<<< Hello folks, welcome to WT 106

Weekend Testing Session :)

I am Ajay Balamurugadas, your facilitator for today's session

Please introduce yourselves

[16:10:30] ritika-gulati: Hello Ritika from karnal

WT 106: Baseball Card Tracker

[16:10:40] Weekend Testing: Nice

[16:10:53] Weekend Testing: How many of you are participating for the first time?

[16:11:27] ritika-gulati: This is my 3 rd time

[16:11:40] Chinmay Kumar Brahma: Mine too

[16:11:41] Chinmay Kumar Brahma: :)

[16:11:49] Weekend Testing: Cool, anyone first timer?

[16:12:26] Weekend Testing: we will test for 1 hr based on the mission provided

[16:12:36] Weekend Testing: then next 1 hr, we will discuss our experiences

[16:12:47] Weekend Testing: feel free to test alone or in pairs

[16:12:55] Weekend Testing: or as a big group

[16:13:41] Weekend Testing: Mission: The software to be tested is
<http://sourceforge.net/projects/bbct/>

The developer expects a bug report with clearly explained bugs along with screenshots

[16:13:48] Weekend Testing: Time to test: 1 hr

[16:14:05] Weekend Testing: Deliverable: A pdf uploaded to dropbox

[16:14:24] Weekend Testing: Feel free to ask any questions?

[16:15:39] Ranjit Shringarpure: Q1/n: what are we testing?

[16:15:50] Ranjit Shringarpure: i.e what are we testing for?

[16:16:01] Weekend Testing: The Baseball Card Tracker software

[16:16:19] ritika-gulati: what is that

[16:16:40] Ranjit Shringarpure: what aspect?

[16:16:52] Ranjit Shringarpure: installability, functionality, ui...

[16:17:15] Weekend Testing: <http://sourceforge.net/projects/bbct/> software can be downloaded here

[16:17:28] Weekend Testing: Try to cover as many aspects in 1 hr

[16:17:29] ritika-gulati: after that?/

[16:17:38] Weekend Testing: but functionality is more important

[16:17:50] Weekend Testing: few quality criteria might not be applicable here

WT 106: Baseball Card Tracker

[16:17:57] Ranjit Shringarpure: [16:17] Weekend Testing:

<<< but functionality is more important than what?

[16:18:27] Weekend Testing: Installation, UI, User experience, Uninstallation

[16:18:51] Weekend Testing: Then report preparation

[16:19:11] Weekend Testing: Which OS are you on

[16:20:50] *** Weekend Testing has changed the conversation topic to "WT 106: Baseball Card Tracker: Testing Session" ***

[16:20:58] Weekend Testing: Any other questions?

[16:21:53] Ranjit Shringarpure: as and when they come up

[16:22:00] Weekend Testing: ok

[16:22:04] Ranjit Shringarpure: btw, win7

[16:22:33] Weekend Testing: others?

[16:23:39] *** Weekend Testing has changed the conversation picture. ***

[16:23:53] Weekend Testing: @Chinmay, Murali, Nusrat

[16:23:57] Weekend Testing: are you there?

[16:25:07] Chinmay Kumar Brahma: Yes

[16:25:10] Chinmay Kumar Brahma: Testing

[16:25:20] Weekend Testing: ok

[16:25:27] Nusrat Akhter: yes Testing

[16:26:20] Chinmay Kumar Brahma: Card Value I am inputting \$112

It is showing

Please enter a valid dollar amount

[16:26:24] Chinmay Kumar Brahma: Unable to proceed

[16:26:36] Weekend Testing: why

[16:26:46] Weekend Testing: just give number

[16:26:57] Chinmay Kumar Brahma: Same

WT 106: Baseball Card Tracker

[16:27:16] Weekend Testing: bug?

[16:27:16] Chinmay Kumar Brahma: Not even with 2 decimal value

[16:27:22] Nusrat Akhter: yes

[16:27:24] Weekend Testing: others, how is it for you?

[16:27:26] Chinmay Kumar Brahma: Anyone else able to add

[16:27:27] Chinmay Kumar Brahma: ?

[16:28:46] Weekend Testing: which OS are you on?

[16:29:04] Chinmay Kumar Brahma: Win 7

64bit

[16:30:48] Weekend Testing: Did anyone notice a user manual?

[16:31:08] Chinmay Kumar Brahma: yes

[16:31:59] Weekend Testing: you can do claims testing too :)

[16:32:01] Ranjit Shringarpure: surprisingly it says "add card" button not implemented - ust wondering if it is add or clear

[16:32:12] Nusrat Akhter: yes

[16:32:29] Weekend Testing: please do make your observations side by side

[16:34:08] *** Weekend Testing added Raghu ***

[16:34:34] Nusrat Akhter: Modification of Player position is not working

[16:34:36] Weekend Testing: welcome raghu

[16:34:45] Raghu: Thank you..

[16:34:52] Weekend Testing: keep noting them in the document

[16:35:00] Weekend Testing: and you can denote bug as (bug)

[16:37:15] Weekend Testing: last 20 mins

[16:37:34] Weekend Testing: have you folks split the areas to test?

[16:38:00] Chinmay Kumar Brahma: I am testing with you creating any Card, unable to create anything ;)

[16:38:05] Weekend Testing: anyone has experience of collecting such cards?

[16:38:19] Chinmay Kumar Brahma: i have but for Cricket mostly

WT 106: Baseball Card Tracker

[16:38:31] Chinmay Kumar Brahma: and WWF :)

[16:38:39] Weekend Testing: I like the log file ;)

[16:39:32] Chinmay Kumar Brahma: I checked that but in confusion about the File
bbct.log.lck

[16:43:06] Weekend Testing: does the user manual help?

[16:43:12] Nusrat Akhter: yes

[16:43:59] Chinmay Kumar Brahma: Yes and the log files as well.

Check for \$12\$32.00

[16:44:40] Weekend Testing: There are already issues filed for this project

[16:44:52] Chinmay Kumar Brahma: ok

[16:45:21] Weekend Testing: <http://sourceforge.net/p/bbct/tickets/?source=navbar>

[16:45:54] Weekend Testing: is this the bug we are talking about

[16:45:55] Weekend Testing: <http://sourceforge.net/p/bbct/tickets/106/>

[16:47:02] Chinmay Kumar Brahma: yep

[16:47:33] Weekend Testing: start your reports, folks

[16:47:42] Nusrat Akhter: ok

[16:47:42] Weekend Testing: hope they will be ready in 13 mins

[16:53:30] Weekend Testing: @murali, Nusrat,

[16:53:30] Nusrat Akhter: done

[16:53:39] Nusrat Akhter: Bug Report

[16:53:45] Weekend Testing: dropbox link please

[16:54:53] Nusrat Akhter: i didnt use

[16:54:57] Nusrat Akhter: dropbox

[16:54:59] Nusrat Akhter: sorry

[16:55:04] Weekend Testing: please send it here

[16:55:15] Ranjit Shringarpure: sorry have been ducking in and out of the session; but had a couple of observations -

WT 106: Baseball Card Tracker

[16:55:41] Weekend Testing: would our reports be useful to the developer?

[16:55:52] Chinmay Kumar Brahma: yes

[16:55:58] Ranjit Shringarpure: possibly... do u want me to paste my initial comments?

[16:56:06] Chinmay Kumar Brahma: Else what is the required of reporting ;)

[16:56:18] Weekend Testing: paste in a text file and send the file to this group

[16:56:40] Nusrat Akhter: i do not have drop box

[16:56:40] Weekend Testing: who is ready to share the experience?

[16:56:50] Ranjit Shringarpure: i'll go

[16:56:52] Weekend Testing: creating an account is free @Nusrat

[16:56:52] Ranjit Shringarpure: time spent: approx 20 mins

noticed that as soon as u click the application jar file, it creates two other folders. (to explore later)

Manual: claims Add Card - Add the entered data and clear all fields so that the user can enter data for the next card. This button is not yet implemented.

Checked, it did not allow creation of a card for quite a few combinations with or without using "\$" symbol, integers, with or without decimal etc. Upon checking through the "tickets" noticed that there is an outstanding bug and appears it will be fixed in v1.0

db script available for anyone to peruse/modify - presumably this is deliberate to allow debugging etc; if not, it is not advisable.

can connect to the database using executable jar file located under bbct.0.5.3.beta\dist\lib; not sure if it is deliberate. Perhaps cards could be added through the 'back door' or database - but I could not spend time on this aspect. This ability could potentially allow testing of other functionalities - especially search cards.

[16:56:53] Weekend Testing: ok

[16:57:27] Weekend Testing: ok

[16:57:29] Weekend Testing: nice

[16:57:40] Weekend Testing: will come back to you.

WT 106: Baseball Card Tracker

[16:57:42] Weekend Testing: who else?

[16:58:11] Nusrat Akhter: I want to share

[16:58:32] Nusrat Akhter: 2. Need to change the title to Enter card year and number

[16:58:47] Nusrat Akhter: 3. Search by player name is case sensitive. I have player with Nusrat1. When I search with nusrat1 it does not find record. Also this is full text search (nusrat@yahoo.com and I have to enter full text).

[16:58:56] Nusrat Akhter: 4. After entering search value I have to press Enter twice to make Find button working.

[16:58:59] Weekend Testing: how did you add?

[16:59:37] Nusrat Akhter: I clicked Add Cards button

[16:59:52] Nusrat Akhter: I am using 0.5.3 version

[17:00:09] Ranjit Shringarpure: interesting

[17:00:09] Nusrat Akhter: Then added all the fields

[17:00:20] Nusrat Akhter: and finally Clicked Add card button

[17:00:28] Nusrat Akhter: and I got my records are added

[17:00:35] Nusrat Akhter: and then I searched those records too

[17:00:53] Nusrat Akhter: I am using Win7x64 bit

[17:01:32] Weekend Testing: :) none of us are able to add

[17:01:37] Nusrat Akhter: hahahah

[17:01:59] Raghu: The primary function of the product is questionable..

[17:02:10] Weekend Testing: please give us sample values to add

[17:02:15] Weekend Testing: maybe, a screenshot

[17:02:34] Ranjit Shringarpure: was gonna say

[17:03:48] *** Nusrat Akhter sent baseball.jpg ***

[17:05:46] Ranjit Shringarpure: i cant get past please enter valid dollar amount using those details

[17:06:07] Raghu: Add \$

[17:06:08] Raghu: and then value

[17:06:18] Ranjit Shringarpure: did

[17:06:29] Ranjit Shringarpure: exact same values

WT 106: Baseball Card Tracker

[17:06:38] Weekend Testing: :)

[17:07:00] *** Nusrat Akhter sent Baseball card Tracker_BugReport_3.docx ***

[17:07:04] Nusrat Akhter: this is my report

[17:07:27] Nusrat Akhter: are we done?

[17:07:48] Weekend Testing: only you are able to add :)

[17:08:02] Nusrat Akhter: can I have a gift

[17:08:06] Nusrat Akhter: :)

[17:08:09] Nusrat Akhter: jsut kidding

[17:08:54] Raghu: maybe thats the reason.. you can have same values for two records

[17:09:14] *** Raghu sent BBCT.docx ***

[17:09:20] Weekend Testing: plz add your name

[17:09:23] Weekend Testing: too

[17:09:47] Nusrat Akhter: who are u talking Weekend testing?

[17:10:20] Weekend Testing: actually both

[17:10:25] Weekend Testing: but it doesn't matter

[17:10:33] Weekend Testing: I added names to both documents

[17:11:03] Raghu: My exploration was on the how a new user will get acquainted

[17:11:10 | Edited 17:11:32] Chinmay Kumar Brahma: -----

1)For Card Year with a decimal input getting an Exception : Java.lang.NumberFormatException.

```
CREATE TABLE IF NOT EXISTS baseball_cards(brand VARCHAR(10), year INTEGER, number INTEGER,
value INTEGER, card_count INTEGER, player_name VARCHAR(50), player_position
VARCHAR(20),PRIMARY KEY (brand, year, number))
```

2)We can add value as space " "(Without quote). In this way we can create duplicate Record.

WT 106: Baseball Card Tracker

3)While trying to add card with Card Brand "BASEBALL_CARDS", it says Card Already Exist, even if no card is there. [BASEBALL_CARDS is the table name]

4)Unble to procedd with the correct Dollar value even.

Screenshot:<https://docs.google.com/file/d/0BxoJtEbb0yXDemZyU0pQRG1PWjQ/edit>

5)"Player Position" is not getting saved while editing and clicking on Done

[17:11:38] Weekend Testing: Cool

[17:11:44] Weekend Testing: ?

[17:11:51] Weekend Testing: How was this experience?

[17:12:33] Chinmay Kumar Brahma: It was good. Thanks providing us the tool to test.

[17:12:57] Chinmay Kumar Brahma: It would be great to get some input from your side

[17:13:00] Chinmay Kumar Brahma: :)

[17:13:23] Chinmay Kumar Brahma: All of us will get to learn more

[17:13:51] Weekend Testing: The important bug was identified

[17:14:02] Weekend Testing: still surprised on how Nusrat was able to add :)

[17:14:13] Ranjit Shringarpure: whoa! I just managed to add one!

[17:14:16] Raghu: me too .. i got to add

[17:14:18] Weekend Testing: Other than that, more questions could have helped

[17:14:22] Raghu: two players

[17:14:49] Nusrat Akhter: @Chinmay Kumar Brahma

[17:15:13] Nusrat Akhter: it u use brand name with _ then you will get already used message

[17:15:32] Chinmay Kumar Brahma: Ohh is it

[17:15:44 | Edited 17:16:04] Chinmay Kumar Brahma: I tho\ught it is related to Table Name

[17:16:02] Raghu: Anyone observed the issue with search player name..

[17:16:29] Nusrat Akhter: like Test_mytest

WT 106: Baseball Card Tracker

[17:16:30] Raghu: i got to add.. but search by player name returns nothing most of the time except one

[17:16:32] Chinmay Kumar Brahma: @Nusrat

I am able to a_b

[17:16:56] Nusrat Akhter: :(

[17:16:59] Nusrat Akhter: yes me too

[17:17:08] Nusrat Akhter: but I got message for Test_mytest

[17:17:09] Chinmay Kumar Brahma: Magic

[17:17:10 | Edited 17:17:13] Chinmay Kumar Brahma: :)

[17:17:15] Raghu: :) inconsistent results right

[17:17:41] Weekend Testing: ha ha

[17:17:49] Raghu: so what could be the issue here? maybe another session to find the root cause itself

[17:17:50] Weekend Testing: interesting problem to investigate

[17:17:58] Raghu: yeah..

[17:18:00] Weekend Testing: we can spend 10 mins if needed

[17:18:11] Raghu: ok..

[17:18:19] Nusrat Akhter: you mean the last issue that we have been talking

[17:18:25] Weekend Testing: yes

[17:20:13] Ranjit Shringarpure: folks i have to go; family duties to attend; happy testing

[17:20:27] Weekend Testing: thanks for attending

[17:20:35] Weekend Testing: who is investigating

[17:20:38] Ranjit Shringarpure: "thank you"

[17:20:46] Raghu: i am..

[17:20:49] *** Ranjit Shringarpure has left ***

[17:21:13] Weekend Testing: ok

[17:21:15] Weekend Testing: who else

[17:21:19] Weekend Testing: what is your strategy

WT 106: Baseball Card Tracker

[17:21:34] Chinmay Kumar Brahma: Checking the Log file

[17:22:08] Weekend Testing: ok

[17:22:54] Raghu: try duplicating same values with an _ in brand name field

[17:23:57] Raghu: in fact i am not encountering the issue mentioned..

[17:24:52] Nusrat Akhter: try with Test_mytest

[17:24:55] Nusrat Akhter: it seems

[17:25:00] Nusrat Akhter: BASEBALL

[17:25:14] Nusrat Akhter: and Test is some keywords that is failing

[17:25:28] Raghu: good find

[17:25:50] Nusrat Akhter: i dont know

[17:25:51] Nusrat Akhter: anyway

[17:25:54] Nusrat Akhter: i ahev to leave now

[17:25:57] Nusrat Akhter: are we done

[17:25:58] Nusrat Akhter: ????

[17:26:33] Weekend Testing: ok

[17:26:41] Raghu: ok..

[17:26:43] Weekend Testing: thanks for the find

[17:26:54] Weekend Testing: thanks for joining us.

[17:27:07] Weekend Testing: this session was definitely interesting

[17:27:14] Weekend Testing: especially the last behavior :)

[17:27:15] Chinmay Kumar Brahma: BAEBALL is the table name

[17:27:25] Chinmay Kumar Brahma: Nad TEST must be any oter table name

[17:27:45] Nusrat Akhter: may be

[17:27:45] Raghu: Test_mytest failed.. yes that cud be the reason..

[17:28:06] Raghu: The product i feels has not been tested earlier..

[17:28:25] Weekend Testing: Thanks folks

[17:28:29] Weekend Testing: we can wrap up

WT 106: Baseball Card Tracker

[17:28:32] Nusrat Akhter: ok

[17:28:33] Chinmay Kumar Brahma: Yes

[17:28:35] Weekend Testing: if we decide to.

[17:28:42] Weekend Testing: Any comments on this session?

[17:28:44] Raghu: Thanks a lot .. I did a blitz testing in 15 mins

[17:28:49] Chinmay Kumar Brahma: It was nice and interesting one

[17:28:57] Raghu: interesting to see you still can provide feedback..

[17:29:11] Nusrat Akhter: bye everyone

[17:29:16] Nusrat Akhter: take care

[17:29:18] Chinmay Kumar Brahma: Bye

[17:29:35] Raghu: Thanks @WT.. for inviting

[17:29:47] Weekend Testing: Thanks everyone, bye
