It's no ordinary set-top-box. The Nokia Mediamaster 260 S features elegant Nokia design and contains a wealth of extraordinary features. You can even pause live TV when the phone rings and then carry on watching when you've finished your call – so you don't miss a thing!

A high class digital satellite receiver

The Nokia Mediamaster 260 S is a digital satellite receiver based on the DVB standard offering you a huge number of digital TV and radio channels from any satellite position. You can access all the available free-to-air channels and subscribe to the pay-TV bouquet of your choice. Entertainment, sports, news, movies – all right at your fingertips.

More control over your TV with the Personal Digital Recorder

The Personal Digital Recorder offers you many new and exciting features. You can store more than 3 days of your favorite programs with amazing digital and audio quality. It is similar to a VCR but offers all the benefits of digital like a clearer picture and sharper sound – and there are no tapes required! Just imagine, next time you go on holiday, you could record all the episodes of all your favorite soaps without worrying about running out of tape.

Why not pause live TV?

What do you do if the phone rings during an exciting football match or your favorite soap? What about when you have to answer the doorbell, or when it's time to put the kids to bed? Now you can pause live TV, finish the washing up, and then carry on watching from the exact same moment where you left off. Just press the pause

Want to look at your holiday snaps during live TV viewing? No problem. With the Nokia Mediamaster 260 S you can pause live programs to display images sent from your camera phone. And then get back to the match when you feel like it.

A great party? Well prove it! Now images taken with your camera phone can be viewed on TV in their full glory – from the comfort of your sofa. Impressing your friends has never been easier.

button and the Nokia Mediamaster 260 S automatically starts recording. When you start watching again, you see all the action from the moment you left the room, and the recording will continue until after the program is over – you don't miss a thing! You can even use the Time Shift function to step forward in the recording to recommence live viewing. The Personal Digital Recorder lets you watch the digital TV you want, when you want it!

Snap it – Send it – View it

With the new Nokia Mediamaster 260 S you can also watch images from your camera phone on your TV set. You simply send the images via Bluetooth to the Nokia Mediamaster 260 S and then you can show them on your TV for you and your family to enjoy from the comfort of the sofa*.

It's also easy to create your own image album and to organize your images for viewing. You can send images to the Mediamaster 260 S from devices that meet the Bluetooth 1.1 standard – including the Nokia 7650 and Nokia 3650 phones.

Why not play between programs?

The Nokia Mediamaster 260 S has games built-in so you and your family can play Nokia classics, such as Snake, Tic-Tac-Toe, and Card Deck – all on your TV.

The easy-to-use Nokia Navi™ Bars user menu

The Nokia Navi™ Bars user menu is your guide to all home entertainment. There's no need to worry about getting mixed up with your channels and finding features and functions you want is a breeze. You can create favorites lists for the whole family and ask for help at the touch of a button. The Nokia Navi™ Bars user menu also takes care of installation. Simply plug the Nokia Mediamaster 260 S into your satellite dish connection, enter your language, time, and satellite dish settings, and start zapping through up to 3000 digital TV and radio channels.

The Nokia Navi™ Bars user menu: Your personal guide to all digital home entertainment. Zap through channels, create favorites lists and ask for help – all at the touch of a button. It's not only smart, but fast too.

NOKIA 2606 Mediamaster

Want to grab a bite to eat during your favorite soap? Just press the pause button and recording automatically starts. When you get back from the kitchen you can carry on watching from the moment you left the room. You can then use the Time Shift function to step forward through the recording and recommence live viewing.
