## Security

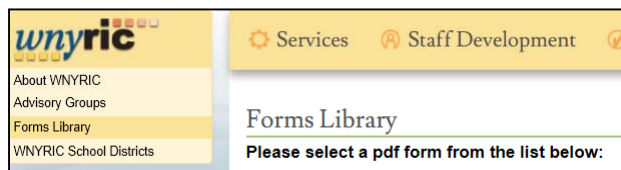

Presented by M. Maloney

## WNYRIC DW Security Process

- Limited number of users per district, school, BOCES.
- Access is at a district level. This means whoever is authorized as a user can see all data for the district, school or BOCES as made available in WNYRIC DW reports.
- DDCs are required to sign off on requests for access and ensure district superintendent, school principal or BOCES superintendent sign as appropriate for the LEA.
- DDC's are also required to notify WNYRIC of the need to delete access for a user.
- The WNYRIC DW Support team is now reviewing all security forms prior to establishing access. This change occurred with the retirement of WNYRIC's security officer.

## WNYRIC Security

- Use of an Authorized User Form for Level 0 and WNYRIC DW (Level 1)
- Forms are found in the WNYRIC Forms Library.

## Level 0 Security Process

- WNYRIC manages security for requests for DDC access for student records and/or staff records.
- The WNYRIC DW Support team is now reviewing all security forms prior to establishing access. This change occurred with the retirement of WNYRIC's security officer.
- Once authorized for access as a DDC, the DDC will have rights to assign access to other district users.

## Reminder about NYSED Security

- Many applications use NYSED's SEDDAS security.
- SEDDAS is SED's Delegated Account System.
- SEDDAS provides districts, charter schools, non-public schools and BOCES with a means of administering security for various NYSED applications.
- Information about SEDDAS can be found on the NYSED website.  
<http://www.p12.nysed.gov/seddas/seddashome.html>

## NYSED L2RPT Security

- L2RPT uses NYSED's SEDDAS security.
- Security is established by SEDDAS district administrator, usually the Superintendent.
- Access to L2RPT requires SEDDAS account at appropriate level (District or Building) and entitlement rights to L2RPT.
- For more information about SEDDAS, use the following URL:  
<http://www.p12.nysed.gov/seddas/seddashome.html>

## New This Year

- Last year we collected the staff assignment data set from your student management system
- This year this data set will be extracted and imported from your Human Resources system
- Additional fields have been added to the Staff Snap Shot Template for Human Resources
- Staff Tenure template is new this year, this new data set will hold certification and salary information that is currently being developed. H.R. software vendors are at presently working on this. The collection of this data will start around February 2015
- If you do not use an H.R. system, data can be entered into a spread sheet and imported to Level 0 or manually entered directly into Level 0

## New This Year cont'd

- There will be different staff assignment data collections
  - PMF collection is for non teaching staff to be included in the PMF collection
  - Principal APPR collection, what we used to do for principal evaluation
  - Non teaching staff who needs access to the ENYP (Engage New York Portal)
- This data will be collected after February 2015

## SMS & Level 0 House Keeping Tips

- Students who are alt assessed must have an ungraded enrollment grade that gets imported to Level 0
- All PK and UPK students need 990 or 902 code
- All students who were PK students and who rolled up to grade K, you need to end their UPK status from last year
- Open NYSESLAT records, eligible to take the NYSESLAT 0242 code must end from last year
- Homeless indicator is a yes/no field on the demographic record. If the student is homeless at any point during the school year, it remains "yes" for the entire year
- PS summer school records are needed for any student who received summer school special ed.

## PS Summer School Services

- This is the time of year, where it is very important for districts to get their Pre School summer school records into their SMS systems, this includes any Kindergarten child who may have moved up to grade K.
- You will need to work together with your CPSE committee to get these summer school children enrolled into their PS summer school service.
- They will need to be entered as grade of PS and their location code must be who the special ed service provider is, with a summer start date of 07/01/2014 and end date 08/dd/2014.
- There are edit validation checks in Level 0 and will error if there is not a corresponding PS enrollment grade for this record.
- This important data will effect next June 2015 EOY Snapshot verification.

## It Matters Sequentially !

- When locking data files, it is important to remember to lock data files in sequential order.
  - Demographics
  - Enrollment
  - Program Service
  - Special Ed Files

### Data Warehouse Services

When it comes to making data ready and accessible, WNYRIC offers a full array of data warehouse services. Using e-Scholar software and NYSED data cleansing software, WNYRIC collects data from multiple sources including student management systems, HR/Financial systems and WNYRIC's Test Scoring software. WNYRIC houses this data in a regional data warehouse and makes it available to NYSED on behalf of districts and schools per documented NYSED deadlines.

### Test Scoring/Scanning Services

The Test Scoring/Scanning service accommodates the scoring and scanning of NYS elementary, intermediate, and Regents assessments. The Test Scoring service includes the pre-printing of answer sheets and in some cases the printing of student labels for test booklets. Once the answer sheets have been scanned, the student scores are then submitted to the Regional Data Warehouse and forwarded to NYSED. The Test Scoring service provides item response data for the Data Warehouse with item analysis, gap analysis, and distractor analysis capabilities. The Test
