipment has been switched on or off. Mebby Polar switches off automatically when the water in the tank is low. A practical handle helps you to remove the supply tank easily. It operates more than 10 hours continuously. It is equipped with external adapter for safety's sake

# BODY

BODY UP.

Mebby Body up is made in a new generation "Hi Tech" fabric that applies new textile technologies, developed for sport and medicine applications, to the needs of the mother and her baby. Mebby Body up fabric contains silver ions that create a delicate and natural protection for the skin. Silver has always been used in medicine for its natural antibacterial activity. The delicate and natural protection of silver ions remains unaltered even after numerous washes.

The Body up advantages are:

**ANTIBACTERIAL:**

Thanks to the silver ions, it reduces the proliferation of bacteria responsible for itching, redness and odours.

**HYPO-ALLERGENIC AND ANTIFUNGAL:**

Thanks to the silver ions, it reduces allergies caused by fungi and bacteria.

**THERMOREGULATORY EFFECT:**

The style of manufacture combined with the fabric properties offer high comfort and breathability; it is warm in winter and cool in summer.

**SEAMLESS:**

There are no side seams that can cause redness to the delicate skin of babies.

**SOFT FIT EFFECT:**

Its special three-dimensional design makes it extraordinarily soft and elastic, adaptable to any movement of the baby to accompany them in their growth, from the cradle to their first steps.

**EASY TO WEAR:**

The stretch material makes it easy to fit it to the tiny head, legs and arms of your infant.

**EASY TO WASH:**

Dries in a moment and does not need ironing!

**CONVENIENT:**

Thanks to its extraordinary elasticity and resistance, lasts in time and dresses with the baby. **Unique size from 0 to 3 years!**

# NON SLIP SOCKS

CALZOFOLE.

Mebby non-slip socks have been studied and designed to offer maximum comfort to your baby's feet. Their shape of the heel improves their wearability, preventing slipping and falling off. There is no internal stitching which makes them extremely soft. They are also hypoallergenic and anti-static, helping to reduce skin irritation even on the most delicate, sensitive skin types. They have anti-slip snail designs on the sole (not available on the 0-6 month size) in non-allergic silicone. Available in 5 different sizes and 4 styles.

# NOTES

This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
