1. Safety Precautions

- 1. Do not use this device in extremely thermal, cold, dusty or watery circumstances
- 2. To prevent surface abrade, batteries peeling off, or any other damage, do not collide this device with any hard objects.
- 3. To prevent damage caused by static electricity, do not use this device in extremely dry circumstances
- 4. To prevent system errors or malfunction, do not disconnect the device abruptly, when formatting this device, or uploading and downloading data/music.
- 5. Do not switch from On to Off without first shutting down the device from the PLAY button. There is possibility that data may be lost.
- 6. The manufacturer is not responsible for any loss or damage caused by missing documents etc
- 7. To charge the device, the ON-OFF switch needs to be ON. When it is OFF the device will not charge.

2. Package Contents

- 1. Melaudio 18 S2 MP4 Player
- 2. Stereo earphones
- 3. USB extension cable
- 4. User's Manual / warranty card

3. Introduction

Function Keys:

 Previous: "◄◄" Short press: Move to previous song. Long press: fast reverse.

2. Play: "▶ "Performs Power ON/OFF /Play/Pause/Stop.

Keep pressing "▶" to power on or power off the MP4 Player.
 You can then press "▶" for play or pause.

3. Next: "►►" Short press: Move to next song,

Long press: fast forward.

- Mode: "M" key performs different operations by continuous pressing or by pressing once.
 By continuous pressing you return to the main menu from any submenu
 By pressing once you confirm your choice and/or you are transferred to the next submenu
- 5. Vol: press this button and use the "◀◀" and "▶▶" to increase volume or decrease volume.
- 6. Power ON/OFF: Use this to switch on/off your device
- 7. Headphone: Headphone interface
- 8. **USB:** Interface with computer

It is preferable to use the **Play**: "▶" button for powering ON/OFF your device. The ON/OFF switch on the side of Melaudio 18 S2 works more like a reset button. If you switch your device using this switch you may loose your settings (e.g radio stations e.t.c).

4. Main Menu

Press the Play button "▶" continuously to switch on the MP4 player. If you are already inside a certain menu (e.g. Music or FM) press "**M**" continuously in order to view the main menu .

4.1 Music

Use " \blacktriangleleft " and " \triangleright \triangleright " to navigate through the main menu. Select Music and press "M" to enter.

For choosing music:

"◀◀" Short press: choose the previous item of music. Long press: fast reverse

" $\blacktriangleright \blacktriangleright$ " Short press: choose the next item of music. Long press: fast forward

Volume control: shortly press "VOL", press this button and use the "◀◀" and "▶▶" to increase volume or decrease volume.

<u>Note:</u>

In case you cannot choose and play the songs of a specific folder select normal repeat mode and

restart your device using the "▶" button.

Music Submenu

If a song is playing Press ">" to pause/stop playing the song. On stop/pause mode click "M" to enter the music submenu:

Local Folder	Choose the folder (if you have previously created folders) from which you want the device to play songs
Delete file	Choose "Delete file" in order to delete a song.
Delete All	Choose "Delete all" in order to delete all songs
Exit	Exit the Music submenu

Lyrics

You can read the lyrics of the song that you hear. To do that you must store the song and the ".lrc" file (file containing the lyrics of the song) both in the same folder.

If lyrics are available for the song currently playing, an icon will appear to the right bottom corner of your screen .

While playing, you must keep "M" pressed for the lyrics to appear. The characters in the lyrics file must not exceed 500.

4.2 Movie

Use " \blacktriangleleft and " \triangleright \triangleright " to navigate through the main menu. Select Movie and press "**M**" to enter .

Local Folder Choose the folder (if you have previously created folders) from which you want the device to play so	
Delete Choose "Delete" in order to delete a movie.	
Delete All Choose "Delete all" in order to delete all movies	
Repeat	Same as in the previous menu
Exit	Exit the Movie submenu

Note:

This device can playback AMV files format. You have to convert your video files to ".amv" file type.

You can use the software in <u>www.crypto.gr</u> for this purpose..

4.3 Record

Use "◀◀" and "▶▶" to navigate through the main menu. Select Record and press "M" to enter.

Local Folder		The recorded file will be saved in the Root folder. If you want to choose a different folder, go
		to Local Folder and select the folder that you want your recording to be saved in.
