

Boost your productivity with the smartest fusion of notebook and Tablet PC:

The Portégé 3500.

Wireless communication frees you to work anywhere.

Thanks to a brilliant array of on-board communication capabilities, mobile executives will never run out of ways to get and stay connected on the move. Integrated Wireless LAN lets you access the

network, e-mail and the Internet anywhere in your work environment – even on the move between offices or meeting rooms. Also featured are built-in Bluetooth™ for wireless connectivity, Fast InfraRed, an international V.90 modem and Ethernet LAN. To achieve remote dial-up to the Internet, simply use a GSM/GPRS card in the PC Card or Compact-Flash™ slots or connect via Bluetooth™ to your mobile phone.

Enjoy easy wireless communication to a mobile phone, PDA or office peripherals thanks to integrated Bluetooth™.

Use a combination of wired and Wireless LAN connectivity to stay connected to your network, both in and out of the office.

On the road, get online instantly via Hot Spots, the fast-growing wireless public access service.

Model	Portégé 3500	Interfaces	CF™ Card slot, DC-in, external microphone, Fast Infrared Port (FIR), headphone, external monitor, RJ-11, RJ-45, SD™ Card slot, 2 x USB 2.0
Part number	PP350E-002F6	Expansion	PC Card slot for 1 Type II card, 2 x memory slots (1 to configure)
Processor	Mobile Intel® Pentium® III Processor - M, 133 MHz Front Side Bus, 512 KB 2nd level cache	AC adapter	Autosensing AC adapter (100/240 V) for worldwide usage
Clock speed	1.333 GHz	Battery	Technology: lithium-ion, maximum life: up to 4.6 hours ³ , special features: SuperLongLife mode
Display	12.1" TFT poly-silicon active matrix colour display	Operating system	Windows® XP Tablet PC Edition
Internal video mode	Maximum number of colours: 16.7 million, resolution: 1,024 x 768	Bundled software	On-line user manual, Toshiba Management Console, Toshiba utilities and drivers
Hard disk	40 GB ¹⁾ , S.M.A.R.T.	Bundled hardware	AC adapter, Tablet Pen
System memory	256 MB, maximum expandability: 1,024 MB, technology: SDRAM	Security features	BIOS password, built-in modem/LAN (by screw), HDD password on request, keyboard lock, main hard disk (by screw), main memory (by screw), SecureSleep™, slot for Kensington Cable Lock, supervisor password, system password security, user password, Wireless LAN switch
Graphics adapter	Trident CyberALADDIN-T, 16 MB UMA, BitBIT: 128 bit, 4 x AGP bus	Physical dimensions	W x L x H: 295 x 234 x 29.9/32.8 mm, weight: 1.85 kg
Max. external video modes	Max. colours: 16.7 million, max. refresh rate: 85 Hz, max. resolution: 1,600 x 1,200, non-interlaced resolution with max. refresh rate: 1,280 x 1,024	Warranty	3-year international warranty
Keyboard	85 keys, 8 cursor keys, inlaid numeric keypad, 10 Hot Keys	Options	128 MB memory module (PA3085U-1M12), 256 MB memory module (PA3086U-1M25), 512 MB memory module (PA3108U-1M51), universal AC adapter (45 W) (PA3241E-1ACA), universal AC adapter (75 W) (PA3083E-1ACA), back-up battery pack (PA3228U-1BRS), battery charger (PA3091E-1CHG), USB diskette drive (PA3109U-1FDD), tablet pen (PA3242U-1ETC), mobile DVD-ROM drive kit (PA3246E-1DVD)
Pointing device	Tablet Pen, Touch Pad		
Wired communication	10/100 Base-TX Ethernet LAN, 56 Kbps data (V.90); 14.4 Kbps fax (V.17) international V.90 modem ²⁾		
Wireless communication	Bluetooth™, Wireless LAN (802.11b network support, Wi-Fi compliant) ³⁾ , Fast InfraRed (FIR compliant)		
Sound system	ALI-M1535, 16-bit stereo, MIDI synthesis, built-in speaker		
BIOS	ACPI: 1.0b, system management BIOS: 2.3		

¹⁾ One GB means one billion bytes. ²⁾ To be applied in countries where it is approved. ³⁾ Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com.

The Portégé 3500: Dual functionality to revolutionise working life.

Combining the uncompromising power of a wireless business notebook with the versatility of a Tablet PC, the Portégé 3500 represents a quantum leap in mobile productivity. This convertible can be carried all day, used in any environment and runs all the most power-hungry business applications, making it ideal for mobile users who want to maximise efficiency.

Why choose the Portégé 3500?

- Boosts productivity – fully-functional notebook combined with the versatility of a Tablet PC to revolutionise working efficiency
- Ultimate ease of use – runs Microsoft's most powerful business software with stunning additional features for Tablet PC
- Work smarter – the best two-in-one design for head-turning style and brilliant functionality
- Top-end performance on the go – impressive power, speed and expandability to handle any task
- Stay connected anywhere – keep in touch with cutting-edge communications, including integrated WLAN and Bluetooth™

Uncompromising two-in-one design.

Developed for a whole new way of working that radically enhances your efficiency and productivity, the Portégé 3500 is the next step in PC evolution: A powerful notebook and Tablet PC combined in a slim device you can carry with you at all times.

This awesome convertible delivers the best of both worlds: the versatility of a Tablet PC with absolutely no trade-offs in terms of notebook capabilities. Used flat like a digital notepad, you can take it to a business or client meeting and jot handwritten notes or draw sketches directly on screen. Record details of a spontaneous corridor meeting. Make notes while you walk, talk or travel.

Back at your desk, lift and rotate the screen and you've got a top-class business notebook complete with standard keyboard and uncompromising power to run all existing PC applications without modification.

For highly mobile PC users, 'knowledge workers' and specialists such as healthcare professionals, insurance assessors or service engineers who need to enter or access information on the spot,

this dual functionality has enormous potential. The Portégé 3500 will transform data entry for executives who also generate copious notes at meetings.

Work quicker and slicker with unique software.

The Portégé 3500 is equipped with a powerful operating system – Microsoft® Windows® XP Professional Tablet PC Edition – offering all the capabilities of Microsoft® Windows® XP Professional with no sacrifices, plus a stunning array of unique additional features. Now you can choose how you interact with your PC – either using a conventional keyboard, mouse or touch pad, or with more intuitive pen or speech input.

With Windows® Journal you can hand-write notes, annotate documents and forms, store and search for handwritten files – even translate handwriting into text documents. Innovative free-flowing 'digital ink' and an ingenious electromagnetic digitiser make pen inputting as easy and natural as writing on paper. In fact, it's far better than using paper because it eliminates those hours spent typing scribbled notes into your PC at the end of the day.

Speech recognition lets you dictate text or control applications by voice. Display rotation allows you to instantly switch between portrait and landscape mode to suit different tasks. Sticky notes are great for placing memos and reminders on the desktop.

In addition to the Microsoft® Windows® XP Professional Tablet PC Edition operating software, Toshiba has installed Symbol Commander on the Portégé 3500 – an ingenious system which allows you to set up time-saving shortcuts. Just draw simple symbols on the screen to navigate, launch applications and more.

Ingenious Symbol Commander function lets you navigate, rotate the screen and more, simply by drawing personalised symbols on screen.

Great design, smarter thinking.

The Portégé 3500 gives you the world's most intelligent, versatile and stylish realisation of the all-in-one concept. Its rotating 12.1" screen makes it easy to share your data with everyone in a meeting or presentation, and then folds flat to provide a comfortable writing area. The screen's ingenious swivel hinge not only catches the eye with its hi-tech looks but is also incredibly robust.

In tablet mode, the screen provides a notepad-like writing area almost A4 in size, with input optimised for both right and left-handers. The high-resolution polysilicon TFT display is crisp and bright for stress-free reading, writing and drawing in land-

scape and portrait formats. At just 1.85 kg and small enough to rest on your arm, the Portégé 3500 can be used equally easily sitting, standing or moving around.

Superbly engineered: robust swivel hinge supports smooth transition between notebook and tablet mode.

The power to be more productive.

A device developed to be an individual's primary PC, this companion requires cutting-edge performance to handle any task – and the Portégé 3500 meets every expectation. It comes with a fast mobile Intel® Pentium® III-M processor at 1.333 GHz, supported by a massive 256 MB of RAM and a 40 GB hard drive. Multiple expansion possibilities, including CompactFlash™, SecureDigital™ and PC Card slots, plus two USB 2.0 ports and RGB out, make it incredibly adaptable. Exceptionally long battery life keeps the Portégé 3500 ready for action wherever work takes you. All in a high-quality case.

Choose from a wide range of state-of-the-art storage and expansion options via on-board CompactFlash™, Secure Digital™ and PC Card slots.
