

Philips

Original radio mini

- with Lightning connector
- for iPod/iPhone
- FM, dual alarm
- 4W

ORD2105B/37

Set the trend with the Original Radio mini

Enjoy all your music and the appealing retro design of the Philips Original radio mini. Play from your iPod/iPhone, while the radio charges and auto synchronizes its clock with your Apple device.

Benefits

Enrich your sound experience

- FM digital tuning
- Bass Reflex Speaker System delivers a powerful, deeper bass
- Fast charging and play music via Lightning connector

Easy to use

- Audio-in for easy portable music playback
- Dual alarm to wake you and your partner at different times

- Sleep timer for easy falling asleep to your favorite music
- Gentle wake for a pleasant wake up experience
- Auto sync time via iPod/iPhone dock with Lightning connector

Contemporary retro design

- Contemporary reinterpretation of the iconic Philetta design

Features

FM digital tuning

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer

PHILIPS

to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep

Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

Iconic Philetta design

Inspired by 1955 Original Radio - This original radio carries forward the iconic elements of the legendary 1955 Philips radio, also known as Philetta "254". At the time this compact radio wowed its audiences with simplicity design, big sound and crystal clear reception. Philips radio heritage dates back to 1927. Over the decades many models have become renowned radio icons and collectors' items.

Gentle wake

Start your day right by waking up gently to a gradually escalating alarm volume. Normal alarm sounds with a preset volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favorite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Auto sync time

Play and charge via Lightning

Enjoy your favorite music while charging your iPod/iPhone via the new Lightning connector! Just dock it directly on the speaker to play your hand-picked tunes in superb sound. It also charges your device quickly while playing, so you don't have to work about the battery running out.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.
