TripliX™ allows to simultaneously or independently control up to 3 units of the new powerful **iX** range Seamless Switchers: **Di-VentiX**, **EventiX**, **CentriX** and **NatiX**.

Up to 24 sources can be displayed on 3 screens (6 in matrix mode). All the sequences and effects of the **iX** Range (cut, fade, titling, PIP and wipe) can be synchronized or separately activated, automatically or with the T-Bar.

TripliX is compact, easy to use and to connect, and designed to be integrated in any 19'' rack control room.

The combination of **TripliX** and an **iX** Seamless Switcher can be used together with **Show Manager Open Edition** and/or **Cross Blender** for spectacular wide screen presentations.
