Monitored drip tray	■
Maintenance status display	■

Specifications

Water tank capacity	1.1 L
Coffee grounds container (servings)	approx. 9
Bean container with aroma cover	125 g
Cable length	1.1 m
Voltage	230 V~, 50/60 Hz
Power	1,450 W
Energy consumption	4 Wh
Energy consumption with E.S.M.®	4 Wh
Stand-by power	0 W
Weight	8.8 kg
Dimensions (W x H x D)	23 x 32.3 x 44.5 cm
Colour	Black
Tests Type 681	CB, Spring
Article Number ENA micro 1	13594
Article Number ENA micro easy	13738

JURA ENA micro 1

Simply Espresso

The ultra-compact one-cup coffee machine is designed not only to make the perfect espresso, but also to be as small as possible.

It can be programmed with three user-defined cup sizes, each in two aroma levels. The aroma preservation cover keeps the coffee beans fresh, the Aroma+ grinder gently grinds them, and the micro brewing unit extracts the coffee under the ideal conditions. The intelligent preheating feature ensures that the coffee, crowned by a feather-light crema, is always at the perfect temperature.

Simple Operation

Operation is so straightforward that it can be summed up in two words: Press – enjoy. The easy-to-understand symbols and ergonomically arranged buttons give you exactly what you want without any fuss. Select the strength, then press the cup size button.

Additional ground coffee option

There is a special aperture for ground coffee where you can drop coffee powder if you just want to brew one cup, like decaffeinated coffee or some special blends.

Silicone sealed bean container

The special silicone seal on the bean cover keeps the coffee bean container air-tight. The coffee beans are kept fresh for a longer time. This helps to intensify the aroma in the cup.

The perfect Espresso

The Aroma+ grinder delivers homogeneous grinding result for maximum flavour and the new micro brewing unit guarantees optimum extraction with 8 – 10 g ground coffee. Thanks to the intelligent pre-heating and the pre-brew aroma system the Espresso is always at the perfect temperature with a velvety crema on top.

Kind to the environment

The automatic energy-saving mode, programmed switch-off time and patented Zero-Energy Switch ensure high energy efficiency.

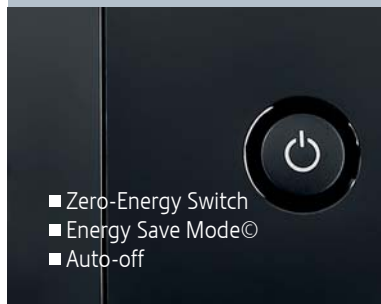

Extremely simple operation

Ground coffee for additional blends

Perfect Espresso

- Zero-Energy Switch
- Energy Save Mode
- Auto-off

Kind to the environment
