

# Snap, Tag & Send

Snap a Photo, scribble a message with the Tag-It pen on the screen, and send your own personalized "MMS postcard."

### Add emotion to your messages

- Tag-It pen for easy MMS
- Large 65K TFT touch screen display

### Capture & share your life

- Integrated VGA digital camera
- Big storage capacity (7MB)

### Maximize your multimedia experience

- Mix your own polyphonic ring tones with BeDJ
- Java Games

## Product highlights

### Tactile screen with stylus

To quickly scribble all of your messages as well as to easily navigate the phone menus with the stylus. A new fun and easy way to use your mobile.

### Tag-It

To personalise your pictures by writing on them. The pen allows you to tag your pictures and give emotion to your MMS messages.

With post processing applications you can select frames to personalize your pictures. Or with function fake you can superimpose part of one picture on another and make your own fun composition to personalize your images.

### Easy messaging

To send handwritten messages and use a "post-a-note" concept. Various templates to choose for your quick messages.

### OSK (On Screen Keyboard)

Stylus gives outstanding opportunity to express yourself fast and directly on your tactile screen.

### Philips Color Matrix

Building on the revolutionary Philips Carousel, discover a new, even easier, way to navigate through the ani-mated icons with the Tag-It pen stylus in the color matrix user-interface menus.

### TV SlideShow

To share pictures you have captured with the integrated camera. These pictures can be pre-selected in a slideshow or chosen one-by-one and displayed on a TV screen (TV Link accessory required).

### Ultra fine pitch color displays

With high contrast and high brightness, 65K colors, 128\*160 pixels, 9 lines of text. Ultra fine pitch: 110 DPI, for clear bright color images.

### Integrated digital camera

Take pictures with the integrated camera, send those pictures via MMS / e-mail / IrDA or store your pictures in your photo album for slideshows.

You can take pictures in low light condition, thanks to the low light mode (low sensitivity: 5 lux). This camera has the following characteristics: CMOS / VGA definition / Digital zoom (x2, x4) / Preview frame rate: up to 15 images / sec.

### Special effects

to modify pictures you have taken with the integrated camera using special effects such as sepia, grey scale, edge, digital, embossed and negative colors.

### Picture applications

Color pictures, screensavers and wallpapers. Thanks to the embedded photo album or with pictures taken with the integrated color camera, you'll always have the best fitting picture for FotoCall, screensavers or wallpaper applications. Exchange those pictures via MMS, e-mail or using your PC and the Mobile Phone Tool software provided.

### Incredible storage capacity

You can store up to 1000 images in your phone album and use them for slideshows, wallpaper and/or screensaver or even send them via MMS. (Depending on picture format and memory available).

### File manager

To allocate the available memory in the phone between voice tags, voice memos, names, pictures, games, melodies, etc.

### FotoCall

Using photos taken with the integrated camera or downloaded, you can associate them with groups /names in your phonebook. When the phone rings the color picture of the person calling will be automatically displayed to show who is calling.

### FotoTalk

With the FotoTalk feature you can instantaneously send pictures with recorded voice messages via MMS.

### Demo mode

Animations and sounds to demonstrate the screen and sound capabilities.

### BeDJ

Directly mix your ring tones using the stylus. You can even add and mix your own voice to your ring tones thanks to ADPCM+AMR audio capabilities.

### Polyphonic ringtones

32 polyphonic ring tones with 30 embedded melodies.

### Hands free

Switch to hands free to let your friends join on the conversation or set up your own conference call.

### MMS

To receive and send messages composed of text, sounds and pictures (taken with the camera) and use received melodies as ring tones and images as wallpaper or screensavers.

### E-mail

For direct access to email services from the phone. Also enables you to attach pictures.

### EMS release 4

to receive and send formatted texts, melodies, images and use received melodies as ringtones.

### SMS / Quick SMS

To read and answer SMS very quickly. When quick SMS mode is selected, SMS received are automatically displayed and you can answer them with a single key press.

### Concatenated SMS

to write long SMS by connecting 5 pages and attachments when sending (up to 50 pages - SIM dependent on receipt).

### T9™ Text Input

Predictive text input to write emails, SMS, EMS & MMS - Chinese and most European languages are available.

### WAP 1.2.1.

Wireless Application Protocol. Access a world of services wherever you are. Also, you are able to download new images or ringtones.

### GPRS Class 10 (General Packet Radio Service)

is a transmission protocol, which allows you to send /receive data at higher speeds compared to GSM (up to 54 kbps in download).

### Java 2.0

To enhance your phone by downloading personal applications such as graphic applications, information tools, and interactive games.

### Color games 4 embedded color games.

With Infusio V2 (operator dependent) a wide choice of new downloadable color games are at your disposal. Thanks to new Java applications, a wide choice of new downloadable color games is also at your disposal.

### Voice recognition & Voice recording

Voice dial/command: just say a name or a word to dial a number from the names list or to activate a specific function of your phone. Memo and Voice recording are also available.

Use the recording you made as ring tone, SMS alert or even send it via MMS.

### Smart Phonebook

Under each name, up to 5 phone numbers (mobile, fax, data, pager, home, work...) can be stored + 1 E-mail address + 1 note. You can synchronize it with your PC.

### Infrared integrated

The mobile can communicate wirelessly with compatible IrDA devices.

1 : Battery life measurements are approximate and depends on the operator's network configuration. Specifications Provided based on BS\_PA\_MFRMS = 9, 1 Rx (standby mode), PWL=15 and No DTx (talk time).
