3. Make sure the foot on the adjustable leg and the foot on the outer ladder leg are at the same angle. If the angles are not the same, simply, remove leg clamp, rotate adjustable leg 180 degrees, and then replace Leg Clamp.

1. The Leg Leveler has two leg clamps. Both are required to attach the I-beam to the outer leg of the ladder and the adjustable leg.

4. To adjust the height, loosen leg clamp; choose desired height, and retighten leg clamp with firm pressure. Make sure both leg clamps are tight and secure.

2. To mount the Leg Leveler on your Little Giant Ladder, loosen the clamp from the I-beam. Slide I-beam bracket onto outer ladder leg and then tighten the clamps. The I-beam should be placed as close to the ladder foot as possible.

5. Ensure that the ladder rungs are level to the ground (not in a tilting position) before using. Adjust the Leg Leveler to ensure correct vertical positioning.
