

PRODUCT NUMBER: A114703
EUROMASKI VL

EUROMASKI VL is part of the Honeywell **welding helmet** range designed for use with powered air purifying respirator (PAPR) as Compact Air 200 and Compact Air. It is equipped with visor with UV and IR protection.

It is recommended in working area where protection is required for respiratory organs, face, head and shoulders against harmful particles, mists, gasses and vapours.

This system procures air to the user via the supply hose connected between PAPR (*equipped with filters*) and the helmet. The filtered airflow enters at the rear and flows through the airduct and leaves the hood via the face collar or the neck bib

Honeywell

Overview

Reference Number

A114703

Product Type

Respiratory Protection

Range

Powered Air Purifying Respirators

Line

PAPR with Hoods or Visors

Brand

Honeywell

Brand formerly known as

NORTH

Industry

- Administration
- Automotive and Part Manufacturer
- Building and Construction
- Energy or Electricity
- General Industry
- Maintenance
- Welding

Product Use

- Arc welding
- Grinding
- Cutting with a gas torch

Features & Benefits

Feature

Extremely lightweight design

Feature

Comfortable cotton elastic face seal

Feature

Wide field of vision without raising the visors to spot possible danger

Feature

Comfortable cotton elastic face seal

Feature

Versatile (welding shield and face in the same mask) can be used in different stages of work

Technical Description

Mask

Material

Light duty Nylon welding airhood - Face seal in cotton

Visor Screen

Double visor system

Reusable

Filter Cartridge Connection Type

RD40

Number of Filter Cartridges

3

Storage Information

EUROMASKI VL (welding helmet for PAPR use)

All respiratory products must be stored in a clean, dry environment away from any contaminants, dust and direct sun in its original box, any carrying case.

Care Instructions

Controls before use

- Ensure that the system, after being last used, has been cleaned in the correct manner, disinfected and checked in accordance with manufacturer instructions inside user manual.

Donning the Euromaski Helmet

- Connect the supply hose from the powered air purifying respirator (*Compact Air or Compact Air 200*) to the rear of the air hood.
- Buckle the belt round the body and switch on the respirator.
- Adjust the head band to the correct length.
- Fit the helmet on the head, draw the face collar back under the chin, so that the hood is sealed off, and then tighten the belt.

Cleaning

- After each session clean the helmet, using a mixture of water and a mild (*solution to add*)
- Subsequently, rinse thoroughly with clean water. (*Do not use any solvents*).
- The face seal can be washed in the washing machine, using a soft detergent at 30 °C.
- Using a disinfectant, clean the inner surfaces of the air hood.
- Using a dry cloth, dry all the metal components, so avoiding corrosion.
