UPDATED '315' Series Cooling System Test Kit

Recently updated kit to include Mercedes A Class & revised Ford applications

- The '315' series Cooling System Pressure Test programme from Sykes-Pickavant provides extensive coverage for both popular and less popular models and is constantly updated as new models are released.
- More than 20 specialist cooling system cap adaptors are available
- All components of the '315' range are fully compatible with older SP Cooling System Kits and can be used to upgrade previous generations of Cooling System Pressure Test Kits which are fitted with quick-release connectors
- For older systems with a threaded connection, an adaptor is available (03186870)
- **Contents:**
 - Hand Pump with Pressure Gauge and Quick-Release fitting
 - Hose Assembly c/w quick-release fitting
 - 16 x Threaded Cooling System Cap Adaptors
 - 3 x Bayonet Fitting Cooling System Cap Adaptors & 1 x Cap Adaptor wrench
- Comprehensive applications listing provided with each kit

Keepower Intelligent Battery Care Battery Charging – Battery Boosting

- Microprocessor controlled for optimum efficiency
- Suitable for all battery types – AGM / GEL / WET etc
- Spark free technology – protects against overload & short circuits
- Intelligent charging regime – 9 modes of charging

Additional Features:

- Flashlight – enables you to clearly see connections
- iPod charger – charge your iPod / Mobile phone via USB connection (XL-Pro only)
- Hook-free clamps – avoids tangled cables
- IP protection rating – suitable for use in damp conditions

88813400 - shown

Includes:

- 'Testing' phase for general battery condition
- 'Soft Charge' for deep discharged batteries
- 'Boost' phase to kick-start battery with low power
- 'Supply' mode – use the charger as a power supply in order to keep battery fully charged

Extend your batteries' lifetime with Accu-Smart® A totally automatic charger that works for you!

Accu-Smart®, electronic "switched-mode" battery charger, offers a lighter, compact and greater power compared to old chargers using "linear-mode technology" with transformers. No need for handling or mode selection, the charger works automatically, without external intervention.

- Suitable for Wet (Lead Acid), AGM, Gel & Fleece type batteries
- Each charger is perfectly safe for the electronics of a vehicle, therefore it is not necessary to disconnect the battery from the vehicle before charging it. The charger can effectively retain memory settings within a vehicle while replacing a battery.
- Each charger includes inter-changeable end fittings that best suits the application. Choose from eyelets, cigarette lighter plug and crocodile clamps.

Sykes-Pickavant Battery & Electrical Systems Tester

- Higher Performance model for batteries rated from 100 – 1200 CCA
- Suitable for luxury and 4x4 vehicles with higher level electronic systems
- Determines the state of a Battery and Electrical System
- Simple & Accurate Tests - without heat or sparks being created
- Integrated printer for immediate review with customer

Features:

- User defined printout header
- Suitable for batteries from 100 CCA to 1200 CCA
- Suitable for all battery types inc AGM and GEL

Available Tests:

- 12v batteries & electrical systems
- Starting & Charging system voltage
- Bad Cell detection
- Test discharged batteries down to 1 volt

SAVE €26.00
 LIST PRICE €127.95

Scan the QR code to watch a video of the Injector Puller

Hydraulic Injector Puller Systems

- A NEW concept for the removal of stubborn injectors
- Provides controlled force to aid the removal of seized injectors where there is insufficient access for traditional slide hammers
- Uses a multi-position frame, with adjustable legs of different lengths and a selection of mounting adaptors to allow alignment of the tool with the injectors on a wide variety of modern diesel engines
- The combination of variable leg lengths and selection of the appropriate adaptor for the cylinder head, allows the tool to be correctly positioned on most cylinder heads
- Supplied with injector adaptors for most modern injector types – M14 | M16 | M17 | M20 | M25 | M27

sp 185800SP1

Hydraulic Injector Puller Kit

- 10 tonnes Hydraulic Hollow Cylinder provides the force – use with standard hydraulic pump (not supplied)

€1283.50

96015000

sp 960200SP

SP Induction Heater + with Coil Kit (96015000)

The SP Induction Heater + is a redesign and upgrade of the popular Mini-Ductor II, and uses new engineering technology for increased energy efficiency and ease of use.

Now you can use the power of technology with invisible heat to quickly release corroded or seized components and other metallic parts. All without the damage normally associated with gas torches. Heats in seconds!

Key features of the SP Induction Heater +

- Operates cooler for better efficiency, handling and product longevity
- Longer operating cycle time
- Carry Case; with storage for all attachments, fits in tool chests for security
- Integrated CE filter improves handling of product
- Specifically designed for the UK/EU: 230v/6 amp/1000 watt – with full CE certification
- LED work light illuminates work area
- 1 year warranty - Parts/Labour
- A true 1,000 watts max power available
- Kit includes rope, u-form and pre-formed coil

The Hook – The Ultimate Circuit Tester

All the features of a Power Probe PLUS the following:

- Activate Components
 - Watch real time current and resistance
 - Up to 100amps inrush current, 25amps constant
 - Adjustable current protection, up to 65amps
- Intermittent Circuit Testing
 - Min / Max mode for current, voltage & resistance
- Hot Shot Mode
 - Load Test Power and Grounds in only 7 milliseconds (Pass / Fail shown on screen)
- Voltage Drop
 - See Battery voltage and voltage drop on screen
- Smart Tip Technology
 - Automatically selects the Ohmmeter or Voltmeter function and selects the correct range

Examples of Applications for The Hook

Module Replacement:

Operate injectors, coils, relays, solenoids and check the current draw

Fault Code Diagnostics:

Check voltage drop and then load the circuit with power or ground – see the current, voltage and resistance immediately

Glow Plugs:

Power up glow plugs and watch current & resistance values live

Circuit Breaker:

Activate High Current devices by using The Hook as a Circuit Breaker
