The Software Product also includes any software updates, add-on components, stencils, templates, shapes, symbols, web services, documentation, training material, brochures and/or supplements that Vianova Systems AS may provide to You or make available to You, or that You obtain from the use of features or functionality of the Software Product, after the date you obtain your initial copy of the Software Product (whether by delivery of a CD or DVD or other media, permitting downloading from the Internet or a dedicated web site, or otherwise) to the extent that such items are not accompanied by a separate license agreement or terms of use. By installing, copying, downloading, accessing or otherwise using the Software Product, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, do not install, access or use the Software Product; instead, you should return it to your place of purchase for a full refund.
