TERMS AND CONDITIONS OF SALE

PRICES

The prices are "suggested retail" and are subject to changes without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. Advanced payment for your order may be requested if the opening of your account has not been completed or if your account has become inactive.

TERMS OF PAYMENT

Net 30 days / F.O.B. Sherbrooke (Quebec), Montreal (Quebec) or Quebec City (Quebec). The invoice will be dated the same ship date and payable 30 days from that date including applicable freight charges. Logiflex remains the owner of the merchandise until the invoice is paid in full.

CUSTOMIZED PRODUCTS (SPECIAL ITEMS)

Price requests for customized products or special items can be submitted via the "Online services" section of our Web site, at www.logiflex.ca. Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

ORDERS

An official purchase order must be issued for all purchases. Your purchase order must contain the following information: your company letterhead, your reference number, the delivery address (with contact name and phone number), the complete product codes, furniture colour(s), quantities, descriptions, retail prices and net prices, project registration number (if applicable), and your approved quotation and technical drawing (for special items). Please note that a quotation cannot serve as a purchase order.

RETURNS

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

MODIFICATIONS AND/OR CANCELLATIONS

You have 24 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may modify or cancel your order during this same 48-hour period. If you would like to modify or cancel your order after this 48-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

LIABILITY

Logiflex's responsibility ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

CLAIMS

Logiflex recommends inspecting the shipment before signing the carrier's delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture as soon as possible. Requests to replace damaged products can be made via the "Online services" section of our Web site, at www.logiflex.ca. Our after-sales service department will examine your request and help you correct the situation as rapidly as possible.

CHANGES

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

TERMS AND CONDITIONS OF SALE

STORAGE AND/OR SHIPPING FEES

If you would like to delay the delivery of an order already in production at Logiflex, weekly storage fees may be charged. The suggested retail prices in this list usually include delivery to your warehouse, for several Quebec regions; however, some conditions may apply. If the minimum amount of your order is \$10,000 net, the order can be shipped directly to your customer. In this case, a 53-foot unloading dock must be available at the time of delivery. This information must first be validated with your Logiflex customer service representative. Direct shipping is subject to additional fees. Any delay experienced by Logiflex carriers during delivery may also incur additional charges.

LIMITED LIFETIME WARRANTY

Logiflex warrants its products to the original purchaser for as long as the original purchaser owns the products. Logiflex guarantees that Millenium and Manhattan products bought new from an authorized Logiflex distributor are free from defects in materials and workmanship for the lifetime of their use. This warranty applies to Millenium and Manhattan products. Only if properly used, repair or replacement of any defect covered by the warranty will be at the discretion of Logiflex. Transportation and labor are not covered by this warranty. By accepting the product to its delivery, the buyer accepts its conditions. The warranty period shall be reduced proportionately if the products are used over a period exceeding the equivalent of a shift 40 hours/week. All replacement parts will be shipped to the original shipping address.

This warranty does not apply to defects or damages resulting from:

- Normal wear and tear occurring with the use of the product;
- Negligence, misuse, abuse or accident;
- Substitution, modification or use of components or materials that have not been authorized by Logiflex;
- Delivery by a freight carrier or handling/installation by a contractor other than Logiflex;
- Natural properties of materials;
- Exposure to sunlight or environments with extreme temperature/humidity conditions;
- Damage caused by a carrier in transit, or delivery/installation contractors.

This warranty does not include:

- Parts and materials supplied by the customer (COM);
- Special finishes applied to Logiflex products;
- The matching of colors, grains or textures of wood due to its natural properties;
- Products used for rental purposes;
- Non-standard Logiflex products;
- Logiflex product not installed or used in accordance with the Logiflex installation guidelines;
- Bulbs and ballasts.

Restrictions:

- Electrical components are guaranteed for 1 year from the date of delivery;
- Seat mechanisms, drawer slides and locks are guaranteed for 5 years from the date of delivery.

ITEMS DELIVERED DISASSEMBLED

Some items are delivered disassembled, such as empty desks, empty returns, bridges, arched tables, D, P or Q tables, lateral tables, end tables, hook tables, corner tables and extended-corner tables.

QUICKSHIP PROGRAM

A wide selection of typicals and components from our Millenium and Manhattan series are parts of our quickship program. The icon above appears beside the codes of items offered through this program in the different sections of this price list.

Conditions

Please add QS- at the beginning of each code number (EX: QS-MA-2072CLAR).

Products are ready to deliver after 10 working days from the receipt of the order and according to our delivery schedules.

Maximum quantity of 20 components. For larger quantity, please consult the customer service.

Logiflex reserves the right of final approval of orders.

No cancellation after the reception of the order.

All prices are in U.S. currency and may be changed without notice.

Quickship program standard

Standard handles used when included: HJAB (Black).

Edge finish: ML, MA, MAR

Tackboard fabrics: Please refer to the Logiflex color chart.

Colors (For horizontal surfaces and/or single color unit):

BC	Brown Cherry	CO	Cognac	LM	Light Maple
NC	Natural Cherry	PC	Coastal Pear	PO	Porto
SW	Smoked Walnut	T	Tan	TO	Tobacco
WK	Whisky	Z	Zebra		

Base colors (For bases and vertical plans only):

B	Jet Black	C	Slate
---	-----------	---	-------

GENERAL INFORMATION

GENERAL FEATURES

HANDLES

Handles are included for all the Manhattan furniture items with fronts (Exception of hutches, for which handles are sold as options). For the other series, handles are included for the majority of furniture items with fronts (Exception of some pedestals and hutches, for which handles are sold as options). The standard handle style, when included, is HJAB (black). Please refer to the accessories section at the end of the current price list to see the different models offered by Logiflex.

GROMMETS

Grommets are included for some items such as D and P tables, lateral, end, corner, extended-corner and arc tables, returns, and reception stations. When grommets are included, the standard style is the ELPF grommet.

LOCKS

LKBL (black) locks are included for some items such as pedestals, lateral file drawers, cabinets, wardrobes, combination units and credenzas. To specify a different type of lock, please refer to the accessories section at the end of this price list to see the different models offered by Logiflex.

PEDESTALS

All drawers are made of black Medium density fiberboard (MDF) with an average thickness of 7/16". Type "D", "E" and "F" pedestals include a black polyvinyl chloride (PVC) extrusion for easy finger grip operation (no handle).

DRAWER FRONTS

A PVC strip 2.5 mm thick is systematically applied along all drawer front edges.

WOOD GRAIN

The wood grain is always vertical on fronts and furniture doors. Surfaces more than 96" are in two parts. Logiflex cannot guarantee that the wood grain will match up on the different parts of a same surface.

HUTCHES

All hutches have a flexible grommet at the bottom and a round grommet at the back of the unit for light fixture wires.

FINISHES

You must specify the desired finish(es) for each item of furniture ordered. Please make your selection(s) from the Logiflex chart.

FABRICS

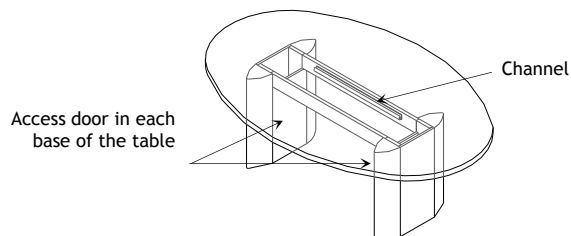

You must specify the fabric when the item so requires. Please make your selection(s) from the Logiflex chart.

LEVELLERS

All furniture items (except bridges) sit on black adjustable levellers, 1" in diameter, allowing for up to 1" adjustment for the purposes of levelling the furniture. The standard finished height for work surfaces is 29".

ACCESS DOORS (AD) FOR CONFERENCE TABLE BASES

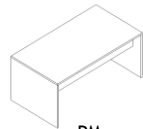

An access door can be added to each conference table base, where permitted by the type of base. If applicable, the access door option (AD) will be offered on the specifications sheet of the conference table in question. This information can be found in the "How to order" section of the conference table specifications pages in this price list.

HOW TO ORDER?

If ordering a tackboard for an existing hutch, please specify the code of the existing hutch. Logiflex can then make the tackboard to the exact dimensions for easy installation of the product.

Example: ML72TB 72" hutch / For existing hutch ML1672HPPG43 / *Choice of fabric*

For tackboards with COM fabrics, here are the number of yards required to manufacture the tackboards:

30" Tackboards	1 yard	66" Tackboards	2 yards
36" Tackboards	1-1/2 yards	72" Tackboards	2-1/2 yards
42" Tackboards	1-1/2 yards	78" Tackboards	2-1/2 yards
48" Tackboards	1-1/2 yards	84" Tackboards	2-1/2 yards
54" Tackboards	2 yards	96" Tackboards	3 yards
60" Tackboards	2 yards		

Notes

Standard fabrics: Please choose from the Logiflex fabric colour chart

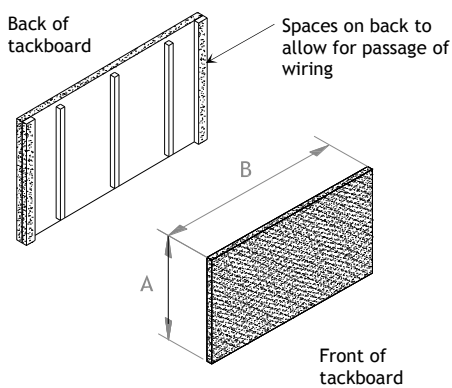

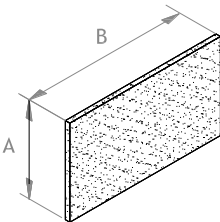

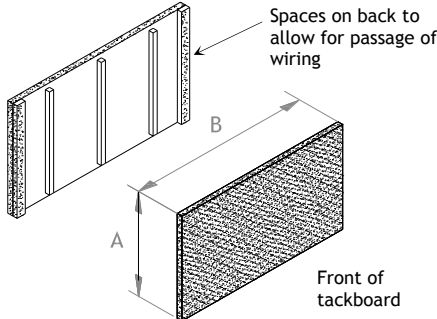

Chair fabrics: Please submit a quotation request by providing the following information: manufacturer name, pattern name/number and color name/number. Prices available upon quotation.

COM fabrics: COM fabrics must be sent directly to your customer service representative **PREPAID**.

(provided by the client) It is very important to indicate the reference number of your purchase order on the package containing your fabric.

Positioning of power/data centres

HOW TO ORDER?

Notes

*Please specify positioning (C, L, R or LR) and orientation (H = Horizontal and V = Vertical) of the power/data centres at the end of the code

Access door(s): To add one or more access doors to the base(s) of a conference table, add the code (AD) and \$197 retail per access door

[illegible]

Diagram illustrating the structure of the MH option code:

```

M _ _ _ ( A B C ) BTR H * MH1SN MH2SN (Orientation) — (Location)
Serie CODE Base type Option power/data Specify with MH option only

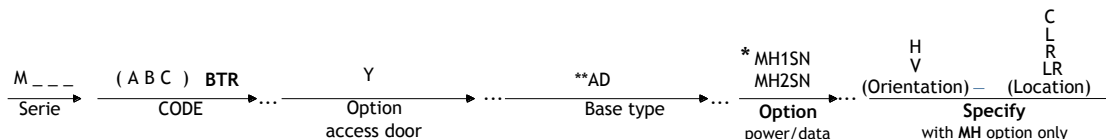

```

The diagram shows the layout of the MH option code, including fields like Serie, CODE, Base type, Option power/data, and Specify with MH option only, along with their respective bit positions and values.

*Please specify positioning (C, L, R or LR) and orientation (H = Horizontal and V = Vertical) of the power/data centres at the end of the code

Wall brackets for shelves Finish: Satin nickel only 	WBRNS	78	Sold by the pair
Grommet with 3-1/2" opening Finish: Satin nickel 	HAPF	14	
Standard black plastic grommet with 2-1/2" opening  	ELPF	6	

ELECTRICITY

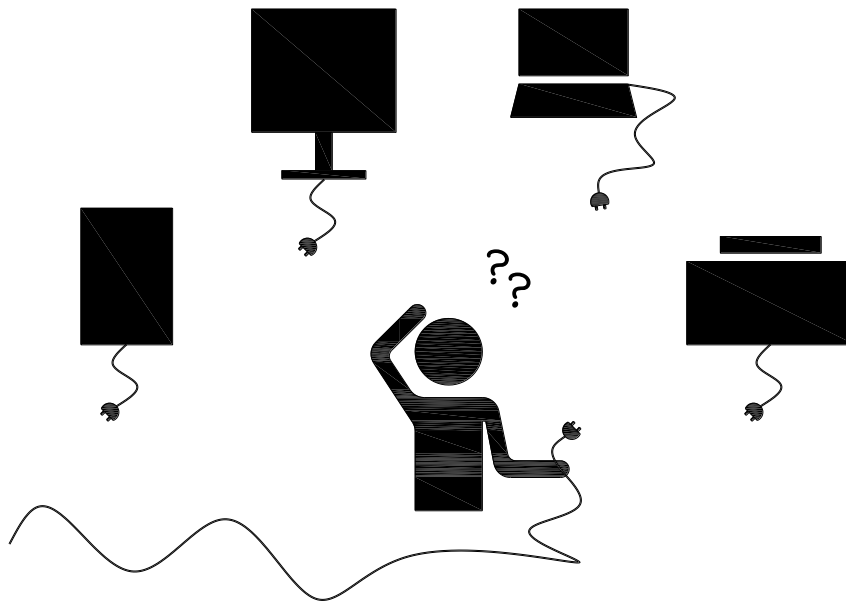

INTRODUCTION

Introduction to calculation and use of electrical components

Most people are uncomfortable with anything related to electricity. This step-by-step guide is intended for people who are not familiar with electrical installations but who have to specify what system they need when ordering furniture. In this guide, you will learn how to choose and specify the electrical installations required for your projects. The list that follows illustrates and identifies each product and describes its applications.

The electrical components are all recognized by the Underwriters Laboratory (UL) as office furniture accessories and are manufactured according to Canadian Standards Association (CSA) and UL electrical standards. Metal channels are not UL approved and are used only to hold and distribute electrical wires. They should therefore not be used for telecommunication or digital data cables. You must use a separate channel in order to avoid a short circuit. Some cities and municipalities may have their own requirements.

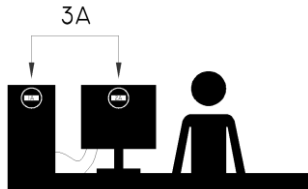

**** All electrical connections must be performed by a certified electrician. ****

ELECTRICITY

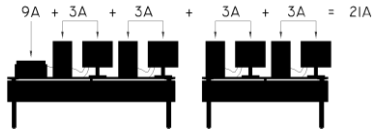

CALCULATING AMPERAGE

The following steps describe the working of an electrical system for the MPLK communication box. By following these few simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical equipment.

STEP #1 Determine the number of amperes required

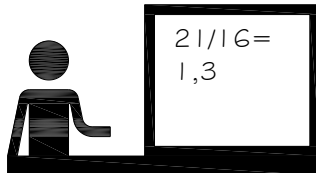

An ampere is a unit of measure that determines the amount of electricity used by a machine. On your computer or electric device (e.g. monitor, central processing unit, printer), find the plate that provides the technical specifications as follows: Input: 120v-1.8A. If you cannot find this information on the machine, you will probably find it in the user manual.

STEP #2 Calculate the total number of amperes per electrical series

An electrical series corresponds to the total number of amperes that you draw from a same power source. This may be a computer equipped with a printer, a series of tables joined together, or perhaps a conference table with several electrical outlets. Add the number of amperes (defined in Step 1) for each machine in the series. In our example, there are three amperes per computer and monitor, and nine amperes for the printer. Please note that the number of amperes may vary from one machine to another.

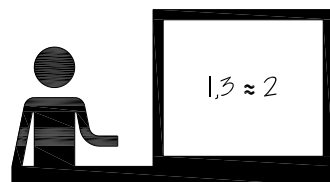

Example: 4 computers + 1 printer = 18 amperes

STEP #3 Divide by 16

UL assigns 15 amperes of intermittent use to each Logiflex unit. However, most machines and computers used in offices or schools are used continuously for many hours at a time. In this type of situation, national electrical codes usually limit circuits to 16 amperes of continuous use. You must therefore divide the total number of amperes calculated in Step 2 by 16.

Example: $21 \div 16 = 1.3$

STEP #4 This is the number of circuits your series requires

In most cases, this number will contain decimals. Round up to the next whole number, and this will be the number of circuits required for your equipment to run safely. If the number obtained is higher than 4 (the maximum number of circuits for a system), you must reduce the amount of current used by the system or create another system supplied by a separate power source.

STEP #5 Repeat steps 1 to 4 for each electrical series

This step applies if you have several training tables or computers, or a conference table. Don't forget that you must follow this procedure for each system operating from a different power source.

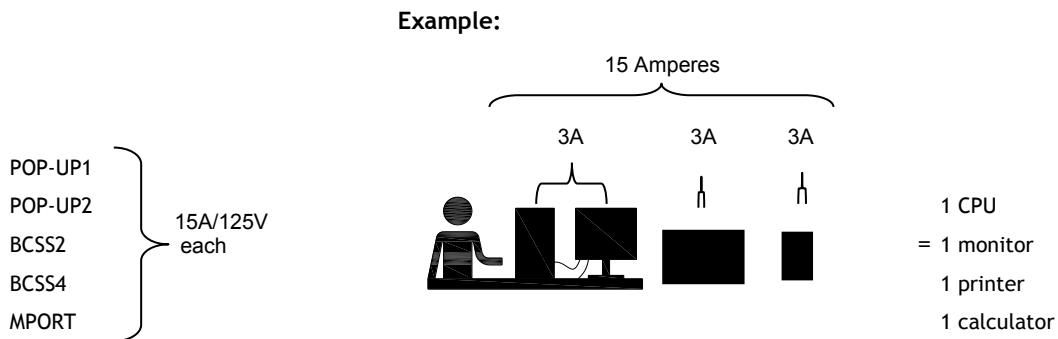

ELECTRICITY

EXAMPLES OF CALCULATING AMPERAGE

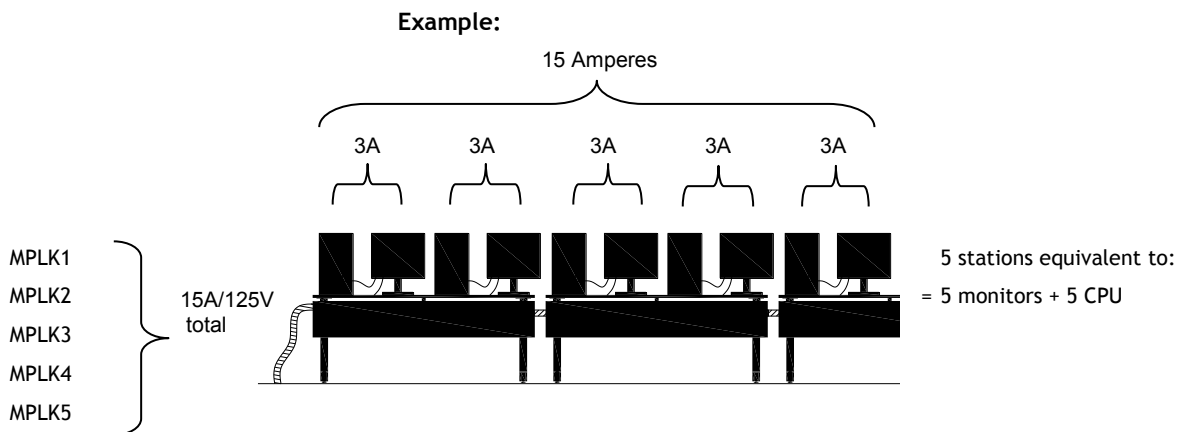

Average amperage of the most commonly used pieces of equipment.

- CPU	: 2.0A - 4.0A	- Printer	: Ink-jet= 6.4A	- Network server	: 12.0A
- Monitor	: 15" = 1.8A		9.0A		
	20" = 2.5A	- Fax machine	: 1.0A		
- Laptop	: 1.5A	- Calculator	: .25A		

SINGLE STATION

MULTIPLE STATIONS

ELECTRICITY

EXAMPLE OF CALCULATING AMPERAGE

4-TRACK SYSTEM

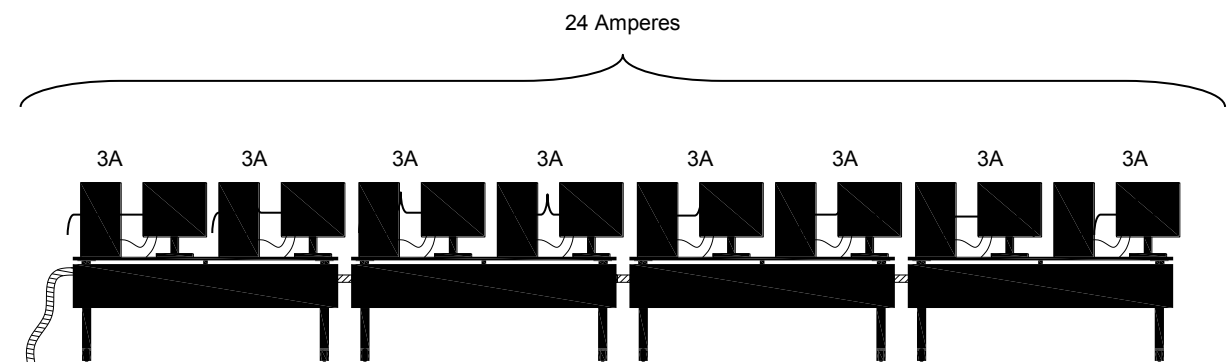

If your system requires two circuits, specify "circuit #1 or circuit #2" per kit ordered.

Here is an example of equipment required for a two-circuit system:

- 8 computers and monitors
- 1 starter kit 4T60D72-1
- 1 junction kit 4T60J18-2
- 1 junction kit 4T60J18-1
- 1 junction kit 4T60J18-2

Total: 24 amperes / 16 = 1.5 = 2 circuits

Example:

ELECTRICITY

EXAMPLE OF CALCULATING AMPERAGE

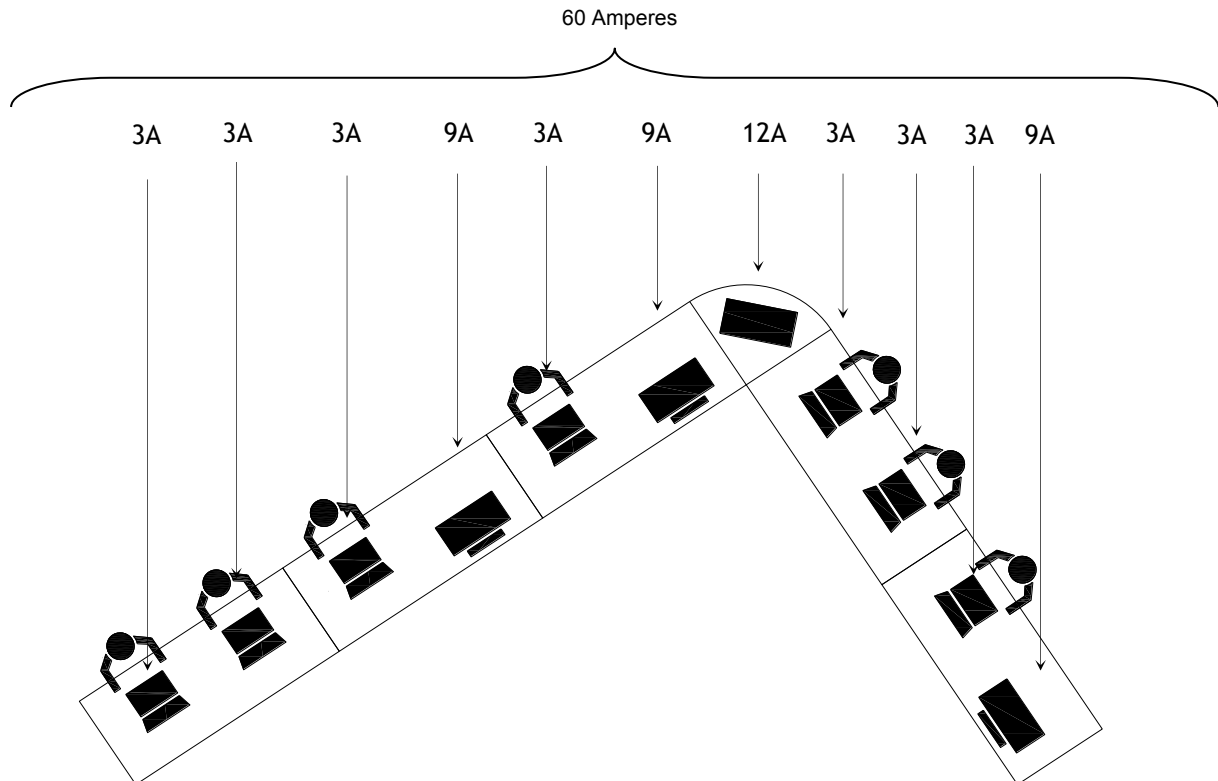

8-TRACK SYSTEM

Here is an example of equipment required for a four-circuit system:

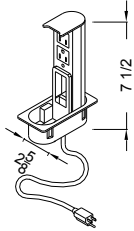

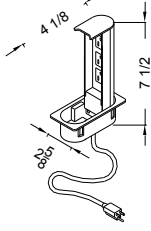

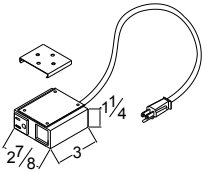

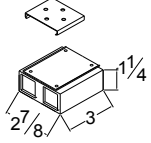

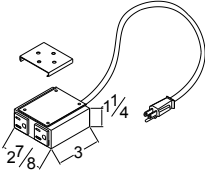

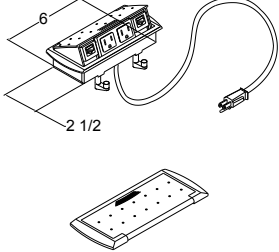

- 7 computers and monitors (21 amperes)
- 3 printers (21 amperes)
- 1 network server (12 amperes)
- starter kit 8T72D72-1
- junction kit 8T72J18-1
- junction kit 8T72J18-2
- junction kit 8T72J18-3
- junction kit 8T72J18-4

Total: 60 amperes / 16 = 3.375 = 4 circuits

Example:

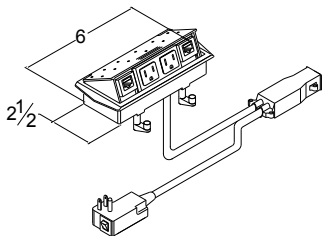

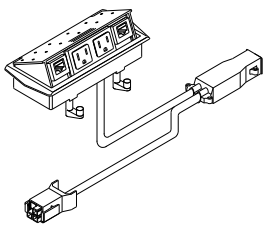

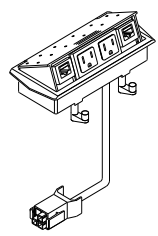

ELECTRICITY**COMMUNICATION BOXES - SINGLE STATIONS**

		CODE	
	Retractable box for single station. Includes 2 electrical outlets and 2 empty telecommunication outlets (outlets not included) 72" power cable (Available in black only) 15A/125V * 1 set of universal adapters included	POP-UP1	253
	Retractable box for single station. Includes 3 electrical outlets 72" power cable (Available in black only) 15A/125V * 1 set of universal adapters included	POP-UP2	253
	Communication box to be installed under surface including 1 electrical outlet and 1 empty telecommunication outlet (outlet not included) 72" power cable 15A/125V * 1 set of universal adapters included	BCSS1BL (Black)	125
	Communication box to be installed under surface including 2 empty telecommunication outlets (outlets not included) (Available in black only) 15A/125V * 1 set of universal adapters included	BCSS2BL (Black)	125
	Communication box to be installed under surface including 2 electrical outlets 72" power cable included (Available in black only) 15A/125V * 1 set of universal adapters included	BCSS3BL (Black)	125
	Plastic retractable box for single station. Includes 2 electrical outlets and 2 telecommunications outlets (outlets not included) 72" power cable included (Available in black or satin nickel) 15A/125V * 1 set of universal adapters included	MPORTSN (Satin nickel)	301
		MPORTBL (Black)	301

** All electrical connections must be performed by a certified electrician.

4-TRACK SYSTEM

STARTER SET

Starter set of electrical cables for a training table including:

- One 72" starter cable and one junction cable according to each table size
- 2 duplex receptacles with electrical outlets
- 2 duplex receptacle supports

**** By default the starter kit is Circuit 1. ****

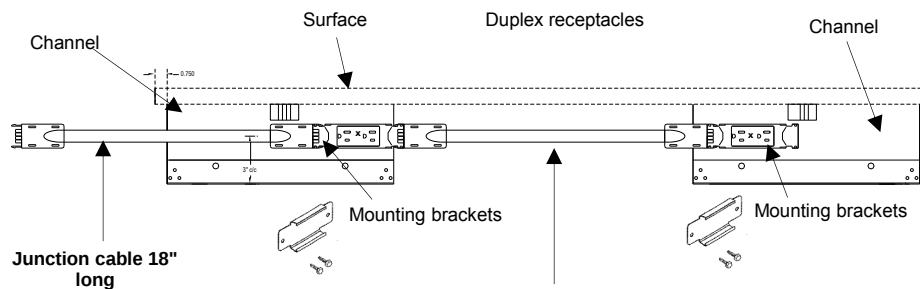

- 18" junction cable for use on table of 48"
- 24" junction cable for use on table of 54"
- 30" junction cable for use on table of 60"
- 36" junction cable for use on table of 66"
- 42" junction cable for use on table of 72"

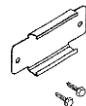

JUNCTION SET

Junction set of electrical cables for a training table including:

- One 18" junction cable and one junction cable according to each table size
- 2 duplex receptacles with electrical outlets
- 2 duplex receptacle supports

- 18" junction cable for use on table of 48"
- 24" junction cable for use on table of 54"
- 30" junction cable for use on table of 60"
- 36" junction cable for use on table of 66"
- 42" junction cable for use on table of 72"

2 mounting brackets for Duplex receptacles including screws
(Holes for screws must be done by the installer)

**** All electrical connections must be performed by a certified electrician ****
