## **Taking Care of your Palm™**

1. Touch screen only with stylus or a plastic tipped item.
2. Do not expose to moisture
3. Do not expose to extreme heat or cold.  
This includes placing it in a window near direct sunlight or placing it in a car for extended periods.
4. To clean your screen, use a dry, lint-free cloth and gently pat the dust away.
5. Never touch the screen with your hand.

# Common Tasks

## Power on/off the Palm™

Press (don't hold) the **Power** button on the bottom right side

## Navigation

Press **Home** icon  to go to home screen or exit an application. Press the 5-way Navigator up/down or left/right to select applications or tap with the stylus on the application icon.

## Calculator

Tap the **Calculator** icon on the homepage. It opens a basic calculator.

## Recharging the Battery

- Plug the Cradle Adapter into a standard wall outlet.
- Place the Palm™ into the Cradle and allow to charge.
- A green light on the top of the Palm™ will light up to indicate charging is in progress.

\* charge the battery in cradle 15-30 minutes each day for optimum performance. After approx. 5 days without charging, all data will be lost.

## Adjust Screen Brightness

Hold **Power**  to bring up Brightness Options  
(or Function  + Tab  )

## Reorienting the Touch Screen

Go to **Prefs; Digitizer**. Touch stylus to indicate points on the screen.

## Beaming a File

- Locate the record, file or category to beam.
- Press Function  + Menu 
- Tap **Beam [Category/ Photo/Record]**
- Point IR port toward other Palm's IR port and hold at approx. arms length during beaming

## Help File

For a tour of basic Palm™ techniques click on the Quick tour icon and follow through the brief steps.

## Setting up WebMail

The Palm can support up to 8 email accounts.

To configure an account with WebMail:

1. Tap VersaMail on your **home screen**.
2. Press Function + Menu
3. Tap Accounts, Account Setup
4. Tap New, enter a name (like **UT**)
5. Select Mail Service as **Other**
6. Select Protocol as **IMAP**, tap Next

7. Enter NetID and password, tap Next
8. Set the server settings:  
**Email:** NetID@utk.edu  
**Incoming Mail Server:** imap.utk.edu  
**Outgoing Mail Server:** smtp.utk.edu
9. Tap Next, Tap Done, then Tap Ok

You are now able to access WebMail.

\* these steps used for yahoo, hotmail, etc. setup.

## **Configuring MS Outlook**

To allow sync with WebMail, on your PC, set Outlook as the default email handler:

1. Go to the Control Panel. Click Internet options.
2. Go to Programs tab.
3. Select Outlook as the default e-mail program and Click Ok.

## **Steps to create a PDF**

1. Create a PDF file on computer.
2. Then send it to Palm™. (refer to p.10 on HotSync®)
3. To open PDF's one must have Adobe Reader installed on the Palm™.

To install go to:

[http://www.adobe.com/products/acrobat/  
acrrsystemreqs.html/](http://www.adobe.com/products/acrobat/acrrsystemreqs.html/)

# Nomad Wireless Access

To sync email with your UT Account, you will need to access the internet. UT's wireless network "nomad" makes it simple.

1. Tap the **WiFi Setup** icon from **Home Screen**
2. Tap **Next**

3. Select **nomad** and tap **Next**  
*or* If nomad is not detected, tap **other** and enter **nomad** and tap **Ok**.

4. Tap **Done**.

\* In Web Browser, press Menu key 

to view WiFi signal strength 

\* For more information, go to

<http://wireless.utk.edu> and

<http://oit.utk.edu/helpdesk/section/wireless>

# System Resets

To perform the three types of system resets, you must press the **Reset** button on the back of the Palm using the reset tool inside the stylus.

## Soft Reset

Press the reset button with reset tool in the stylus. Data should be preserved.

## System (Warm) Reset

Press the reset button and hold the **Up** navigation button until the Palm is on the screen. This reset can erase data and is done when the Palm freezes.

## Hard Reset\*

Press the reset button and hold the **Power** button. Hard Reset erases everything on the Palm

\* **WARNING:** Resets can erase your Palm entirely. Check your user manual for more information before conducting a reset.

## HotSync® to Computer

1. Connect the HotSync® cradle to the PC's USB port and plug the adapter to the wall.
2. Install Palm™ Desktop Software from the CD.
3. Place the handheld in the cradle.
4. Press the button on the cradle to begin the HotSync® process.

5. When the HotSync® process is complete, data should be on both the handheld and PC. In the event of the same file being edited in both locations, wireless HotSync® will ask which version to retain.

## Wireless network HotSync

1. Press Home 
2. Tap the HotSync icon.
3. Tap Network, and then tap the HotSync icon.

- \* To avoid data loss, synchronize often.
- \* Only synchronize with one computer to prevent information loss or data corruption.

## To Sync using iSync on OS X:

Install at least:

iCal 1.5,

iSync Palm™ Conduit 1.2, and

Palm™ Desktop 4.0 (w/ HotSync 3.0)

1. Open iSync; Under “Devices” select “Enable Palm OS Devices.”
2. Open HotSync Manager.
3. Choose HotSync, and Conduit Settings.
4. Double-click the iSync Conduit and select “Enable iSync for this Palm™ device.”
5. Click OK.
6. The Palm™ will now appear in iSync where the preferences can be set.
7. Sync as normal with HotSync outlined previously.

\* iSync connects to Address Book and iCal instead of Outlook as on the PC. Address Book, Date Book, and To Do information will still sync with Palm™ Desktop.

Palm™ does not support multiple Calendars from iCal *might* prompt to choose between data on Palm™ or the computer.

# Data Input Options

## Use thumb-size keyboard

### To type capital letters

- Press the Caps Key  or
- Press and hold a character key
- \* Press Caps  twice to initiate Caps lock. To unlock, press the Caps key once.
