Caution

Read before using this product

- Do not sit on arms or subject arms to heavy loads. Doing so may result in damage or warping.
- Regularly check parts for looseness, and tighten as necessary. Using this chair with loose parts may result in damage or warping, or in injury.

- 1** First, spread out a tarp or cloth on the floor of the area where you will be assembling this product. Use the Cross head end of the ④ Hexagonal Key to remove the locking screws from the chair frame.

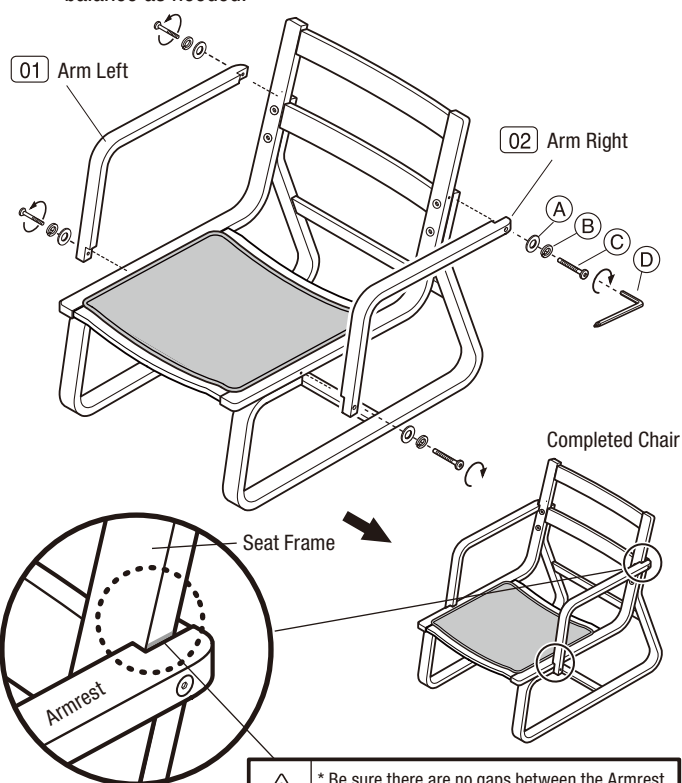

Caution

• Save the locking screws in a safe location. You will need the locking screws when connecting chairs or using the chair once again in the future without armrests.

- 2** Use the ④ Hexagonal Key to loosely connect 01 Arm Left and 02 Arm Right to the chair frame, using ③ Screw, ② Spring Washer, and ① Washer in the holes from which you removed the locking screws. Next, tighten down all fittings parts, adjusting tightness and balance as needed.

Caution

- * Be sure there are no gaps between the Armrest and the Seat Frame.
- * Using this product with gaps between Armrest and Seat Frame may result in damage or injury.
