Whirlpool® Side-By-Side Refrigerator with 6th Sense™ Technology

Get the most refrigerator and freezer capacity ever* while being energy efficient.

Industry's Largest Capacity Refrigerator and Freezer*

Get ready to pack in the meats, cheeses and party trays with the **industry's largest capacity refrigerator and freezer.**† This model offers 30 cu. ft. of space and 20% more freezer capacity.**

More Freezer Space†

The **In-Door-Ice® Plus** ice dispensing system creates more usable space in the freezer.† The bin tilts out or can be removed with one hand and placed on the counter to make filling glasses, pitchers and coolers easy.

Better Lighting

Multipoint ramp-up **white LED lights** illuminate your refrigerator from all angles to surround your food with light and reduce shadows.

More Shelf Space**

While offering the most shelf space,** industry exclusive **MicroEtch™** spill control shelves are easier to clean, and literally catch spills before they run to keep messes to a minimum.

Expanded Storage

The industry's **largest capacity freezer**† holds as much as a conventional freezer and a chest freezer.** Combined with the **industry's largest crisper**†† and **door bins with the most gallon door storage available**,†† family favorites stay fresh, cool and within reach.

Cools Food Twice as Fast§

The **temperature management system**, enabled by 6th Sense™ Technology, is highly energy efficient while adjusting the temperature to enhance freshness. Which makes it more efficient for your food and your budget, too.

Purchase your Whirlpool® Side-By-Side Refrigerator today, and remember to:

- Measure the dimensions of the doorways and hallways leading into your house and kitchen.
- Evaluate the electrical and plumbing systems in your home, and contact licensed professionals for necessary upgrades or installations.
- Ask your retailer about promotions and offers on the Whirlpool® Side-By-Side Refrigerator that are currently available in your area.
- Contact your local municipality to determine the most ecologically responsible way to recycle your old appliances.
