

## Pure design for a seamless viewing experience

- ConnectShare™ Movie
- Exquisite Touch of Colour™ design
- Anynet+
- Planet First

A crystal, slim designed LCD TV that comes with features such as PlanetFirst, Anynet+ and ConnectShare Movie. Simply enjoy a seamless viewing experience.

### Pure design for a seamless viewing experience

Your TV's looks should complement your viewing experience and enhance the beauty of your home. So the LCD features Samsung's exquisite Touch of Colour™ design, inspired by the beauty of a natural sunset. Shaped from a unique, black-rose material that subtly changes colour under different lighting conditions, your TV's surround brings beauty and warmth to any room. Seamless, one-piece moulding and a super thin bezel framing the screen complete the elegant, understated effect.

#### Connect Share Movie

Tap your digital devices. ConnectShare™ Movie transforms your TV into a home entertainment theatre - simply plug in your USB memory drive or connect your hard disk drive to screen the movies, photos and music stored there.

#### Anynet

Concentrate your control. Anynet technology enables you to direct all of your HDMICEC-compatible digital devices – whatever their manufacturer – with a single remote control, for a streamlined home-entertainment experience.

#### Planet First

Be a friend to the planet. Samsung's new TVs are constructed using more efficient technology, fewer components and non-toxic materials, so are kinder on the environment.
