   a) Blue flashes when the unit is being initialized.
   b) Blue and stable when the WiFi is ready for use.

WAN LED: The WAN LED is:
   a) Green when the Internet connection is ready for use.
   b) Off when no Internet connection is found.

Charging weZee Disk

Connect the power adapter with supplied USB cable to weZee Disk already off.
The battery level indicator will blink every 2 seconds during charging and turn off when fully charged.

Transfer files

Connect weZee Disk (off) to any available USB port on your computer using the supplied USB cable. It just works simply and the disk volume will appear like any other external hard disk drive. You can now begin to transfer data to and from weZee Disk.

Note: The internal hard disk must be formatted by using one of the following file system: NTFS or FAT32.

Enable / Disable

To turn on the weZee Disk, press the power button 3 seconds which is located on the front panel.
The weZee Disk will start to initialize. The Power (green) LED will flash followed by the Wi -Fi LED (blue). Once the initialization process is complete, the hard drive, WiFi and power LED will remain light up.
To turn off the weZee Disk, press the power button 3 seconds and all LEDs will turn off immediately.

Connecting to Wi -Fi

The weZee Disk is accessible through any type of the below devices:
Windows PC, Mac, iPhone / iPad, Tablet PC & Mobile Apps via the APPs and Client utility "WeZee-Disk"
Simply search Wi-Fi network appeared on your mobile device or computer, select and connect to "WeZeeDisk -XXXX".
Once connected, enter the default password: 11111111.

Utility Connection - Client PC

Use your PC / Mac to copy the utility called "WeZee-Disk" and follow the instructions on the screen:
- Once the process is complete, double -click "WeZee-Disk" icon on your desktop to launch the utility.
- Please search WeZee Disk (see screenshot below).
- Select the "WeZee-Disk" option.

4) Please now start playing a video on your iPhone or iPad to activate decoding media player of WeZee-Disk.

⑤ STOREX

For any technical support or repair, please contact Technical Support via the following address:

support.fr @ storex.eu

STOREX guarantee is valid for 1 year for the device and 3 months for accessories (power supply, CPL...).

STOREX guarantees your products against any manufacturing or assembling faults. This guarantee only applies to the first purchase of the device by the end user and is not transferable if the device is resold. This warranty does not cover any incompatibilities found by end user apart from recommendations specified on the packaging, or any other incompatibility generated by other hardware or software on the computer that is connected to the device.

The guarantee doesn't cover failures or defects induced by non-compliance to this manual's instructions, neglect, alteration, improper installation or maintenance, improper tests, accident or external factor such as excessive heat, humidity or power failures of the device.

The only contractual obligation endorsed by STOREX pertains to the reparation or replacement of a defective product.

This guarantee is well defined and cannot be modified, decreased or increased without written consent from STOREX. This warranty covers only your device and is governed by French law.

Note: STOREX reserves the right to modify the user manual according to the development and updates of the product without prior notice.
