## Introduction

The Foursomes component of the ATMS is used in the event of a foursomes format of tournament being required. It is designed so that two players form a foursomes pair/team. Medal or Stableford can be selected. If the foursomes pair are playing Matchplay this will form part of the SP Tournaments in the ATMS – please consult the applicable Matchplay or IPT user manuals.

This manual merely covers the Foursomes component of the ATMS. The user should be familiar with the basic strokeplay tournament.
