Keys Explained

Key	Function
Power Key	Hold to switch audio profiles, or to turn on or off Airplane mode, or to power off. Press to switch your phone to Sleep mode. Press to wake up your phone.
Home Key	Press to return to the Home Screen from any application or screen.
Menu Key	Press to get the options for the current screen.
Back Key	Press to go to the previous screen.
Volume Keys	Press or hold to turn the volume up or down

Switching Your Phone On/Off

Make sure the SIM card is in your device and the battery is charged.

Hold **Power Key** to switch on your phone.

To switch it off, hold **Power Key** to get the phone

options. Select **Power off**, and then tap **OK.**

Setting Up Your Phone for the First Time

When you first power on your phone after you purchase it
or

reset it to factory settings (see chapter Sorting out Your
Phone Settings –Restore the factory Settings: Reset to
Factory

Settings), you

need to do some settings before using it.

Tap **Menu Key** in the standby mode, then select

SETTINGS > Language & input > Language to change

the language you want to use, if needed.

Switching to Sleep Mode

To save battery power, Sleep Mode suspends your device to

a low-power-consumption state while the display is off. Your

device also goes into Sleep Mode by itself when the display

is automatically turned off after a certain period of time.

You can start sleep mode by the following method.

Press **Power Key** to switch to Sleep Mode.

Waking Up Your Phone

1. Press **Power Key** to activate your screen display.

2. Tap the icon, drag to the right.

NOTE: If you have set an unlock pattern, PIN or password

for your phone (see chapter Sorting out Your Phone

Settings – Security Settings) you'll need to draw the pattern

or enter the PIN/password to unlock your screen.

Touch Control

You can use finger gestures to control your phone. The

controls on your touch-screen change dynamically

depending on the tasks you're performing.

1. Tap the buttons, icons, or applications to select items or to open applications.

2. Flick the screen to scroll up, down, left or right.

3. Point, drag and drop to move particular items across the

screen.

4. Double-tap the screen to zoom in/out an image.

NOTE: You can view the phone screen in portrait or

landscape orientation simply by holding it upright or turning

it on its side. Not all screens are viewable in landscape.

Home Screen

In the Home screen, besides the shortcut icon is
displayed,you can also set your own wallpaper, add the
widgets or application shortcuts you need, or remove them
as you like.

Extended Home Screen

The Home Screen extends beyond the screen width, giving
you loads more space to add more stuff. Simply slide your
finger to the left or right.

Choosing Your Wallpaper

1. Press **Home Key** to return to the Home Screen.

2. Tap **Menu Key** and select **WALLPAPERS**.

3. Choose the image or animation you want to use as

   the wallpaper. Some cropping may be needed for

   Gallery images.

4. Tap **Set wallpaper.**

Adding Items to Your Home Screen

1. Press **Home Key > tap** to enter the Application

   Program Interface

2. In the list of applications, touch and hold the icon until the main screen appears, move the application icon to the idle position, release the finger.

Removing Items from Your Home Screen

1. Press **Home Key** to return to the Home Screen.

2. Tap and hold the item you want to delete until the

   remove icon appears on the top of the screen.

3. Drag the item to the remove icon and release your finger when the item turns red.

Status and Notification Icons

you simple icons. Here's what they mean.

	USB connected		Missed call
	Airplane mode		Signal strength
	Battery charge		New message

	Meeting mode		Wi-Fi network
	Alarm set		Earphone insert
	Silent mode		Signal searching
	Bluetooth icon		USB debugging connected
	Data Conn off		New Wi-Fi network detected

Using the Notification Panel

Flick the status bar downwards from across the top of the
screen to open the Notification Panel, where you can see
your calendar events, new Messages and so on. Tap
to open the shortcuts panel from notification panel. To
hide the panel, tap on the lower edge of the panel, drag
up.

Open Recently-Used Applications

1. Hold **Home Key** from any screen. The phone will display
   the applications you used recently.
2. Tap the application you want to open.

Making Calls

There are many ways to make a call with your phone. And they're all easy to do.

Calling from the Phone

1. Press **Home key >** tap ![icon] **> Phone** or tap ![icon] on the Home Screen.
2. Enter the phone number using the on-screen keypad.

   Tap ⊗ to delete wrong digits.
3. Tap the dial icon

Calling from Your Contacts

1. Press **Home key >** tap**> Contacts.**
2. Slide your finger to scroll the contacts list and tap the contact name you want to call, when the contact details appear, click on the number; choose the SIM card to dial.

You can search for a contact by tapping ![icon] on the

screen.

Calling from Your Call Log

1. If you have opened the dialer, touch the call log tab to
   open the call records, respectively touch all, dialed,
   received, missed call button to display a list of the
   corresponding call records.
2. Tap dial icon on the right side of the current record.

Calling from a Text Message

If a text message contains a phone number that you want
to call, you can make the call while viewing the text
message.

1. Press **Home key >** tap **▨** **> Messaging.**
2. Tap the conversation and then find the message that
   contains the phone number you need.
3. Tap the message, the phone will list the options.

Receiving Calls

Answering a Call

Tap the 🔘 icon, drag to right to answer the call.

Rejecting a Call

Tap the ☎ icon, drag to left to reject the call.

Muting a Call

During a call, you can mute your microphone so that the person you are speaking to cannot hear you, but you can still hear them.

Tap to turn your microphone off. To turn your microphone back on, tap .

Turning the Speakerphone On/Off

Tap 🔊 during a call to turn the speakerphone on. Tap 🔊 again to turn off the speakerphone.

Ending a Call

Tap End to finish a call.

Contacts

You can add contacts on your phone and synchronize them with the contacts in your Google account or other accounts that support contact syncing.

To see your contacts, Press **Home key >** tap ▨ **> Contacts.**

Creating a Contact

1. Tap 🔲 from the Contacts Screen.

2. Choose the storage location to save the contact.

3. Enter the contact name, phone numbers, and other information, and then save it.

Searching for a Contact

1. Tap 🔍 on the Contacts Screen.

2. Input the contact name you want to search for.

The contacts matched will be listed.

Messaging

Your SMS (text message) and MMS (multimedia messaging service) are combined into one menu in **Home Key > tap** ![icon] **> Messaging.**

Sending a Message

1. Press **Home key >** tap ![icon] **> Messaging.**

2. Tap to create new message.

3. Enter the recipient's number or name. As you type, matching contacts will appear. Tap a suggested contact to add as a recipient. You can also tap to select recipients from the People.

4. Tap **Type message** and type your message.

Tap **Menu Key** to insert commom phrases or contacts.

If you are sending an MMS, tap **Menu Key** to add a subject, or tap to attach pictures, videos, audio, or slideshow.

5. Tap ![send icon] to send your message.

NOTE: Add an attachment to text message and it will be

converted into an MMS automatically. Likewise if you remove all attachments and the subject from an MMS, it'll automatically become a text message.

Message Settings

The phone's message settings are pre-configured for you to use immediately. To change them, tap **Menu Key > Settings** from the

Messaging Screen.

NOTE: From SMS/MMS settings screen tap **Menu Key >**

Restore default settings to change the message settings back to the original.

Touch Input Settings

Choose the touch input settings by tapping **> Settings > Language & input** from Home Screen.

In the **KEYBOARD & INPUT METHODS** section, you can choose the settings that you need.

Getting Connected to the Internet

Your phone's impressive networking capabilities allow you to access the Internet or your corporate network with ease.

You can use default connection settings to connect to the Internet via your mobile network, or Wi-Fi.

The network connection can be enabled /disabled manually.

ust press **Home key >** tap ⬛ **> Settings > Network Management > Choose a network to connect prior.**

Adding a New Network Connection

To get connected via your mobile network you need a data plan with your service provider. Also if the networks settings are not pre-configured on your phone, please contact your provider to get the necessary information.

You can view settings by pressing **Home key >** tap ⬛ **>**

Settings > More > Mobile networks > Access Point Names.

Turning On Wi-Fi

Wi-Fi provides wireless Internet access over distances of up to about 300 feet.

1. Press **Home key >** tap ▦ **> Settings.**

2. Click OFF next to the Wi-Fi menu to turn it on,

   click ON you can turn off the Wi-Fi function.

Connecting to a Wi-Fi Network

1. Press **Home key >** tap ▦ **> Settings > Wi-Fi.**

2. When the Wi-Fi is on, the Wi-Fi access points, or "hotspots", that your phone has detected are displayed with their names and security settings.

3. Tap an access point to connect to it.

NOTE: If security features are implemented, you'll need to enter a password.

Checking the Wi-Fi Network Status

You can check the Wi-Fi network by looking at the 📶 icon in the status bar.

Tethering & portable hotspot

Share your phone's data connection via USB or as a portable Wi-Fi hotspot.

Enabling USB tethering

TIPS: The PC accesses the Internet via the phone's mobile network. Therefore, set up the networks connection correctly before you try to use the phone as a modem.

Plug the USB cable into your phone and tick the **USB tethering** check box.

Disabling USB tethering

Drop the status bar, touch USB connected and clear the **USB tethering** check box.

Enabling the Wi-Fi Hotspot

You can use the phone as a portable WLAN router, to share your phone's internet connection with one or more PC or other devices.

NOTE:

When the portable Wi-Fi hotspot function is enabled, you can't use your phone's applications to access the internet via its Wi-Fi connection.

You can configure the Wi-Fi hotspot as follows:

1. Press **Home Key >** tap **> Settings > More > Tethering & portable hotspot,** tick the Portable Wi-Fi hotspot check box ☐ to turn it on.

2. Tap **Wi-Fi hotspot** to set up & manage portable Wi-Fi hotspot. Now you can find the hotspot on other devices and connect to it.

Disabling the Wi-Fi Hotspot

ress **Home Key >** tap **Menu Key > SETTINGS > More > Tethering & portable hotspot** and click ☑ next to the Wi-Fi hotspot to turn it off.

Browsing the Internet

You can use your phone to get on the Internet via a network or Wi-Fi connection.

Press **Home Key >** tap **> Browser.**

There are different ways to open web pages:

Tap the address bar to enter the website you want to browse. Then tap on the touch keyboard.

Tap **Menu Key > Bookmarks/History** and select a bookmark or history to open.

Browsing Options

When you browse the Web, you can also do the following:

Press **Menu Key > Exit** to **exit.**

Press **Menu Key > Bookmarks/History** and select a bookmark or history to open.

Press **Menu Key > Settings** to configure browser settings.

Using Bookmarks

If you know the Web address, you can manually add bookmarks. To bookmark a web page, open it and tap **Menu Key > Save to bookmarks.** Give the bookmark a name and save it.

Editing a Bookmark

1. Open a Browser window.

2. Tap **Menu Key > Bookmarks**

3. Select an item you want to edit and hold on it until the shortcut menu pops up.

4. Select **Edit bookmark.**

5. Edit the Label or Address, and then tap **OK** to save it.

Deleting a Bookmark

1. Open a Browser window.

2. Tap **Menu Key > Bookmarks.**

3. Select an item you want to delete and hold on it until the Shortcut menu pops up.

4. Select **Delete bookmark** and tap **OK** to confirm.

Changing Browser Settings

Tap **Menu Key > Settings** from a browser window to change browser settings.

Bluetooth

Bluetooth is a short-range wireless communication technology. Phones or other devices with Bluetooth capabilities can exchange information wirelessly within a distance of about 10 meters. The Bluetooth devices must be paired before the communication is performed.

1. Press **Home Key >** tap **> Settings.**

2. Click next to the Bluetooth menu to turn it

on, When Bluetooth is on, the ⚡ icon will appear in the status bar.

3. Tap **Bluetooth.** Your phone will show all visible Bluetooth devices in range.

4. Tap the device you want to pair with and operate according to the message prompt. When both devices to be paired accept the connection, the pairing is completed.

TIPS: Tap your device name to make your phone discoverable if other devices try to pair with your phone.

Taking Pictures with Your Camera

Your phone has camera function. Open it by pressing

Home Key > tap ▦ **> Camera.**

Tap ◉ to take a picture. To view it, just tap the picture in the right corner of the screen.

Listening to Your FM Radio

With the FM Radio, you can search for radio channels, listen to them, and save them on your phone. Note that the quality of the radio broadcast depends on the coverage of

the radio station in your area. The wired headset works as n antenna, so always connect the headset when using the radio.

To tune in, plug your headset into your phone. Press **Home key >** tap ![icon] **> FM Radio.**

Playing Your Music

You can play digital audio files from your phone's memory card in **Music.** Before playing music, you need to copy music files to memory card location.

1. Press **Home Key >** tap ![icon] **> Music** to open the Music Screen.

2. Click the Music category label **>** music files to start playing.

3. Adjust the volume with **Volume Keys.**

Opening Your Gallery

Press **Home Key >** tap ![icon] **> Gallery.** You can use **Gallery** to view pictures. You can also do some basic editing of your pictures, such as setting them as wallpaper or contact photo, and sharing with friends.

Making Voice Memos

Sound Recorder enables you to record your voice memos.

1. Press **Home Key >** tap [ ] **> Sound Recorder.**

2. Tap (●) to start recording.

3. Tap (■) to stop recording.

4. Tap (≣) to open the recording file list.

5. Save the voice recording after stop, or tap **Cancel** to delete the recording.

Sorting out Your Phone Settings

Setting Date and Time

1. Press **Home key >** tap [ ] **> Settings > Date & time**

2. Tick the **Automatic Date & time** check box [ ] to turn it on, or tick the check box [✓] to turn it off if you want to set the time and date by yourself.

3. Set date, time and change the other options.

Display Settings

Press **Home key >** tap ▦ **> Settings > Display,** you can adjust the display settings as you like:

Brightness: Adjust brightness of the screen.

Wallpaper: Set the wallpaper of the phone.

Auto-rotate screen: Rotate the screen display as you rotate the phone.

Sleep: Set the delay for the screen to automatically turn off.

Audio Profiles Settings

By pressing **Home Key >** tap ▦ **> Settings > Audio profiles.** When you choose the General mode, you can adjust the sound settings, such as ringtones, volume and vibrate.

Language Settings

You can change the language of your phone system in two simple steps.

1. Press **Home key >** tap**> Settings > Language & input > Language.**

2. Select a language from the list given.

Disabling Data Services

Press Home **key >** tap **> Settings > Data usage,**

then click to turn it off.

Switching Networks

1. Press **Home key>** tap **> Settings > More > Mobile networks > Network operators.**

2. Tap **Search Networks** to register manually, or tap **Choose automatically.**

Setting Access Point Names

To connect to the Internet you can use the default Access Point Names (APN). And if you want to add a new APN, please contact the service provider to find out more.

Press **Home key>** tap **> Settings > More > Mobile networks > Access Point Names.**

Security Settings

Here's how to protect your phone and SIM card from unauthorized use.

Protecting Your Phone with a Pattern

Creating Your Screen Unlock Pattern

1. Press **Home key >** tap ![icon] **> Settings > Security > Screen lock > Pattern.**

2. Drag your finger to connect at least four dots, draw the pattern.

3. Touch **Continue.**

4. Redraw your pattern to confirm.

Unlocking the Screen with Your Pattern

1. Press **Power Key** to wake up the screen.

2. Draw the pattern you set to unlock the screen.

If you make a mistake, your phone will ask you to try again.

Protecting Your Phone with a PIN or Password

1. Press **Home key >** tap ⬛ **> Settings > Security > Screen lock.**

2. Tap **PIN** or **Password.**

3. According to the instruction to complete your PIN or password settings.

Unlocking the Screen with Your PIN or Password

1. Press **Power Key** to wake up the phone.

2. Enter the PIN or password you set.

Disabling Screen Unlock Security

If you have created an unlock pattern, PIN or password, you can disable it.

1. Press **Home key >** tap ⬛ **> Settings > Security > Screen lock.**

2. Draw the screen unlock pattern or enter your PIN/ password you have created if required.

3. Tap **None.**

Protecting Your SIM Card with a PIN

Every SIM card comes with a PIN. The initial PIN is provided by your mobile phone carrier. It's best to lock your SIM card as soon as you can.

1. Press **Home key >** tap ▦ **> Settings > Security > Set up SIM card lock.**

2. Tick the **Lock SIM card** check box.

3. Enter the PIN you've been given and tap **OK.**

TIPS: If you enter the wrong SIM PIN more times than allowed, your SIM card will be locked and you cannot access the mobile phone network. Contact your operator for a PIN Unlock Key (PUK) to restore the SIM card.

Changing Your SIM PIN

You can change the PIN you've been given to one easier for you to remember and harder for others to guess.

1. Press **Home key >** tap ▦ **> Settings > Security > Set up SIM card lock.**

2. Make sure you already tick the **Lock SIM card** check box.

3. Tap **Change SIM PIN.**

Managing Your Device Memory

Press **Home Key >** tap **>** **Settings > Storage.**

You can view the space information of the SD card and the phone storage.

Unmount SD card: You can unmount the SD card to safely remove it.

Erase SD card: Erase all data on the SD card.

Privacy: Reset to Factory Settings

Press **Home key >** tap **>** **Settings > Backup & reset > Factory data reset > Reset phone > Erase everything.**

WARNING: All your personal information and downloaded applications on your phone will be erased after the resetting.

Applications

Press **Home Key >** tap **>** **Settings > Apps.**

Installing an Application

You can install a non-Marketing application if you have allowed the installation of it. Make sure that you select an application developed for your device and processor type before installing it.

1. Copy the application file to the SD card and install the card on your phone.

2. Press **Home key >** tap **> File Manager,** and open the folder where the application file is.

3. Tap the file to start installation.

4. Read the installation instructions that come with the application and follow it to complete the setup.

NOTE: please take your handset as the standard.

Removing an Application

1. Press **Home key >** tap **> Settings > Apps.**

2. Select the application you want to delete.

3. Tap **Uninstall** and **OK** to confirm.

Moving an Application

You can move the applications downloaded or installed on your phone to the memory card when the phone memory is full. You can also move applications to your phone if the memory card is getting full.

NOTE: Not all applications can be move to your phone or memory card.

1. Press **Home key >** tap ▦ **> Settings > Apps.**

2. Click the application you want to move on the **DOWNLOADED** tab.

Managing Other Settings

Text-to-speech Output

You can set the text-to-speech and voice recognition

options by pressing **Home Key >** tap ▦ **> Settings >Language & input > Text-to-speech output.**

Accessibility

You can configure accessibility options for accessibility-related applications by pressing **Home Key >**

tap 🟨 > **Settings** > **Accessibility.**

Other Applications

Clock

Press **Home key >** tap 🟨 > **Clock,** you can view the clock and set the alarm.

Tap the top of the screen icon can be switched to the countdown and stopwatch functions from the clock interface.

Calculator

You can use the phone directly perform simple mathematical calculations.

1. Press **Home Key >** Tap 🟨 > **Calculator.**

2. Click the button corresponding with the calculator display, perform basic arithmetic.

TIPS: Tap **Menu Key > Advanced panel** to use scientific calculation.
