

- INSTALLATION:**
1. Turn the radio off. Installation of the speaker microphone while the radio is on may cause the radio to transmit constantly, locking up your radio system. If this should happen, turn off the radio. The radio can then be turned back on, restoring normal operations.
 2. Remove any dust caps or covers from radio accessory connector.
 3. Attach speaker microphone to the radio accessory connector.
 4. Tighten mounting thumbscrew or accessory clamps if required.

OTTO[®]

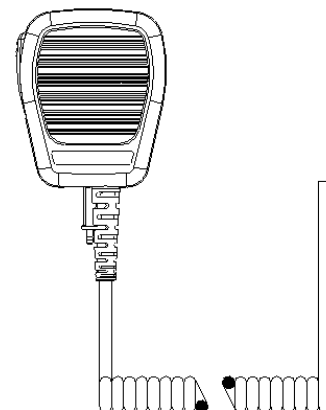

COMMUNICATIONS

Profile Speaker Microphone

The OTTO Profile Speaker Microphone for Two-Way Radio Communications is designed for use in the public safety, construction, and manufacturing environments.

Features Include:

- Heavy-duty cable assembly
- 2.5mm earphone jack
- Clothing spring clip

EARPHONE JACK

- Remove protective cover from the jack
- Insert the audio accessory with 2.5mm plug into the accessory jack.

Note: Audio will be muted on the speaker

microphone and routed to the accessory.

Caution: To maintain the environmental seal, replace the protective cover when the plug is not in use.

MAINTENANCE:

If necessary, the external surfaces of the speaker microphone may be cleaned with a mild soap solution and warm water.

OPERATION:

Turn the radio on and operate it as explained in the operating instructions supplied with the radio. Installing the speaker microphone (1) bypasses the radio's speaker and routes the speaker output to the speaker microphone and (2) disables the radio's microphone and enables the speaker microphone. To enable the microphone, press the large PTT actuator located on the side of the speaker microphone.

HEARING PROTECTION WARNING:

OTTO communications products are designed to produce a specific audio output level at maximum rated power . Many countries now have regulations defining the amount of noise that an individual can be subjected to during a normal work-day . The duration of exposure, the level of ambient noise will affect compliance to these regulations. Compliance is application dependent and standards vary . It is the **SOLE RESPONSIBILITY** of the end user to determine applicability of and compliance to local hearing protection regulations.

In addition, if purchasing any OTTO accessories which use earphone kits, it is the **SOLE RESPONSIBILITY** of the end user to determine proper fit. Always use caution when inserting any of the products into your ear .

Information on Disposal of Old Electrical and Electronic Equipment (applicable for EU countries that have adopted separate waste collection systems)

Products with the symbol (crossed-out wheeled bin) cannot be disposed as household waste. Old electrical and electronic equipment should be recycled at a facility capable of handling these items and their waste byproducts. Contact your local authority for details in locating a recycle facility nearest to you. Proper recycling and waste disposal will help conserve resources whilst preventing detrimental effects on our health and the environment.
