SONY

ICD-MX20 • ICD-MX20DR9

With the option of using the built-in 32MB flash memory, or utilizing Memory Stick Duo or Pro Duo media cards, the ICD-MX20 provides virtually unlimited capacity. This is especially important if you're at a long conference, and don't have time to download your files to a computer. Just put in a new Memory Stick Pro Duo media card, and keep recording. Each card can hold over 300 personalized folders, which makes organizing your audio a simple process. Otherwise the same, the ICD-MX20DR9 comes bundled with Dragon® NaturallySpeaking® Preferred Voice to Print Software to easily convert your audio files to text.

- Hybrid 32MB Flash/Memory Stick PRO Duo Slot allows you to record dictation on built-in memory or high capacity (up to 512MB) Memory Stick cards.
- High-speed USB 2.0 download to PC
- Dictation correction function lets you correct your notes
- Listen to the recording level by using headphones while the unit is recording and adjust accordingly.
- STLP mode lets you record up to 2¼ hours (on 32MB flash memory) while maintaining 2-channel recording.

ICD-MX20 (B&H# *SOICDMX20*)**194.95**

- VOR (voice operated recording) —starts and stops recording automatically. Plus, you won't miss a single syllable thanks to the digital buffer.
- Organize over 300 message folders on a Memory Stick by type, such as Sales Letters, Customer Service Replies, Memos, Action Items, Personal, etc.
- Built-in stereo and directional microphones eliminate the need for an external microphone for convenience and ease of use. (Still offers an external mic input).

ICD-MX20DR9 (B&H# *SOICDMX20DR9*)**219.95**

ICD-BM1B

Featuring up to 46 hours recording time with supplied 128MB Memory Stick media, the ICD-BM1B is ideal for professionals, students or anyone on the go. Organize and edit recordings in 340 folders, then use the supplied digital voice editor software to send audible e-mails with an attached file. Comes equipped with a built-in speaker, hold button, date display, battery level indicator, alarm and digital clock. Seeing data and listening to audio is easy with the large LCD display for showing recording data and 350mW speaker output.

- Slide switch allows for one-button operation of all major functions
- High-speed USB 2.0 download to PC
- Digital pitch control

ICD-BM1B (B&H# *SOICBM1B*)**223.95**

PHILIPS

LFH0602 Digital Voice Tracer

- Records (mono) in MP3 format—platform independent, no software needed
- Extra large display for fast and clear reading
- Large front speaker for good voice reproduction
- Voice-activated recording for hands-free dictation
- High-speed USB 2.0 download to PC
- Index markers make it easy to find relevant passage later on—jump from one index to the next
- 1GB USB Mass Storage device (Mac/PC/Linux)—up to 139 hours recording time

PHDVR0602**54.95**

LFH0662 Digital Voice Tracer

Step-up from LFH0622:

- Uncompressed PCM mono voice recording for CD-audio quality

DM-2 • DM-4 Digital Audio Devices

The DM-2 and DM-4 feature built-in stereo microphones, large 2.2-inch color LCDs and easy-to-navigate menus for audio recording, editing and playback of podcasts, music, audio books and textbooks. They offer USB 2.0 interface, and internal memory storage capacity of 4GB (DM-2) and 8GB (DM-4), as well as external microSD compatibility. The DM-4 also offers voice recognition so users can verbally navigate menus with voice commands and set the time and date, as well as create a schedule using only their voice. Text to speech, voice recognition and DAISY (Digital Accessible Information System) certification, make the DM-4 a great tool for the blind and dyslexic community as well.

- Large 2.2-inch color LCD with an easy-to-use interface enables users to accurately arrange digital files with unparalleled organization for meetings, dates and reminders. Both have folders for recording music, podcasts, audiobooks, pictures and schedules. The DM-4 (only) has a Visual Index function that allows users to link images to the recorded audio file; name and file recordings using images instead of text to easily identify and retrieve later.
- They feature built-in stereo microphones and can record and play super high-quality stereo PCM, MP3 and WMA (Windows Media Audio) files. This provides extreme flexibility for school, work and fun. Download an audio book and listen to it at the gym and then hear your favorite podcast on the ride home.

DM-2 (OLDM2).....Call

- Voice confirmation guides users through the onscreen menus for setting date, time and other menu selections. It also confirms by stating the folder name as you go from one folder to another.
- Store up to 1000 or 2000 hours of recorded sound, respectively. Expand capacity by up to 16GB via removable microSD cards.
- They run 20 hours via supplied Lithium-Ion battery that can be charged using the included AC adapter or by computer via USB.
- Bundled Olympus Sonority software (PC/Mac) lets you erase noise, adjust sound effects and divide files, to name a few options. Allows for uploading, organizing and emailing of audio files and direct downloading of podcasts

DM-4 (OLDM4).....Call

SAMSUNG

E6 • E101

6-inch and 10-inch E-Books for
Reading, Writing and Sharing On-the-Go

Unlike other e-book devices, the E6 and E101 have a built-in electromagnetic resonance (EMR) stylus pen that allows users to annotate their favorite works or take notes. By enabling handwriting directly onto the display, users can annotate reading selections, calendars and to-do lists. The pen also prevents mistypes caused by hands and other objects that may graze the screen's surface. A variety of pen and eraser thicknesses make them perfect for drawing and writing.

- They reflect light naturally and deliver an appearance similar to that of printed paper, allowing people to read more naturally than they would with other backlit electronic paper devices.
- They run for up to two weeks (depending on the extent of daily use) on a single battery that charges in 4 hours.
- Built in Bluetooth and Wi-Fi 802.11b/g allows users to download content such as books and newspapers from a server wirelessly, as well as to share certain content with other devices.

Aluratek

LIBRE eBook Reader PRO

Digitally store and carry around thousands of your favorite books saving money, space and the environment. Aluratek's "Libre" connects to any computer with an internet connection for easy access to the most recent books that are published as well as access to free timeless classics. With room for up to 32GB of flash memory storage you can carry around thousands of

books everywhere you go. It also comes with a 2GB SD card that is pre-loaded with 100 free eBooks to get you started.

The Libre utilizes exclusive ePaper technology for an easy on the eyes, paper-like 5" display. This amazing technology makes it difficult to determine the difference between actual paper and the e-paper screen. For operation, it features content search for easy navigation between books and pages, bookmark and auto page turn, adjustable font and type size, and screen rotation support for portrait or landscape mode. Should you desire background music, the Libre doubles as an MP3 player.

- When it's time to add to your library, just connect to any computer with an Internet connection and download over one million free titles from ebooks sites like googlebooks.com and gutenberg.org
- Supported eBook formats include: PDF, TXT, FB2, EPUB, MOBI, PRC, and RTF. Picture formats include: BMP, JPG, GIF, and animated GIF.
- To recharge the Libre, just use the included AC/DC power charger or connect to the USB port on your computer using the included USB cable. ePaper Technology
- An SD card slot holds cards up to 32GB in capacity for carrying hundreds of books at once
- Offers superior battery life with up to 24 hours of non-stop reading on a single charge, or up to 2 weeks of standby power. A battery level indicator and low level warning let you know when its time to recharge.

SONY

PRS-300 • PRS-600 • PRS-900 Digital Books

Reader Pocket Edition • Reader Touch Edition • Reader Daily Edition

Sporting a 5-inch electronic paper display packaged in a stylish chassis, the PRS-300 Reader Pocket Edition is easy to navigate with one hand, and fits into a purse or jacket pocket. It can store about 350 standard eBooks and provides up to two weeks of reading (7,500 continuous page turns) on a single battery charge. E Ink® Vizplex™ electronic paper display mimics the look of ink on paper, making it easy to read, even in bright sunshine. You can also resize the text. Choose from three adjustable font sizes to improve readability. Transfer eBooks and charge the reader using a single USB 2.0 cable. Supports Adobe PDF5, Microsoft Word, BBeB Book and other text file formats, as well as ePub/ACSA and connection with Adobe Digital Editions. Bundled eBook Library 3.0 software (Mac/PC) makes it easy to download eBooks, manage your collection, and transfer titles to the reader.

The PRS-600 Reader Touch Edition steps up (from the PRS-300) with a responsive, menu-driven 6-inch touch screen panel that enables quick, intuitive navigation, page turning, highlighting and note taking with the swipe of a finger or using the included stylus pen. Users can take handwritten notes with the stylus pen or type with the virtual keyboard. All notes can be exported and printed out for easy reference.

Offers five adjustable font sizes to improve readability. Also adds a built-in audio player (requires headphones), picture viewer, expandable memory via MemoryStick PRO Duo and SD memory card slots, and includes an onboard Oxford American English Dictionary that allows you to look up a word by simply tapping on it.

The top-of-the-line PRS-900 Reader Daily Edition steps-up (from the PRS-600) with a 7-inch wide, touch screen display that provides for intuitive navigation and comfortable layout of content, including newspapers and magazines, whether you're reading in portrait or landscape orientation. In portrait mode, about 30-35 lines of text are visible, making the experience very similar to that of a printed paperback book. Offers six adjustable font sizes to improve readability, while a high contrast ratio with 16 levels of grayscale (8 levels on the other readers) ensures that text and images are crisp and easy to read. The PRS-900 Reader Daily Edition also boasts an attractive aluminum body with an integrated cover for durability. It has a 1.6GB internal memory to hold over 1000 standard eBooks and expansion slots for MemoryStick PRO Duo and SD memory cards to hold even more.

Last, it offers wireless access via AT&T's 3G mobile broadband network to Sony's eBook store from just about anywhere in the U.S. Book lovers will be able to browse, purchase and download books as well as select newspapers and magazines when and where they want. There are no monthly fees or transaction charges for the basic wireless connectivity and users still have the option to side load personal documents or content from other compatible sites via USB.

Bookeen

Cybook Opus eBook Reader

The Cybook Opus is a 5-inch, pocket-friendly eBook with 1GB of built-in memory and a microSD expansion slot. The Opus display reads like paper, with a gentle on the eyes black and white screen that utilizes the Electronic Ink Display. The display allows for reading under a number of different lighting conditions, including direct sunlight. It has an uncomplicated interface, font size adjustment, easy content management, multi-format support, and a fast 20-second start-up time that brings you directly back to the last page you read. 70% thinner than a traditional paper back, the Opus is easily carried in a bag or purse, or even a large pocket.

- Extremely energy efficient, the Electronic Ink Display module only needs energy to change the display content. Once an image is written to the page it will remain without consuming any additional power.
- The Opus screen is viewable under a wide range of lighting conditions, including direct sunlight, and possesses a paper-like high contrast appearance. Like a sheet of paper, it can be viewed from nearly any angle, doesn't show any flicker effect and has a high resolution.
- Utilizing the Electronic Ink Display, the screen acts like a paper page made of tiny ink particles which can migrate and modify the layout of your screen in less than a second.
- Intuitive and fast interface lets you perform different actions in a second using very few buttons: Add a bookmark, go to a page; Turn a page forward and backward; Open a book, display your book list; Lookup word definition, jump to hyperlinks
- Connect Opus via USB cable to any computer and drag and drop your files—that's all there is to it.
- Opus is compatible with any host computer (Windows, Linux, Mac). You can also copy your data in a Micro SD card and plug it in the Opus Micro SD slot, the stored content will automatically appear.
- Different kinds of documents can be found on the Internet or can be generated by text editors. You can find classical books in HTML or TXT, download a user's manual in PDF, etc.
- The Cybook Opus supports EPUB and PDF files protected by Adobe encryption system. This allows Opus users to access more than 200,000 contemporary copyrighted titles.

hp DreamScreen 100

Internet 'Smart Screen'

The DreamScreen 100 is a cool way to experience your photos, videos, music, and web content. This elegant, stand-alone "smart screen" looks great anywhere in your home. It works with existing home network so you can wirelessly view snapshots, listen to internet radio, get Facebook updates, or check the weather.

It features a beautiful 10.2" (15:9) display with 800 x 400 resolution. Control the screen with the light-up touch controls, or the intuitive handheld remote control. Digital files can be transferred to the screen via two USB ports, the 6-in-2 card reader, or wirelessly. The DreamScreen 100 has 2GB internal memory to store images, video, and music. Besides being visually stunning the frame has superb stereo speakers, or use your headphones with the built-in headphone jack.

- Easily access content on your computer and the Web via a simple menu
- Enjoy music, photos, and videos with HP MediaSmart software. Control entertainment via an intuitive handheld remote control
- Turn it to landscape or portrait orientation with the included stand
- Superb sound quality from concealed speakers
- View and stay current on Facebook; view slide shows of photos uploaded to Snapshot
- Stream music and photos from your PC and listen to internet radio
- Stay organized with the calendar; be on time with the built-in alarm clock
- Wall mount the screen if you prefer: holes have been predrilled on the back

HEDS100.....189.95

SONY

Dash Personal Internet Viewer

Offering a personalized web experience at a glance, the dash features a vivid 7" color touch screen and access to over 1,000 free Internet apps, including news, calendars, weather, sports, social networking and more. Utilizing an existing home wireless connection, dash continuously delivers Internet content to its viewers. dash features built-in stereo speakers as well as a USB port for easyconnection to a variety of external electronic devices. Additionally, a headphone output jack gives users the option to listen privately through headphones or through external speakers.

- Offers free access to over 1,000 apps as well as robust audio and video content such as YouTube, Pandora Internet radio, picurious, Crackle, Livestrong, Blip.tv and much more.
- Other content includes a NAVTEQ app for easily accessible traffic updates on a customized route, and a Cozi app for simple management and syncing of family calendars. An AccuWeather app provides instant, easily accessible weather forecasts. Exclusive apps from Sony Music and Sony Pictures offers movie trailers, music videos, custom user themes and an app from Dr. Oz offering daily health and exercise tips. Apps can be selected either directly from the device or online through a PC.
- dash can run multiple sources of content simultaneously. For example, Internet radio can be enjoyed while browsing through online photo albums. Or, the alarm clock can be set to play selected online videos from music, sports and other news feeds.
- An internal accelerometer supports vertical flip, allowing for two optional viewing angles: upright, ideal for a table or nightstand; and tilted, perfect for a countertop.
- Supports multiple user profiles and channels, allowing several members of the household to create and maintain their own customized view of the Internet.

#SOHDC10.....199.95

S5 Mobile Internet Device

The S5 is a compact, pocketable computer that weighs less than a pound. It has a 4.8" high resolution (1024 x 600) touch-screen capable of displaying 720p HD video at near-native resolution. It can run for up to 6 hours on a single battery charge. It can also sleep for up to 200 hours per charge, and be ready to use from sleep in as little as five seconds. It features 802.11b/g Wi-Fi, Bluetooth 2.0+EDR and an integrated GPS system that lets you know exactly where you are in the world.

Powered by a 1.33GHz Intel Atom Silverthorne Z520 CPU, it has 1GB of RAM comes with 60GB hard drive or 32GB SSD drive and runs on Windows XP Home (installed). The computer's interface is enhanced by Viliv's Cube UI overlay which allows you to launch your favorite programs from easily-accessible bubbles for quick access. You can access up to 180 different applications in this manner. An on-screen keyboard allows you to type with ease. It features haptic feedback, which provides physical confirmation of a button press via vibration—making touch screen typing errors a thing of the past. In addition to touch selection of items, a four-way jog wheel and clickable mouse button are present for cursor control. The system also provides dedicated keyboard and menu buttons.

- With full version of Windows XP Home, you can run iTunes or any other preferred media player. Easily navigate through your music and movie library, and be able to download movies or listen to music from iTunes, Amazon, or a streaming site like Songza.
- Play 720p HD video in a variety of formats, and stream shows from Fox, CBS, Hulu, and others. With the optional TV output cable, you can connect to an HDTV for large screen viewing.
- On-screen keyboard with haptic feedback provides a feeling of accuracy. There is even a split keyboard configuration so you can still hold the device comfortably without losing usability. And with integrated Bluetooth 2.0+EDR you can always use an external keyboard and mouse (optional) if you prefer.

S10 Convertible Multi-Touch PC

Measuring 10.23 x 7.28 x 0.67" (WLH) and weighing just 2.67 lbs., the S10 strikes the perfect balance between usability and portability. An unparalleled tool for mobile productivity, it features a swivel, multi-touch, touch screen and runs Windows 7 seamlessly with its Intel Atom 2.0GHz CPU and solid-state hard drive. The multi-touch display lets you interact with the device by placing up to 3 fingers directly onto the surface of the screen and navigating using the easy gesture controls built in to Windows 7. Handwriting recognition built into Windows 7 allows you to use a stylus, or your fingers, to sign documents, draw charts, take handwritten notes – or, of course, to provide super-intuitive navigation. Swivel the screen to show something to a colleague, or twist-and-fold the screen down and you have an extremely portable slate-style device with excellent battery life!

- 10.1" HD LCD with 1366 x 768 resolution – superb for watching movies, reading e-books/newspapers and surfing the Web in full resolution without the need for constant scrolling.
- Has a run-time of 7 hours doing nonstop video playback at 80% brightness, and 10 hours under ideal conditions.
- 4-second wakeup-from-standby under Windows 7. Need to take a quick note or show a webpage during your meeting? Pop open the S10 and you are working straight away. And with such fast wakeup, you won't hesitate to put the S10 back into standby-making the effective use time of one charge even longer.

S10 Convertible Multi-Touch PC **Call or Log-on**

- The S10 has the ability to load files simply by connecting it to another PC using a USB cable and running the integrated file manager software. This makes it super simple to prep the S10 for grab-and-go use. Load all your important documents, music, and movies in a matter of minutes.
- Built-in webcam and MIC lets you use Skype; make videos and upload them to YouTube; or stream live video onto the Web
- Also features two USB 2.0 and one mini-USB port, SDHC slot, camera, Bluetooth, VGA output, A/V output (with optional cables), earphone/MIC combo port, and internal speaker.

ARCHOS

ARCHOS 5 Internet Tablet

Enjoy continuous and instant access to the internet, media and TV—plus the ANDROID operating system. With the continuous arrival of new applications, you can personalize the ARCHOS 5 Internet Tablet by downloading the applications you want from the AppsLib store. There is also a selection of pre-installed applications. Built-in 802.11b/g/n lets you surf the Web on the go without having to zoom in and out—web pages are displayed in full width just like on a PC (with Wi-Fi or the 3.5G mobile phone) and stay in contact by using the full integrated Email and contacts applications. Play HD videos and view photos on the incredibly sharp 5" touchscreen. Watch Digital TV or record it directly or set up a scheduled recording with the optional DVR Station—and watch anytime and anywhere you want—or watch on a large-screen HDTV via the optional HDMI Mini Dock.

- Quick and responsive Internet browsing just like on your laptop. No more endless waiting for the page to be loaded.
- Access nearly 1,000 Web TV channels, over 10,000 Web radio stations and 100,000 podcasts in less than 3 clicks.
- High-resolution (800 pixels wide) 5" screen delivers the finest image available on a portable device.
- Able to handle widest range of video formats even at HD 720p resolution (H.264 HD, MPEG-4 HD, WMV HD6).
- Customize it by putting your favorite applications in the extended screen and moving them to the window of your choice simply by dragging it with your finger.
- Browse through photos with a simple flick of the finger or play a slideshow of your last vacation, with transition and music effects.
- Use your in portrait or landscape mode by simply tilting the device thanks to the accelerometer.
- Download your entire CD collection and create playlists without using a PC. Album artwork covers bring your music to life.
- Transfer files quickly and easily via the USB 2.0 connection to a PC (can be used as a portable hard drive).
- Built-in GPS with voice assistance, Points Of Interest, multiple-route calculations, car, pedestrian and adventure mode based on the latest maps from Tele Atlas™ with 3 landmarks in 3D.

Archos 5: Available in flash memory configurations (with a micro SD/SDHC card slot to increase the capacity) or in a hard drive version.

iPod shuffle The World's Smallest Digital Music Player

The new iPod shuffle is so small, it doesn't have room for a screen, controls or even buttons. To create the world's smallest music player (1.8" tall x 0.3" thin), Apple moved the controls to the earbud cord. This makes the new iPod shuffle dramatically smaller and easier to use, with the controls located where you can access them quickly. And even though it is smaller than a "AA" battery, it packs 2GB or 4GB of memory to hold 500 or 1000 songs.

- With the press of a button, the VoiceOver feature tells you what song is playing and who's performing it. It can even tell you the names of your playlists, giving you a new way to navigate your music.
- The shuffle switch has three positions. Flip it to the left, and your music shuffles for a "whatever happens, happens" flow. Flip it to the middle, and your songs play in order. Or flip to the right to turn it off.
- The stainless steel iPod shuffle clip attaches securely to your shirt, jacket, workout gear, or even your backpack.
- An optional anodized aluminum case — available in silver or black — makes iPod shuffle a wardrobe essential.

R0 8GB Flash MP3 Player

Featuring a sleek, anodized aluminum body, the R0 puts instant entertainment in the palm of your hand with its 2.6" LCD screen and extensive file support. Engineered with DIVX Playback — downloading videos is a breeze. Easily move files from the desktop to the R0 via its built-in microSD memory card slot. Comes with an FM tuner as well. Samsung's Digital Natural Sound engine (DNSe) compensates for the limitations of portable devices by enhancing the sound and making music come to life like no other MP3 player can.

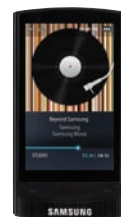

In Black (SAR08B), Silver (SAR08S) or Pink (SAR08P).....**99.95**

R1 8GB Flash MP3 Player

The R1 offers a responsive, clear 2.4-inch TFT LCD touch screen with "drag and drop" that allows you to easily enjoy audio/video files and libraries with the swipe of a finger. Keeping pace with your busy life, it has video, music and photo playback. Incredibly small, the R1 has plenty of space for video content and also packs in an FM radio and recorder as well as as a voice recorder and can be paired with a Bluetooth enabled headset.

In Black (SAR18B), Silver (SAR18S) or Pink (SAR18P).....**149.95**

Q2 16GB MP3 Player

Light-up touch-pad controls let you intuitively navigate through the menus on the 2.4" LCD. 16GB internal flash memory lets you store up to 4,000 songs. It is also an FM tuner, photo and text viewer, voice recorder and more. Enjoy up to 50 hours of audio playback and up to 4 hours of video on a single battery charge.

- LCD display shows video, images and text files as well as a mood interpretation of your music.
- DNSe engine brings compressed MP3 files back to life by reproducing the stereo sound your music was originally recorded in.
- Connect to either a Mac (UMS) or Windows (MTP) system, and choose between jukebox or drag-and-drop transfer modes.
- Supports MP3, Flac, OGG, WMA audio, MPEG4 and WMV video

In Black (SAQ216B), Blue (SAQ216BL) & White (SAQ216W)....**119.00**

P3 Widescreen Portable Multimedia Player

Just 0.39" thin, the P3 squeezes a 3" scratch resistant full 16:9 LCD touchscreen, video (also supports DIVX) and audio player, photo album, FM radio/recorder, voice recorder, and a portable storage drive in one compact device. Can also be paired with a Bluetooth enabled phone using the mic to answer calls through the player.

- With true haptic feedback, the P3 reacts with a variety of physical sensations to every gesture for a more intimate experience.
- Music Hot Touch Key to instantly access favorite music features and selections without needing to cycle through multiple menus.
- Samsung's DNSe 3.0 sound enhancement technology ensures listeners experience the most natural, full-bodied sound possible.
- Zoom, rotate or create a slide show with your photos. For text, you can scroll, adjust font size, or let it do the reading for you.

SONY

NWZ-W252

Shed the wires with the ingenious NWZ-W252 Walkman. With the remarkable design of the compact NWZ-W202B—2GB of memory built directly into the high-grade Sony headphones—you never have to worry about dangling wires again. "Zappin" function with jog dial operation lets you find songs easily by scanning through your tunes and playing a portion of the main melody and letting you choose to skip or play it. Includes a handy dock, perfect for charging and loading your music.

- Superior sound with 13.5mm EX headphones
- Runs 12 hours on a fully charged battery (takes just 30 minutes to fully charge), or get 90 minutes of playing time in Quick-Charge mode—only 3 minutes to charge!
- Sony's Unique Spiral form headphones fit comfortably behind the neck.
- Supplied "Content Transfer" lets you easily transfer non-DRM music files by "drag and drop" from online music services.

NWZ-W252 (SONWZW252).....**Call****NWZ-E340** Video MP3 Player

- Slim, compact design—1.8 x 3.5 x 0.4" (WxHxD), and user-friendly interface makes it easy to enjoy your favorite music, photos or videos wherever you go.
- Listen to up to 30 hours of music and watch up to 4 hours of video before having to recharge the battery
- 2" QVGA (320 x 240) high-brightness screen color LCD
- Manage music, pictures, and video files via drag-n-drop on your compatible PC.
- Supports high-quality video formats (AVC (H.264/AVC), MPEG-4, and WMV), as well as a variety of audio codecs (MP3, WMA, AAC-LC (.mp4), and L-PCM (.wav))
- Clear Bass reproduces clear bass sound quality without distortion; Clear Stereo prevents audio signal leaking from one channel to another; Dynamic Normalizer balances the volume level between songs.
- Built-in FM tuner; includes headphones and USB cable

**8GB:** Available in Red (SONWZE344RED) or Black (SONWZE344BLK).....**79.95****16GB:** Available in Red (SONWZE345RED) or Black (SONWZE345BLK).....**99.95****NWZ-S540** Video MP3 Player**Step-up Features from the NWZ-E340:**

- Battery allows 42 hours of music 6.5 hours of video before needing to recharge.
- Built-in alarm clock with sleep timer
- Includes earphones, mini USB cable, and a hands-free stand

8GB: Available in Red (SONWSS544RED), Pink (SONWSS544PNK), and Violet (SONWSS544BLK)....**109.95****16GB:** Available in Red (SONWSS545RED) or Black (SONWSS545BLK).....**129.95****X-Series Walkman** Video MP3 Players

With a stunning 3" wide OLED touch-screen display, digital noise cancellation and wireless connectivity, the X-Series takes portability to the next level. Equipped with built-in Wi-Fi, you can connect to the internet and access your favorite websites. You can also subscribe and receive podcasts directly.

S-Master digital amplifier and Digital Sound Enhancement Engine (DSEE) fill in the high tones that are lost during file compression, enhance bass and minimize distortion. A unique digital noise canceling (DNC) software engine blocks ambient noise, while providing a high-quality audio experience. Travelers can turn on the noise canceling feature and get peace and quiet even without listening to music. As an added bonus, they come with 100 free music downloads from Sony Music.

- 3" OLED display delivers a picture with extremely high contrast, exceptional color reproduction and a rapid response time.
- A wide 180° viewing angle gives consistent tone and stable contrast, as well as a wide range of color reproduction and a high contrast ratio.
- Utilizes both touch panel operation and a hybrid button system to improve upon the navigation experience.
- Supports multiple high-quality video formats including AVC (H.264/AVC), MPEG-4 and WMV giving you more freedom to download the kinds of video that you want.
- Included 13.5mm EX headphones deliver premium noise cancellation, along with balanced and rich sound.
- Long-lasting battery lets you listen to music for up to 33 hours or watch 9 hours of video before you need to recharge.

ALESIS Jam Dock

Jam along with your iPod! JamDock is the cleanest way to integrate your iPod into your practice or live music setup. You can connect and mix in nearly any instrument including electronic drums and send your mix to the stereo outputs and headphone output. JamDock is the first dock for iPod that was designed specifically for musicians. Nearly every musician has an iPod, but until JamDock, there has never been an easy and clean way to integrate your iPod into your practice or stage setup. JamDock enables you to mix your iPod and your instrument and practice with headphones, amp, or PA system. You can also use your iPod to play backing tracks live. JamDock has two 1/4" inputs that work with both line-level sources and high-impedance guitars and basses. The inputs sum to mono when there is only one side present, so you'll hear your guitar on both sides of your headphones. A pair of 1/4" outputs feed your amplifier or PA system, and a 1/4" stereo output feeds your headphones.

Jam Dock (B&H# ALJD).....99.95

iRecord Personal Media Recorder

The iRecord is a portable media recorder for portable USB storage devices, iPods and PSPs. Just connect the video source to the composite or S-Video connections, plug in the USB device and hit record and the media will be recorded to your device. The iRecord's H.264/AVC and AAC encoding give 3 hours of A/V recording time on just 1GB of storage space.

- Records directly to audio and video iPod, PSP and any USB 2.0 mass storage device
- Records from any analog video source including DVD player, TV, TiVo, VCR, or any cable/satellite set-top box
- Supports NTSC, PAL, and SECAM video standards
- Encodes high-quality H.264 video with AAC audio at 320 x 240
- Encodes music using MP3 encoding standard; supports both Windows and Macintosh iPods
- USB card readers let you use many removable storage devices with iRecord (SD, MMC, Memory Stick, CompactFlash etc.)

Crystal EV Standard Edition Personal Media Viewer

The Myvu Crystal EV Standard Edition lets you watch your personal media player's video content virtually anywhere. Just connect the Crystal EV to your compatible device and watch all the action on the 640 x 480 resolution VGA display, with an equivalent screen size of 64". With SolidOptex technology the viewer provides you with quality optics and a lightweight design that's easy to wear for hours on end. Runs for up to 4 hours on a fully charged battery, and is recharged via the included USB cable. Using the handheld pendant controller you can manage the player's volume and contrast and brightness. In addition, the included stereo earphones reduce outside noise while providing high quality sound. Compatible with Zune, Nokia phones (N95) with video out, digital media and DVD players, camcorders, gaming system with composite video out, iPhone and iPod with optional cable. (MYCESE)**279.95**

ezVision x4 Video Glasses

ezVision x4 offers you a 64" virtual screen that fit like a pair of glasses. Now you can watch TV in privacy. Whether you are on a plane or you're a night owl and don't want to disturb your partner, the ezVision allows you to watch in complete privacy. Ultra lightweight with built in ear-phones you can enjoy movies, music videos, cartoons, and podcasts.

- Simulates a 64" TV screen with a 4:3 aspect ratio when viewed at a distance of 8.5'.
- Runs up to 5 hours on a Lithium Ion rechargeable battery pack
- The battery pack is just 1/2" thick and includes your power switch and volume control.
- Built-in quality earphones with an integrated earphone holder and a coiled cable to keep the wires neat.
- ezVision Video Glasses are completely compatible with your iPod. For iPod video, a small adapter cable is all you need. For the new iPod Touch, iPod Classic, or iPod nano, you need an iPod Composite A/V Cable to connect to the ezVision.

ezVision x4 (B&H# EZX4VG): Includes 2 customizable nose pieces, rechargeable battery, A/C charger, RCA and iPod video cables**349.00**

Cinemizer Plus Head Mounted Video and 3D-video Eyewear

The Cinemizer combines high-resolution LCD screens with individual diopter focus adjustment (-3.5 to +3.5D). This means even if the user wears glasses the screen image can be focussed for crystal-clear viewing. The resulting image is optically tuned to appear as virtual 45-inch screen, as viewed from six feet away.

- Ability to override the built in headphones and plug in third party models. This means that users that have high-end audio equipment can use them with the Cinemizer plus.
- 3D mode enables stereoscopic viewing of 3D content. Content that is produced in side-by-side 3D format can be displayed from any video source, then the views are split for left and right screens. The resulting experience is a rich and immersive 3D image.
- The Cinemizer is "Made for iPod" which means it is designed specifically to work with all iPods that have video. The Cinemizer also works with both the original and the 3G iPhone.

Cinemizer Plus (B&H# ZECPVGB)**449.00**

iPhone 3G/3G S Accessories

Zacuto Zgrip iPhone PRO

The Zgrip iPhone PRO is an effective solution for capturing smooth and stable professional quality video with your iPhone 3GS. The system's space-age design resembles a robotic arm that holds your iPhone securely with its adjustable, quick release handgrip. The grip fully articulates and features levers that allow for minute adjustments to help you get exactly the shot you want from any angle.

To use the Zgrip, simply place your iPhone into the cradle, snap the cradle onto the grip, and begin shooting. Capture previously unattainable smooth and steady video. Includes lifetime warranty.

B&H# ZAZZGIP**280.00**

mophie Juice Pack Air

The Mophie Juice Pack air extends your iPhone's 3G & 3G S battery life and protect your investment at the same time. It provides you with up to an extra 4.5 hours of talk and Internet time, up to 27 hours of audio playback and up to 9 hours of video playback. The juice pack air is designed to drain first, so once it runs out of power, your iPhone's battery will still

be charged and ready to keep going. And, with access to all ports and features, such as the built-in camera lens, you can leave your iPhone in this stylish case at all times, even when you're not using the battery.

iHome iP41 Rotating Alarm Clock for iPhone & iPod

The iP41 is specifically designed to take advantage of the iPhone & iPod's variable aspect screen. Place the iP41 on its side to watch widescreen video and the clock display will adjust to match. Includes full function remote control.

- Wake and sleep to your iPhone/iPod music or movies
- EXB™ Expanded Bass and Reson8 speaker chamber technology for richer sound

Plays and charges docked iPhone/iPod when connected to AC In Black (#IHP41) or White (#IHP41W)69.95

**iHome iP47BR Bluetooth Clock Radio & Speakerphone for iPhone & iPod**

A complete sound system, the iP47 is designed and engineered to shield and avoid annoying iPhone/mobile phone GSM noise so no airplane mode is required which means that you'll never miss a call again when your iPhone is docked. Bluetooth technology allows you to wirelessly dial and receive calls through its speakerphone function and to see clearer caller ID on the large LCD display. Dual alarm clock radio allows you to wake and sleep to your iPhone, iPod, Bluetooth-enabled device, AM/FM radio and to set separate alarm times. Stream your music wirelessly from your A2DP Bluetooth-enabled device through the Reson8 speaker chambers to enjoy beautifully enhanced audio sound.

- Controls Bluetooth-enabled cell phones and other devices; supports the Handsfree, Headset, AVRCP and A2DP Bluetooth Profiles
- Speakerphone with built-in mic to answer and place calls using your iPhone (or other Bluetooth-enabled cell phone)
- Play and charge your iPhone or iPod

JBL ON TIME MICRO • ON TIME 200P

High Performance Speaker Docks for iPod/iPhone with Clock Radio

With JBL's On Time Micro music on your iPod, iPhone or other MP3 player sound great any time. But in the morning, wake up to the music that you know – with or without the help of up to seven independent alarms. Features Legendary JBL® sound quality with Phoenix transducers, computer-optimized equalization and optimized compression technologies. For convenience, has an easy-to-read LCD display with automatic dimming and easy-to-use touch controls.

The On Time 200P is a compact, high-performance time machine and sound center. It produces clean, powerful sound while providing time-keeping, alarm and radio features. Just a touch increases or decreases the volume. Another touch and you choose iPod, radio or auxiliary. It even remembers your source and the last volume setting, even after the system shuts down. The navigation buttons provide instant access to the menus. Navigate the intuitive menu to change settings such as language, alarms and snooze. Radio functions (e.g., channel presets) are simple. The large backlit LCD permits easy viewing and menu navigation. Automatic dimming sets the correct brightness level in any room environment.

Tivoli Audio®

SongBook Ultimate Travel Radio

In a world where news is a necessity and relaxation a luxury, combine both in this portable radio with a wealth of AM and FM options and guaranteed high-fidelity sound. The sensitive digital tuner helps you select those channels that best suit your needs. And the unique rubberized coating protects your SongBook whether it's banging along in your luggage or being carried from place to place. The alarm clock features a built-in timer so you can lull yourself to sleep with your favorite songs and wake up to the same soothing tunes. A built-in charger for the NiMH/NiCAD batteries mean that wherever you go you've got power, no matter how long you are away from home.

Available in White (#TIRSUTW), Silver (#TIRSUTS), Blue (#TIRSUTBL), or Green (#TIRSUTGR).....**159.95**

Henry Kloss P.A.L.

AM/FM Weather Resistant Radio

With Tivoli's PAL Portable Radio you get hot styling and great sounding music. With Henry Kloss's 2.5" magnetically shielded driver and water-resistant rubberized cabinet you can take it anywhere. The rechargeable NiMH battery pack is charged in three hours giving you virtually unlimited playback time. Uses a geared-down 5:1 ratio analog dial for easy and accurate tuning. There is an auxiliary input to connect a CD or MP3 player. There is also a stereo headphone output for privacy. You'll always get the best quality from your station with the Automatic Frequency Control. With AFC you can lock on to the center of a station for best reception and lowest distortion.

Panasonic

DMP-B100 • DMP-B500 Portable Blu-ray Disc Players

The DMP-B100 and DMP-B500 are designed to provide the ultimate high definition Blu-ray experience for those on the go. They feature much of the same technology found in Panasonic's stand-alone Blu-ray Disc players, including the PHL Reference Chroma recessor Plus. This technology reproduces color data with twice the accuracy of conventional systems, resulting in faithful and sharp colors.

The DMP-B100 features a high resolution 8.9" WSVGA LCD screen an SD Memory Card Slot for playback of JPEG images, an adjustable position screen, Dolby Digital and DTS HD. Mono-arm design allows the display angle of the B100 to be freely adjusted.

The DMP-B500 steps with a 10.1-inch WSVGA screen, VIERA CAST internet functionality with Wi-Fi connection, an SD Memory card Slot that can playback digital still JPEG images and high definition video (AVCHD), and a USB port. It also offer VIERA Link, a technology that utilizes HDMI to enable control all VIERA Link compatible products with one remote. A photo stand-like design allows for comfortable positions.

DMP-B500's VIERA CAST content include Netflix, Pandora, Twitter, Fox Sports, Amazon Video on Demand, YouTube, Picasa Web Albums, Bloomberg and a weather channel. (The service is free, though there is a charge for movies streamed from Amazon Video on Demand and Netflix.)
