Process of control console operation —for PR730 only

Assembly Procedure

PR700/PR710F/PR720F

[step 1]

Insert front protector pipe

[step 2]

Lift up the PetRun, then fasten screw (M6x18L) by L-wrench_4mm.

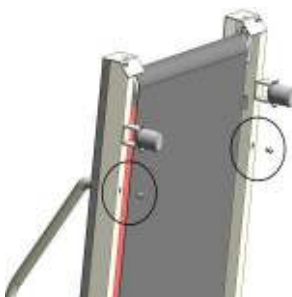

[step 3]

Insert left & right protector pipe

[step 4]

Fasten screw (M6x18L) by L-wrench_4mm

[step 5]

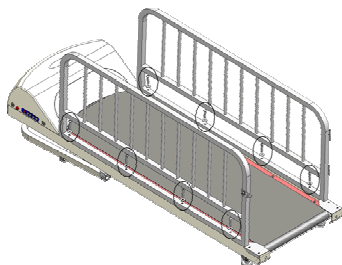

Fasten screw (M6x35L) by L-wrench_4mm

PR720E/PR725

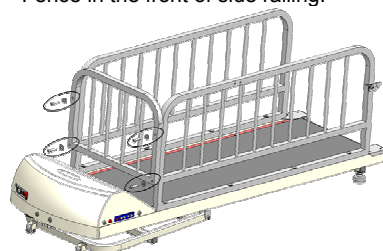

[step 1]

Use L-wrench_5mm, screw(M8x40L) and washer(M8x1.6T) to fasten the Left Fence and Right Fence on both side.

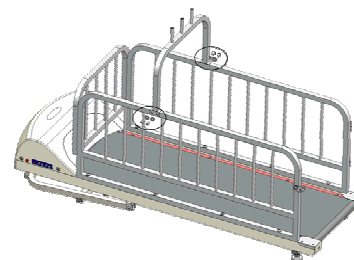

[step 2]

Use L-wrench_5mm, screw(M8x40L) and washer(M8x1.6T) to fasten the Front Fence in the front of side railing.

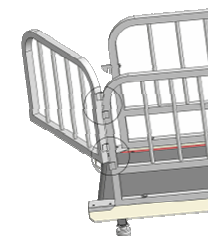

[step 3]

Use L-wrench_5mm, screw(M8x15L) and washer(M8x1.6T) to fasten the Rope Hanger on the top of both side Fence.

[step 4]

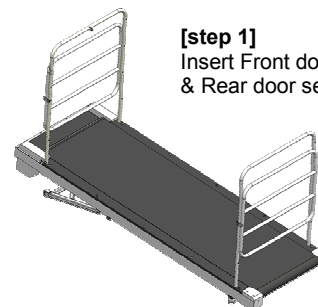

To insert the hinge(female) of the Rear door into the hinge(male) of Right Fence.

PR730

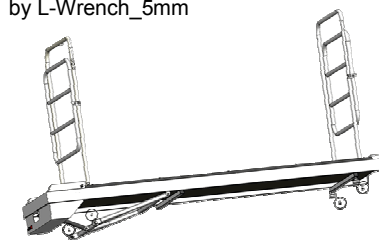

[step 1]

Insert Front door set & Rear door set

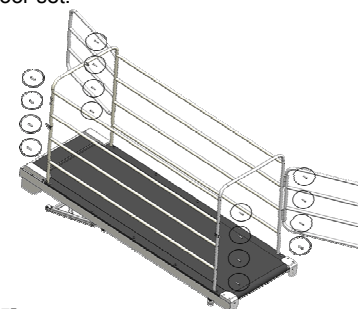

[step 2]

Fasten screw (M8x25L) by L-Wrench_5mm

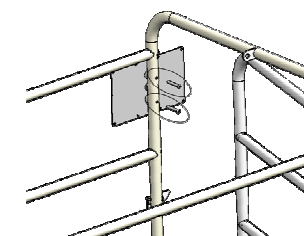

[step 3]

Use L-wrench_5mm and screw (M8x40L) to fasten the Side Fence Pipe between Front & Rear door set.

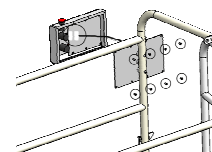

[step 4]

Use L-wrench_4mm and screw (M6x40L) to fasten the end board of Control Console on the left side of front door.

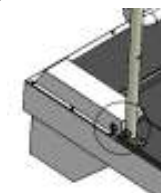

[step 5]

Use Phillips screw (M4x8L) to fasten the Control Console on the end board (insert the 6Pin connector first).

[step 6]

Plug the control cable connector.

※Please make sure all the pipes are fixed completely after assembly.

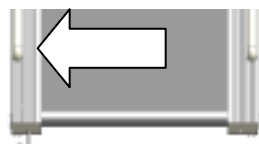

Start to use PetRun

1. Plug the power cord into a correct voltage outlet .
