get ready

Inserting SIM card and battery.

1. Look at the back of your Xda Atom. Gently press down and slide out the rear cover in the direction shown below.

2. Hook and lift the battery upward as shown below in order to remove it.

3. Unlock the SIM card holder by pushing it to the right and lifting it up. Insert the SIM card with the metallic part facing down and the clipped corner in the right direction.

4. Gently press down the SIM card holder and lock it by pushing upward as shown below. Make sure the holder does not bounce back upwards. Reveres Step 1 and 2 to insert the battery and rear cover back.

Charging the battery
The battery is not fully charged when delivered.

● **AC Adapter:** Connect the battery charger to a suitable main power socket and the charger plug into the connector of your Xda Atom. Note on the orientation when plug in.

● **USB Cable:** Connect your Xda Atom to your PC's USB port with the USB cable supplied in your package as shown above.

power on

Power on your Xda Atom by pressing the power button on the top of the phone. A welcome screen will appear and prompt you to perform the touch screen introduction and calibration test.

Enter your PIN number for your SIM card if prompt. You can enable/disable or change the PIN of the SIM card on your Xda Atom.

Please note
If you enter the wrong PIN three times, the SIM card will be blocked automatically. To unblock your SIM, contact your service provider.

To copy SIM Contacts to your phone, tap **Start > Programs > SIM contacts > Copy now**

synchronization

Your Xda Atom is designed to complement your PC as a PDA, so that you can synchronize information between a PC or Microsoft® Exchange Server™ and your Xda Atom.

● First, install ActiveSync 4.1 or later on the PC
● Choose a connection type between your Xda Atom and your PC: USB cable, Bluetooth, or infrared connection
● Select the type of information (Contacts, Calendar, Task, Note, Outlook Email) you wish to synchronize
● Start synchronizing information

connectivity

Your Xda Atom has powerful network functions that enable you to connect to the Internet or Intranet by using a number of different, available methods: GPRS, Bluetooth, Wireless LAN, Network card, and Terminal Server Client.

play & go

If your friends happen to see your cool new device, they might ask you: "What's so special about your phone?" Well, here are the answers.

● **Basic calling**
Press [icon] to go to Phone Dialer screen, your Xda Atom can make/receive calls.

● **Messaging**
Your Xda Atom supports all major types of messaging services: SMS, MMS, Chat, Voice Mail, E-mail, and MSN Services, enabling you to exploit the full range of communication possibilities.

● **Pictures & Videos**
The built-in digital camera allows you to snap photos and take video clips with accompanying audio. You can store them in your phone's Album and send them via MMS or E-mail.

● **O₂ MediaPlus**
This user-friendly interface allows you to easily manage media files and gives easy access to different players such as FM Radio and Windows Media Player.

● **Surfing**
You can access the Internet using Internet Explorer. Moreover, the O₂ Connect program links you to the O₂ homepage (**seeo2.com**) and provides you with the latest software updates.

Please contact the service provider where you bought your Xda Atom or our technical support team to help you with queries relating to how to use your Xda Atom.

FAQs

Why does my phone not turn on when I press the power button?
Either you didn't press the key long enough, or the phone has shut down because the battery power level is too low to make calls. Recharge the battery fully.

How do I suspend the screen display or wake up the phone?
Press the power button to turn off the phone. If the screen display is off, press the power button to wake up your phone.

My phone displays 'Insert SIM', what does this mean?
You must insert the SIM card before you can use the phone. If it is already installed, remove and clean the blank area with a dry cloth, then insert again.

My phone displays 'INVALID or missing SIM card', what does this mean?
The phone is SIM-locked and will not accept the inserted SIM card. Insert the correct SIM card or contact your network operator.

My phone displays 'EMERGENCY ONLY', what does this mean?
Your SIM card is not properly installed or configured, or you are out of network range.

My phone displays 'NO NETWORK', what does this mean?
You're outside network range or there is no clear path to the transmitter. If you're inside a building, try moving towards a window.

Some calls are not processed. What is wrong?
A call bar has been set to restrict phone usage. Check the call barring status and cancel as necessary.

Someone else is receiving my calls. What is wrong?
The phone has been set to forward your calls to another number. Cancel call forwarding as necessary.

Can I send and receive emails and surf the Mobile Internet on my phone?
Yes. Your phone has WEB capability, which means that you can access the Internet from your phone. For sending and receiving emails, please refer to the user manual or contact O2 Customer Service.

Where can I check why my phone has gone wrong?
Tap **Start** > **Programs > Self Diagnostics** to run diagnostic tests on your system. Otherwise, have your warranty card and phone ready and contact your local dealer.
