- Door Alarm
- LoDecibel™ Quiet Operation
- BioShield™ Anti-Bacterial Seal

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

PANORAMA™ FRENCH DOOR

Wide Open Spaces

Open all three doors and take a step back. The Side by Side style gives you a panoramic view of all your fresh food, while the gallon size bins, slide-out shelves, and OptiBin™ drawers give you plenty of organizational options. Look down below, and the Bottom Freezer offers an extra-large capacity that can even hold a large frozen turkey.

Glide N' Serve™ Drawer

Full width drawer with an OptiBin™ opening allows for easy storage of platters, cans and wines.

Multi-Air Flow Cooling

Vents are located on every shelf for even air distribution and longer lasting food freshness.

Digital Temperature Controls

Ensure precise temperature control in the refrigerator and freezer compartments. Located upfront in the fresh food section, the digital controls are within easy reach when the door is open.

OptiBin™ Crisper

Optimizes humidity, extending life of most fruits and vegetables with the innovative Magic Crisper grid. The crisper lid automatically lifts out of the way when the door is opened.

BioShield™ Anti-Bacterial Seal

Unique feature prevents mold and mildew from building up on the door seal.
