

Terminal Marking Systems

Stock and custom marking solutions to meet any requirement

Whether you're marking individual terminals or terminal groups, Sprecher + Schuh's V7-W are accompanied by a wide array of marking solutions. From standard preprinted marker cards to custom marking with our EK Vario Sign software and plotter system, Sprecher + Schuh offers a tremendous variety of options for labeling any terminal assembly.

Marking Cards for all terminal types

Blank, preprinted and custom Marking Cards are available for all sizes of V7-W terminals. Preprinted selections include ten numbers in a series printed either vertically or horizontally. Custom Marking Cards are also available.

Single Digit Marking Tabs

Selected V7-W terminals can be marked with Single Digit Marking Tabs. This convenient marking system is ideal for applications where professional marking is required, but time is critical. Single digit, preprinted alphanumeric characters can be mixed and matched to provide exactly the right label for any terminal.

Complete Terminal Marking System

Sprecher + Schuh's Terminal Marking System is the ultimate solution for creating custom Marking Cards with total flexibility and fast turnaround. The system comes complete with everything required to plot your own marking tags (except a Windows based PC). Two or four Marking Cards can be plotted at a time. That's enough tags to professionally label 400 terminals in only minutes.

Unlimited jobs can be input and stored for future plotting using Sprecher + Schuh's new EK Vario Sign software, which is very intuitive and easy to learn.

Custom Marking Cards

All sizes of Sprecher + Schuh Marking Cards can be custom printed on our terminal plotter system. In addition to alphanumeric characters, 17 electrical symbols are also available. There are three convenient methods for obtaining custom Marking Cards:

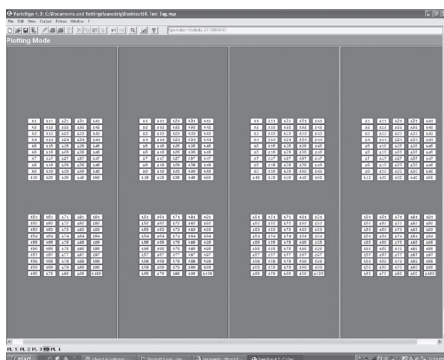

- Hand write your order on the Custom Printed Marker Cards Order Form on page N45 and fax it to us.
- Use Sprecher + Schuh's EK Vario Sign software to create your own terminal marking files and email them to us for plotting.
- Purchase our complete Terminal Marking System and plot Marking Cards any time you like!

Hand written orders

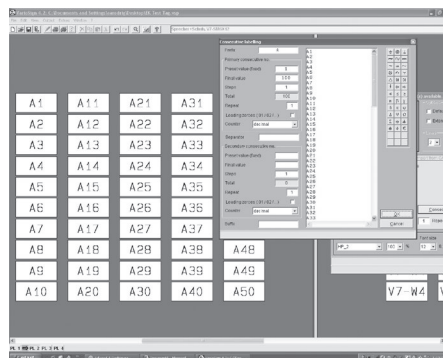

If you just have a few different cards to plot, or a lot of cards that are similar to one another, using the hand written form is very convenient. Turn to page 45 and follow the instructions for completing and sending the form to us.

EK Vario Sign software

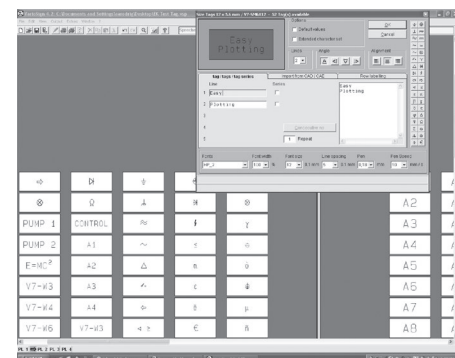

Sprecher + Schuh's new EK Vario Sign software works in conjunction with our Terminal Marking System to professionally plot all sizes of Marking Cards.

Our new EK Vario Sign software allows you to design tags for two or four Marking Cards at a time. The screen looks exactly like the plotting surface on the Terminal Marking System.

Zoom-in on one card at a time to input individual marking tags... you can also identify a starting tag and ending tag to "autofill" a range of numbers.

Zoom-in further for "fine tuning" of each marking tag. Adjust spacing left, right, up or down and vary type size to fill each tag with the largest possible type.

Marker Coordination Table (refer to this table to determine marker size and type)

For example **V7-MP5-0** @ \$10.50 ea. = one box of 5 cards for \$52.50.

Marking Card Examples

These illustrations show the approximate actual size of all terminal markers in both vertical and horizontal orientations. The maximum number of rows and characters is also shown for each marker size.

Vertically Oriented Markers

Horizontally Oriented Markers

Available Marking Symbols

The following symbols can be marked on an individual tag by Sprecher + Schuh's EK Vario Sign system. Draw the symbol desired (in the correct orientation) on the marker card order form.

Customer Information:

Today's Date: _____ Order Form _____ of _____

Name: _____

Company: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____

Job Reference: _____

Marker Card: (check size required)

- V7-SM5X5 V7-SM5X9 V7-SM5X12
 V7-SM6X9 V7-SM6X12 V7-SM8X12

Quantity of cards required exactly like this one: _____

Ordering Instructions:

- 1) Determine Marking Card size required from the Marker Coordination table. See Custom Marking Cards for pricing.
- 2) From the E-Catalog, note the maximum number of rows and characters for the tags you selected. Also note available marking symbols.
- 3) On the template below, print characters *very* clearly in the same orientation you would like them plotted.
- 4) Use a new order form for each *different* card you require.

Formatting Instructions:

- 1) Sequential numbering is acceptable using an arrow between the first and last label of the sequence.
- 2) Distinguish the lower case letter "l" from the capital letter "I" by scripting the letter "^" and including both the top and bottom lines on the letter "I".
- 3) Blank spaces should be shown with a carat (^). Example: PLC^DER
- 4) Place a "dot" in the middle of all zeros (0). Example: 0

Vertical Example

A	B	C	SECURE CLAMP	I 45	I^ 45	GND	VZ4+	l 346	I 027
---	---	---	-----------------	------	-------	-----	------	-------	-------

Horizontal Example

1	→						7	H	24 60	I
---	---	--	--	--	--	--	---	---	----------	---

Please orient text as desired on card.
