 5. Music: play mp3 at background,equalizer,bluetooth stereo
 6. Video: 3GP,MP4,support to play in full screen, speed/pause
 7. Rom: the largest extend memory card 2GB T-F
 8. Date Transfer: data wire/U disc/ Bluetooth (voice, stereo)
 9. CAMERA is 2.0 MP ;1280*1024 support to shoot MP4 with sound, the time depends on storage
 10. Telephone diretoreis: 300 groups of contacts of carte de visit
 11. Messages & Multimedia messaging: 200 messages, MMS, support SMS, MMS
- Gravity Sensor:Wallpaper switch,music switch,FM channel switch.

no TF card ,no bluetooth ,dual sim,shake function

AK10

- Support the language Simplified Chinese, Traditional Chinese, English, French, German, Vietnam, Russian, Thai, Spanish, Danish, Polish, Indonesian, Turkish, Arabic, Greek, Swedish, Italian, etc. (customizable language)
Parameters of 1.33-inch screen 60 thousand color pure touch screen; Resolution: 128 * 160px
64 polyphonic ringtones; supported formats: mp3, midi
Music player mp3 and background play, support equalizer and Bluetooth stereo output
Video playback 3GP, MP4, 3GP/MP4 full-screen playback, support fast forward / pause
Camera features 1.3 million pixels; support MP4 movie shooting with sound, the time depends on the size of the memory card
Memory size of the dual card dual standby, support the rejection rejection screen songs, a card slot, maximum support 4G TF card expansion, support expansion
Data transfer U disk / data wire / Bluetooth file transmission, Bluetooth audio, Bluetooth stereo output
Fuselage directories 300 groups of phone cards, ringtones, calls Daitoutie, calls video broadcast personality
SMS / MMS 200 SMS storage capacity, support SMS MMS
Off screen custom switching machines, can be set up
5 Group alarm clock alarm clock, and can set Monday to Sunday arbitrary day alarm clock Customize
Built-in intelligent puzzle game
For GSM network / For frequency 900/1800/1900MHz /
Talk time 180-250 minutes / 72 hours standby time
Time to market by 2010 / Shape watch, pen / Size 48 * 54 * 14 / Color Black

2010 the newest watch phone in the market

ET-1

Model AVATAR (ET-1)
 Features support for Bluetooth stereo music player, fashionable and dynamic appearance, MP3, MP4, FM radio support loud speaker, intelligent voice dialing, intelligent voice command
 1.33 in. flat touch screen / Watch mobile phone type
 Time to market in February 2010
 Network standard GSM 850/900/1800/1900 GPRS
 The main screen parameters 260,000 color display, TFT, 128 x 160 pixels, 1.33 inches touch screen flat
 64MB memory / System MTK6226
 Standard 680mAh lithium battery, charger, headset, data cable, stylus, user manual
 6 hours talk time / 310 hours standby time
 Shell color pearl white, black
 Size 63 x 49 x 18.5 mm
 Weight machine weight 76 grams (including battery) Packing gross weight: 390 g
 Basic functions
 64 polyphonic ringtones, MP3 ringtones, MIDI, AAC / Address Book 200
 Information Function SMS messaging, EMS SMS, MMS messaging, Short Message
 Input handwriting input method, T9 English input method, phonetic, intelligent input in English
 Games built-in games / Recording function support
 Main features built-in antenna, clock, built-in shock scenarios, call tips, hands-free calling, standby picture, animation, screen saver function, picture caller identification, call tone recognition, voice dialing, flight mode
 Additional features alarm clock, shutdown alarm clock, calendar, lunar, calculator, calendar, notepad, memo, voice memo, world clock, currency converter, unit converter, timer, stopwatch, Automatic keyguard
 Data applications
 Bluetooth support, Bluetooth v2.0, A2DP Bluetooth stereo
 GPRS data services / WAP Internet wap 2.0
 Data lines support data cable, USB 2.0, support U-disk drive-free
 TF card expansion card support, hot-swappable, maximum support 2GB
 Multimedia entertainment
 Video playback support, MPEG4, 3GP format playback
 Multimedia MP3, MP4, FM radio
 Other performance speaker independent

ET-1I

Model AVATAR (ET-1I)
 Supported languages English, French, Spanish, German, Italian, Vietnamese, Arabic, Thai, Indonesian, Turkish, Portuguese, Polish, Simplified Chinese, Traditional Chinese
 Features support for Bluetooth stereo music player, fashionable and dynamic appearance, MP3, MP4, FM radio support loud speaker, intelligent voice dialing, intelligent voice command
 1.33 in. flat touch screen
 Watch mobile phone type / Time to market in March 2010
 Network standard GSM 850/900/1800/1900MHZ
 The main screen parameters 260,000 color display, TFT, 128 x 160 pixels, 1.33 inches touch screen
 flat Camera features 1.3 million pixels
 Memory capacity of 393K, can be extended to 2GB / System MTK6226
 Standard 680mAh lithium battery, charger, headset, data cable, stylus, user manual
 6 hours talk time / 310 hours standby time
 Shell color pearl white, black / Size 63 x 49 x 18.5 mm
 Weight machine weight 76 grams (including battery) Packing gross weight: 390 g
 Basic functions
 64 polyphonic ringtones, MP3 ringtones, MIDI, AAC / Address Book 200
 Information Function SMS messaging, EMS SMS, MMS messaging, Short Message
 Input handwriting input method, T9 English input method, phonetic, intelligent input in English
 Games built-in games / Recording function support
 Main features built-in antenna, clock, built-in shock scenarios, call tips, hands-free calling, standby picture, animation, screen saver function, picture caller identification, call tone recognition, voice dialing, flight mode

 Data applications
 Bluetooth support, Bluetooth v2.0, A2DP Bluetooth stereo
 GPRS data services / WAP Internet wap 2.0
 Data lines support data cable, USB 2.0, support U-disk drive-free
 TF card expansion card support, support from the card, maximum support to 2GB
 Multimedia entertainment
 Video playback support, MPEG4, 3GP format playback
 Multimedia MP3, MP4, FM radio
 Other performance speaker independent

1G memory, one bluetooth

mini s66

- 1) 【Support language】 simplified Chinese, English, Spanish, Portuguese, Italian, German
- 2) LCD Size 1.3 inch 260 thousand colors; Resolution: 128 x 160px
- 3) 【】 64 polyphonic ringtones; supported formats: mp3, midi
- 4) Music player support equalizer, independent loudspeaker, sound bigger, have very good sound quality, Bluetooth stereo output effect is the stick
- 5) Video playback 3GP, MP4, 3GP/MP4 full screen playback, support fast forward / pause
- 6) Camera functions HD camera; support audio video capture, memory card under specific shooting time remaining capacity may be
- 7) 【Memory size 505K/128MB
- 8) 【Data Transfer】 U disc / data cable / bluetooth music
- 9) Image formats jpg, gif

Basic functions

- 1) Fuselage directories 500 groups of phone cards, unlimited phone book group ringtones, available to download MP3 ring tones to do
- 2) 【SMS / MMS support SMS and MMS
- 3) 【Switch machine】 custom switching machine screen can be set up
- 4) 5 Group alarm clock alarm clock, Monday to Sunday arbitrary day alarm clock Customize
- 5) 【Built-in Intelligent Puzzle Games
- 6) 【Other functions】 MP3, MP4, Handsfree, SMS group sending, Voice recorder, WAP, Handwritten input, Bluetooth, GPRS download, MMS, calendar, calculator, world time, memo, health management , IP dialing, unit conversion, currency conversion, Notepad (Within the machine itself with 128M memory, no way to expand)

Basic parameters

- 1) 【Network】 GSM application
- 2) 【Frequency】 850/900/1800/1900MHz applicable
- 3) from about 100-180 minutes of talk time】
- 4) 【】 140-200 hours standby time
- 5) time to market】 2008.08.03 【
- 6) 【Form】 other outside
- 7) 【Size】 61 * 40 * 16MM
- 8) 【Weight】 90G
- 9) 【Color】 white, black

no TF ,no bluetooth,GPS

G9

Product Code: GPS-G9

Description:

Support frequency: GSM850, 900, 1800MHz and 1900MHz

1.3 inch flat touch screen / Bluetooth 2.0 / Talk time: 120 minutes

Standby time: 100 hours of / SMS function / Phone book: 500 / Call records: 40

MP3 and MP4 / Hands-free / Supported languages: Various

Preface

Thank you for purchasing our GPS watch, this handbook describes how to properly use the GPS function. Before using this product be sure to read the manual. Please note that if the product specifications and some information are subject to change without notice. Any changes will be integrated in the latest version. Manufacturers are not liable for any errors or omissions in this document.

Summary

The GPS watches work on the existing GSM / GPRS network and GPS satellite positioning system, the product can be found through SMS or GPRS monitor any remote targets

Application

--- SMS and GPRS real-time tracking and support management platform

--- It can store phone numbers, you can press any button alarm number, immediately seek help, when you dial this number built, you will get from the back of the watch GPS phone location information, if you need to position link function, as long as your phone supports GPRS function, you can link real-time access to check your location on Google Maps.

--- After the boot search, access to GPS signals, and then you meet your local time is automatically set the corresponding time zone.

--- SMS Reply targeting. One of the support of GPRS phone that can access the link to view Google map of your exact location.

--- Power positioning mode instructions, GPS positioning will enter power saving mode, position location information automatically displayed.

(A) Appearance Introduction

GPS watch tracker has two buttons: on / off button, help button.

(1) open and close the GPS equipment

From the GPS menu to access the GPS, select Settings, open / close the Global Positioning System

(2) SMS (default mode) return mode

To go outside, balcony or the window open GPS.

Access to the main page, time, longitude and latitude data, speed, direction are shown as 0, once the reception of satellite signals, it will automatically display the location information:

Latitude: 2.235.91349 / Longitude: 11350.70585

Satellite: 3 or more

(2), the message (SMS) model: any of a number can send code (0000 is the password) to watches, watches in the return after location latitude and longitude location information, data, and then GOOGLE on Earth can check specific sites Charles Yi as follows:

The latitude and longitude data in decimal multiplied by 60 before taking four turn into GOOGLE Earth with location data, for example: GOOGLE Earth latitude 2235.91349 data conversion:

91 349 * 60 before the four are 5480, converted data is

GOOGLE Earth latitude is: 22.355480, longitude: 113.504235 converted query on the line.

(3) tracking through GPRS

(4), set the server TCP / IP address and port number

(5) to set the GPRS connection station (access point name)

(6) log surveillance system, adding to the system for monitoring GPS watch

no TF no bluetooth

EG200+

Model: EG200 +
 Single-card single question:
 [Support language] simplified Chinese, English, French, Russian, Arabic, Thai and other languages
 LCD Size of 1.4 inch pure touch screen 60 thousand color; Resolution: 128 * 160px
 [] 64 polyphonic ringtones; supported formats: mp3, midi
 Music player mp3 and background play, support equalizer and Bluetooth stereo output
 Video playback 3GP, MP4, 3GP/MP4 full-screen playback, support fast forward / pause
 [Camera] 1.3 million camera function; support MP4 movie shooting with sound, the time depends on the size of the memory card
 [Memory size single card single question, with the maximum support 2G TF card slot expansion, support expansion
