4. Installation

Plug the USB receiver into your computers USB port. The system will automatically search for the new hardware and complete the installation.

5. Charging

This device contains a built-in Lithium rechargeable battery. When the battery is low, the indicator light will flash quickly when press any button is pressed. To charge, connect the micro USB lead to the device's power socket, and the other end of the USB cable to a powered USB port. Whilst charging, the indicator light will flash slowly. After the battery is fully charged, the indicator will light constantly.

Note:

- If battery level is low, the control distance will decrease.
- Please only use properly certified chargers with this device.

6. Specifications

Presenter
