Introduction

Thank you for buying this Philips shaver. Please read this user manual, as it contains information about the wonderful features of this shaver as well as some tips to make shaving easier and more enjoyable.

Important

Read this user manual carefully before you use the shaver and the charger. Save the user manual for future reference.

Danger

- Make sure the adapter does not get wet.

Warning

- Be careful with hot water. Always check if the water is not too hot, to prevent your hands from getting burnt.
- The adapter contains a transformer. Do not cut off the adapter to replace it with another plug, as this causes a hazardous situation.
- The shaver and the charger are not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliances by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the shaver and the charger.

Caution

- Do not use the shaver, the charger or the adapter if it is damaged.
- Charge and store the shaver at a temperature between 5°C and 35°C.

- Always put the protection cap on the shaver to protect the shaving heads when you are travelling.
- Never use scouring pads, abrasive cleaning agents or aggressive liquids such as petrol or acetone to clean the appliance.
- Only use the adapter supplied.
- If the adapter is damaged, always have it replaced with one of the original type in order to avoid a hazard.
- Never immerse the charger in water, nor rinse it under the tap.

Compliance with standards

- The shaver complies with the internationally approved IEC safety regulations and can be safely cleaned under the tap.
- These Philips appliances comply with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user manual, the appliances are safe to use based on scientific evidence available today.

General

- The adapter transforms 100-240 volts to a safe low voltage of less than 24 volts.
