PRODUCT DESCRIPTIONS

Short Description – 25 Words

- The VP6152 Ultra-Mini mouse is a lipstick-sized wireless mouse with a docking USB receiver that reverses to charge the built-in lithium battery.

Standard Description – 50 Words

- The VP6152 Ultra-Mini mouse is a lipstick-sized wireless travel mouse that is comfortable enough to use every day. The USB receiver docks when not in use and reverses to charge the built-in lithium battery in under an hour. Includes convenient travel pouch.

Long Description – 100 Words

- The VP6152 Ultra-Mini mouse is a lipstick-sized wireless travel mouse that is comfortable enough to use every day. With left, right, center clickable scroll wheel, it has all the features you would expect from a desktop mouse at a fraction of the size. There is no need to bring disposable batteries or cables, the VP6152 is an excellent travel companion. The small USB receiver docks when not in use. The mouse attaches to the USB receiver magnetically to recharge in under an hour. A convenient carrying pouch is included.

FEATURES AND BENEFITS

Unique Ultra-mini Wireless Design for Great Portability

- The size of a lipstick, the mouse easily fits in any pockets
- Store-and-carry receiver dongle magnetically attaches to the mouse when not in use
- Convenient carrying pouch provided
- Perfect for people who wish to travel light and preserve productivity

Wireless Connection for the Ultimate Ease of Use

- 2.4GHz RF offers up to 10-foot/3-meter reliable wireless data transmission range, no more cables to clutter desktop
- Installation is as simple as removing the receiver and plugging it to any available USB port on the notebook computer
- Works with both Windows and Mac OS and requires no driver installations

Earth-friendly Recharging Features

- Sealed-in rechargeable Lithium battery eliminates the need to replace disposable batteries
- To charge the mouse, simply attach it to the end of the receiver while connected to the computer's USB port; no need to carry a bulky AC adapter
- Mouse attaches to the receiver magnetically so there are no charging cables to forget
- Rapid-charging fully charges the mouse in less than an hour; never lose productivity due to power-out or dead batteries

- Ideal for individuals conscious about saving operating costs and reducing hazardous waste to the environment

Power Management Features

- Designed with auto sleep mode to conserve battery power
- Built-in LED power-low indicator to signal when to recharge
- Offers unique button-less automatic on/off switch; power is off when receiver dongle is attached to the mouse during travel, and power is on when receiver dongle is removed from the mouse and plugged in the computer. Never forget to turn the mouse off during travel
