RANGE COMPOSITION

ActiveSelf is a servery system consisting of modular units designed to meet the servery requirements of both profit and cost sector catering outlets. The careful choice of materials and components and the design solutions adopted, guarantee that the range is the best of its kind for strength and reliability. Its modern design may be further enhanced by the placing of panels with beech-wood finishing, or by special panels which can be painted in a colour of the users choice, over the stainless steel panels.The refrigerated well units are ideal for the conservation, display and distribution of cold drinks. The range consists of 3 models on refrigerated cupboards with 3, 4 or 6 GN container capacity.

ACTIVESELF

REFRIGERATED WELL ON CUPBOARD — ZANUSSI PROFESSIONAL

FUNCTIONAL AND CONSTRUCTION FEATURES

◆ 20/10 top, external panelling and base in 304 AISI stainless steel.
◆ Statically refrigerated well in 304 Stainless Steel with rounded corners, thermostatically controlled with 4 probes: cupboard probe, cupboard evaporator probe, condenser probe and evaporator display probe.
◆ Models with fan-assisted refrigerated cupboard, insulated with expanded polyurethane foam 50 mm in thickness.
◆ Statically refrigerated well and cupboard separately thermostatically controlled.
◆ Recessed control panel featuring easy-to-read controls that can not be damaged by cleaning. The ACTIVE controls include the main ON/OFF button, the Alarm Service button, the HACCP button to monitor and record all the critical events, 2 buttons to increase and decrease temperature,

the temperature display, a thermostat, a manual defrost button and an automatic defrost.
◆ 304 AISI stainless steel feet, adjustable in height.

◆ A large number of gantries, without shelf, with one or two shelves, with light, in either stainless steel or tempered glass can be placed on the unit which is delivered without any.
