

CD-RW901

Consultant's Specification

CONSULTANT'S AND SYSTEM DESIGN SPECIFICATION

The TASCAM CD-RW901 is a 2U rack-mountable CD Recorder equipped with MP3 audio playback, Pitch Control (16 % +/-), and CD Text. The CD Recorder provides Key Control (changes pitch w/o changing the speed), front PS/2 keyboard input, "Power-on-Play", dedicated analog input level controls, and digital input level control (via multi-job wheel). The CD-RW901 adds RS-232 serial control and a timed track increment (selectable from 1 to 10 minutes) for adding CD track ID markers during recording.

Analog inputs and outputs are unbalanced RCA jacks and balanced XLR. Digital I/O via XLR-AES/EBU, Coax and Optical S/PDIF. Wired Remote Control is included.
