| Standard Transducers, I-Z | 13 |
| Accessories | 26 |
| Cleaning transducers | 28 |

Introduction

SonoSite tests disinfectants and disinfectant devices for use with its systems, transducers, and accessories. Except for TEE and surgical transducers, results are in the tables below. See the ultrasound system user guide for cleaning and disinfecting instructions and for additional warnings and cautions.

For cleaners and disinfectants compatible with TEE and surgical transducers, see the *TEE Care Card* and *Surgical Transducer Guide*.

WARNING: Disinfectants listed are recommended by SonoSite for safe use with SonoSite products.

Refer to instructions on the disinfectant label for guidance on disinfection effectiveness and appropriate clinical use.

This document does not have the following regulatory information for disinfectants:

- EPA registration
- FDA 510(k) clearance (liquid sterilant, high level disinfectant)
- CE approval

Before using a disinfectant, confirm that its regulatory status is appropriate for your jurisdiction and use.

Verify expiration dates on chemicals.

When disposing of chemicals, follow manufacturer recommendations and EPA regulations.

Ultrasound Systems

You can disinfect the exterior surface of the ultrasound system using a recommended disinfectant.

✓ - Acceptable for use

1 Disinfectant has been tested by SonoSite for disinfection effectiveness on SonoSite transducers.

Specialty Transducers

You can disinfect the transducer, scanning surface, and cable using a recommended disinfectant or device.

Clean the transducer prior to disinfecting to remove any particulate matter or bodily fluids. See “[To clean a transducer](#)” on page 28.

✓ - Acceptable for use

1 Not for use on the microphone clip. (The microphone clip is detachable from the microphone.)

Cleaning transducers

Clean the transducer prior to disinfecting to remove any particulate matter or bodily fluids.

To clean a transducer

- 1 Disconnect the transducer from the ultrasound system.
- 2 Remove any transducer sheath.
- 3 Clean the surface using a soft cloth lightly dampened in a mild soap or detergent cleaning solution.
Apply the solution to the cloth rather than the surface.
- 4 Rinse with water or wipe with water-dampened cloth; then wipe with a dry cloth.
