2 Getting Started

2.1   Remove/Insert Battery

You may need to remove the battery to insert UIM cards, or for replacing the battery.

To remove the battery:

1. Invert the back of the mobile phone upward and take off the rear cover according to the figure below.

2. Take out the battery as shown in the following figure.

3. Finally place back the rear cover of the mobile phone after removing/inserting the battery as required.

Note: *When inserting the battery, ensure that the metal teeth at the top of the battery comes in contact with the corresponding metal slots of the mobile phone. After this, press the battery down to insert the battery in place.*

2.2 Insert UIM Card

The C110 is a CDMA mobile phone. To insert UIM card:

1. Switch off the mobile phone and remove the rear cover and battery.

2. Insert the UIM card correctly in the card slot as shown below.
3. Finally, insert the battery and replace the rear cover of the mobile phone.

2.3 Charge the Battery

You can charge your battery via the charger or the USB cable

supplied with this phone.

2.3.1 Charging via Power Socket

1. Connect the charger to the charger jack on the phone.

2. Connect the charger to a power socket. The charging starts, with the charging icon displayed in an animated state.

3. When the charging icon becomes static, it indicates that the battery is full.

4. Disconnect the charger from the power socket and the

phone after charging.

2.3.2 Charge via USB Cable

1. Connect the USB cable to the charger socket on the phone.

2. Next, connect the USB jack of the cable with the PC or laptop. The charging starts, with the charging icon in an animated state.

3. Disconnect the USB cable from the PC/Laptop and the phone after charging.

*Note: Slight heating during charging is normal.
When the charging icon becomes static, it indicates
that the battery is full.*

2.4 To switch ON and OFF

To switch ON: Long press **End key** when the phone is in the OFF mode.

If the phone lock has been activated, you need to enter the 4-digit password to unlock. (The preset unlock code is 0000.)

If the UIM card has been inserted in the phone, and the related PIN code protection is activated, you need to enter the 4-8 digit password to unlock.

Warning: If you enter three wrong PIN codes in a row, the UIM card will be locked and you need to enter the PUK code to unlock. Both the PIN code and PUK code are provided by the network operator.

To switch ON/OFF: In the standby mode, long press **End key**.

3 Phonebook

You can store names and phone numbers in the memory of the phone or UIM card.

Menu > Phonebook

3.1 To add a New Contact

In idle, enter phone numbers.

Options > Save > Select the location for saving

Or: Menu > Phonebook > Add new contact > Select the location for saving

You can edit the name, mobile phone number, home phone number, company name, e-mail address, office phone number, fax number. (The number of columns may be set by you in the **[Fields]** in the **[Settings]**.

Computer Managemet.

3. Then go to Micromax CDMA Dialer & set your operator name.

Thereafter the default setting like User Name and Password is

displayed

4. Go to Connect button, and connect it.

12 Health and Safety Information

Please read the following information and guidelines regarding the use of your phone. Not following them may be dangerous or illegal.

SAR Compliance

- Your phone is designed not to exceed the limits of emission of radio waves recommended by international guidelines.

- SAR (specific absorption rate) is the measurement of body-absorbed RF quantity when the phone is in use. SAR

value is ascertained according to the highest RF level generated during laboratory tests.

- The SAR value of the phone may depend on factors such as proximity to the network tower, use of accessories.
- The highest SAR value of the device is 0.162 W/kg averaged over 10 gm of human tissue.

SAR Recommendations:

- Use a wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- Make sure the cell phone has a low SAR.
- Please keep your calls short and use SMS whenever more convenient. This advice applies especially to children, adolescents and pregnant women
- Prefer to use your cell phone when the signal quality is good.
- People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.
- Maintain a preferable distance of 15 mm from the device.

Safe Driving

- Do not use the phone while driving. When you have to use the phone, please use the personal hands-free kit.

- Please put the phone safely in the phone stand. Do not put it onto any passenger seat or any place from which it may fall down in case of vehicular collision or emergency braking.

During Flight

- Flight is influenced by interference caused by the phone. It is illegal to use a phone on the airplane. Please turn off your phone during a flight.

In Hospitals

- Your Phone's radio waves may interfere with the functioning of inadequately shielded medical devices. Consult a physician or the manufacturer of the medical device to determine whether they are adequately shielded from external Radio Frequency. Switch off your device when regulations posted instruct you to do so.

- Do not carry the wireless device in a breast pocket.

- Turn off the phone if there is any reason to suspect that interference is taking place.

- If you have any questions about using your wireless device with an implanted medical device, consult your health care provider.

Unsafe Areas

- Please turn off your phone when you are close to a gas station or in the vicinity of any place where fuel and chemical preparations, or any other dangerous goods are stored.

13 Taking Care of Your Device

Your device is a product of superior design and craftsmanship and should be handled with care: The following suggestions will help you protect your phone:

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will rust electronic circuits. If your device does get wet, remove the battery without turning on the device, wipe it with a dry cloth and take it the service center.

- Do not store the device in high or cold temperature. High

temperatures can shorten the life of electronic devices and damage batteries.

- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.

- Do not attempt to open the device other than as instructed in this guide. Repairing this phone by yourself other than our authorized service agents/centers goes against the warranty rules.

- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.

- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device.

- Do not store your device near magnetic fields or allow your device to come in contact with magnetic fields for extended period of time.

Battery Recommendations:

- Please put the battery in a cool and well-ventilated place out of direct sunlight. We recommend you to charge the battery

at room temperature range.

- Batteries have life cycles. If the time that the battery powers equipment becomes much shorter than usual, the battery life is at an end. Replace the battery with a new battery of the same make and specification.

- Do not discard the battery with household trash. Please dispose of used battery according to your local environmental laws and guidelines.

- Use manufacturer approved batteries, chargers, accessories and supplies. Micromax will not be held responsible for user's safety when using unapproved accessories or supplies.

Disclaimers

- Micromax will not bear any responsibility for any incompliance with the above mentioned guidelines or improper usage of the mobile phone.

- The content of this manual may vary from the actual content displayed in the mobile phone. In such a case, the later shall govern.

- Micromax keeps the right to make modifications to any of the content in this user guide without public announcement or prior notification.
