

MC35i Terminal

GPRS connectivity in a box

The MC35i Terminal offers high level GSM/GPRS features in compact plug-and-play housing with all the standardized interfaces you'll be likely to need. Together with its small size, this makes it easy to integrate into all kinds of machines.

The Dual-Band GPRS Class 8 technology is incorporated into robust housing and includes a range of common interfaces as well as an integrated SIM cardholder. Or put another way, the MC35i Terminal is an all-in-one solution enabling voice, data, SMS and fax communication.

Its robustness, plug-and-play functionality, and state-of-the-art GPRS features make the MC35i Terminal ideal for use in a wide range of M2M business fields, such as metering and remote maintenance, traffic systems, transportation and logistics, security, vending machines, and facility management.

As it also has full type approval (FTA), you can produce a product ready for market launch within a short time – the MC35i Terminal has been approved by major network operators around the world.
