## GOOD VS GREAT PERFORMANCE

Because everyone's ears are different, make sure to try out all sizes of eartips. Only with the perfect size of eartips will you enjoy a snug fit and optimum sound quality.

EN 2

3

## SECURE FIT FOR SPORT

Finding the right size sports ear cushion will secure your buds and liberate your workout.

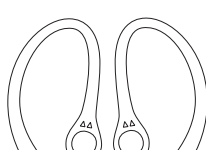

EN 3

4

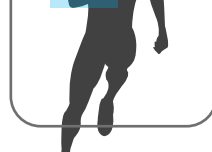

## ONE MORE SECURE FIT OPTION

To make sure all fitting preferences are covered, earhooks are included as an alternative secure fit option.

EN 4

5

## WHEN OUTDOORS USE AN ARMBAND (NOT YOUR POCKET)

Outdoors / gyms: Without walls or ceilings for the Bluetooth signal to bounce off, your body can block the signal to the headphones. For best signal performance, have your music device ABOVE waist level on your RIGHT side.

EN 5

### In the box & first use

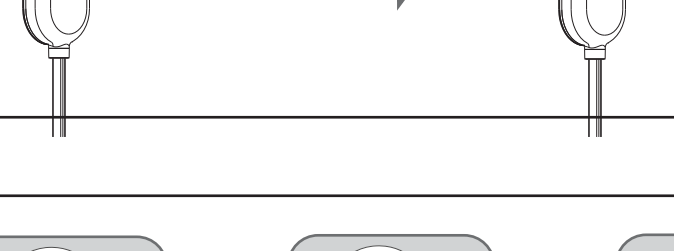

In the box  
JF3 Freedom Bluetooth Headphones  
Limited Edition Premium Magnet Sealed JayBird Carry Case  
3 pairs regular eartips (S,M,L)  
3 pairs secure fitting sport ear cushions (S,M,L)  
1 pair of optional ear hooks  
USB Cable  
User Manual

### Charging for first use

Charging the battery before use is recommended but not required. The headphones ship pre-charged however initial charge will vary. Low battery is indicated by the status indicator blinking red with an audible tone every 20 seconds. Connect charging cable with the charging port of headphones under the USB cover on the right earpiece. Connect cable to the USB slot of any PC or Mac. The status indicator will be red while charging and will turn off when fully charged. JayBird also offers an AC power adapter which your USB cable can plug into. AC power adapter sold separately.

### Secure Fit

EN 7

### Secure Fit

EN 8

### Pairing & Power on/off

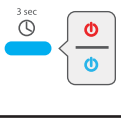

#### Pair mode

Begin with headphones powered off. Push and hold center button for 6-8 seconds until status light alternates red and blue. You are now in pair mode. See your phone/music device manual for pair instructions. Passcode is 0000.

#### Power on/off

Push and hold center button for 3-5 seconds

EN 9

### Pairing in detail

#### Pair Mode (detailed step by step instructions)

1. Keep the headphones and mobile phone in the range of 1 meter when pairing.
2. Put the headphones into pairing mode by pushing the center button for 8 seconds (LED will flash red and blue).
3. Start the Bluetooth function on mobile phone and search for Bluetooth devices.
4. After searched, select "JF3 Freedom" in the Bluetooth device list.
5. Enter passcode or PIN No "0000" on your mobile phone when prompted.
6. If required, after successful pairing, select "JF3 Freedom" in the Bluetooth device list and press "connect".
7. After successful connecting, the blue light blinks twice every 4 seconds.

#### Note

- If the pairing is not successful, switch off headphones by pushing the center button for 3 seconds, and then re-pair according to the steps outlined above.
- After pairing is successful, paired devices will remember each other. Unless pairing information is deleted, so there is no need to pair again.
- The headphones will connect with the latest paired device. If you want to pair with other Bluetooth devices, switch off the Bluetooth function of the current Bluetooth device, and then pair and connect with the new Bluetooth device according to steps outlined above.

EN 10

### Pairing with adapter

#### Pairing with a Bluetooth Adapter (Sport or iSport)

1. Keep the Bluetooth adapter and headphones within 1 meter of each other when pairing.
2. Put the headphones into pair mode as outlined above.
3. Plug the Bluetooth adapter into the iPhone or iPod and play a song.
4. The headphones and adapter will pair automatically (passcode of headphones must be 0000).
5. After successful pairing and connecting, the blue (or red) light of headphones blinks twice every 4 seconds.

#### Note

Freedom does not support apt-X CD quality audio even though it's offered on iSport or iSport.

EN 11

### Pairing several devices

#### Pairing with several Bluetooth devices

The headphones can connect with two devices at most. A mobile phone with HFP profile; and a device with A2DP profile. If you want to pair two Bluetooth devices, please refer to the following steps.

1. Firstly, pair the headphones with the Bluetooth adapter
2. Disconnect the Bluetooth adapter from the iPhone or iPod
3. Pair and connect the headphones with the mobile phone
4. Reconnect the Bluetooth adapter, will connect with headphones automatically.

#### Note

Mobile phones that support HSP and A2DP profiles simultaneously may block the Bluetooth adapter from reconnecting to the headphones.

EN 12

### Basic Commands

#### Key

- Short push of adjacent button
- Push and hold of adjacent button

EN 13

### Making a call

Function	Status	Indication	Operation
Missed dial	Standby mode	Short tone	Press and hold center button for 2 seconds
Redial	Standby mode	Short tone	Double click center button
Volume up	Music/Call mode	NA	Short presses of Vol+ button
Volume Down	Music/Call mode	NA	Short presses of Vol- button
Answer Call	Incoming Call	Short tone	Press center button
Reject Call	Incoming Call	Short tone	Press and hold center button for 2 seconds
End Call	During Call	Short tone	Press center button
Switch to phone	During Call	Short tone	Press and hold center button for 2 seconds
4-wire mode	Mute	DM tone every 5 sec	Double click center button
Mute	During Call	NA	Double click center button
Unmute	During Call	NA	Double click center button

Not all the mobile phones support all the functions listed. Please refer to the instruction of your mobile phone. When the volume is adjusted to max or min, you will hear an indication sound. For some mobile phones, when you accept a call on the phone, the call will be sent to the headphones or through the phone. Please refer to the instruction of your mobile phone for further information.

EN 14

### Playing music

Function	Status	Indication	Operation
Volume up	Music/Call mode	NA	Short presses of Vol+ button
Volume Down	Music/Call mode	NA	Short presses of Vol- button
Play/Pause	Music Mode	Short tone	Press center button
Next track	Music Mode	Short tone	Long press of Vol+ button
Back track	Music Mode	Short tone	Long press of Vol- button

For some of mobile phones, when they are playing music, the music will transmit to the speaker of mobile phone. If this happens, select "transmit the sound through Bluetooth" in the "setting" of music play interface, and then choose "JF3 Freedom" in the device list. Please refer to the instruction of your mobile phone for further information. When the volume of headphones is adjusted to max or min, you will hear a tone. Remote control the function such as next track, previous track, etc require your mobile phone to support AVRCP. Please refer to your mobile phone user manual or Bluetooth transmitter for further info.

EN 15
