CHAPTER 1

1.1 Important Safeguards

Please read all of these instructions carefully before you use the device. Save this manual for future reference.

What the warranty does not cover

- Any product, on which the serial number has been defaced, modified or removed.
- Damage, deterioration or malfunction resulting from:
 - Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, or failure to follow instructions supplied with the product.
- Repair or attempted repair by anyone not authorized by us.
- Any damage of the product due to shipment.
- Removal or installation of the product.
- Causes external to the product, such as electric power fluctuation or failure.
- Use of supplies or parts not meeting our specifications.
- Normal wear and tear.
- Any other causes which does not relate to a product defect.
- Removal, installation, and set-up service charges.

1.2 Regulatory Notice

Legal Information

First English printing, October 2010

Information in this document has been carefully checked for accuracy; however, no guarantee is given to the correctness of the contents.

The information in this document is subject to change without notice. We are not liable for any injury or loss that results from the use of this equipment.

Safety Instructions

- 1 Unplug equipment before cleaning. Don't use liquid or spray detergent; use a moist cloth.
- 2 Keep equipment away from excessive humidity and heat. Preferably, keep it in an air-conditioned environment with temperatures not exceeding 40° Celsius (104° Fahrenheit).
- 3 When installing, place the equipment on a sturdy, level surface to prevent it from accidentally falling and causing damage to other equipment or injury to persons nearby.
- 4 When the drawer is in an open position, do not cover, block or in any way obstruct the gap between it and the power supply. Proper air convection is necessary to keep it from overheating.
- 5 Arrange the equipment's power cord in such a way that others won't trip or fall over it.
- 6 If you are using a power cord that didn't ship with the equipment, ensure that it is rated for the voltage and current labeled on the equipment's electrical ratings label. The voltage rating on the cord should be higher than the one listed on the equipment's ratings label.
- 7 Observe all precautions and warnings attached to the equipment.
- 8 If you don't intend on using the equipment for a long time, disconnect it from the power outlet to prevent being damaged by transient over-voltage.
- 9 Keep all liquids away from the equipment to minimize the risk of accidental spillage. Liquid spilled on to the power supply or on other hardware may cause damage, fire or electrical shock.
- 10 Only qualified service personnel should open the chassis. Opening it yourself could damage the equipment and invalidate its warranty.
- 11 If any part of the equipment becomes damaged or stops functioning, have it checked by qualified service personnel.

Regulatory Notices Federal Communications Commission (FCC)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

Any changes or modifications made to this equipment may void the user's authority to operate this equipment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1.3 Specifications

Display size:
19 inches

Panel type:
Active Matrix TFT LCD

Resolution capabilities:
Maximum Resolution up to 1280 x 1024 (SXGA)

Brightness:
White 300 cd/m2

Contrast ratio:
1000:1

Supported colors:
16.2M Colors (6-bit with FRC)

Viewing angle:
Right-Left view 60° ~ 70°(Typ)
Up-Down View 45° ~ 60°(Typ)

Display Area:
338 mm x 270 mm

Response Time:
Rising Time 1.3ms

LCD MTBF:
50,000 hours

VGA Signal Input:
Analog H/V, Co1.3Diagrammposite, SOG

Resolution:
64x400 / 720x400: 70Hz
640x480 / 800x600 / 1280x1024: 60/70/72/75Hz
1024x768 / 1152x864 / 1280x720: 60/70/75Hz

Plus & Play DCC:
EDID 1.3

Power Input:
Auto-sensing 100 to 240VAC, 50/60Hz power

LCD power consumption:
Max. 48Watts, standby 5 Watts

Keyboard & Mouse:
SUN-compatible keyboard integrated with 3-button touch-pad/trackball

KVM Cable:
4-in-1 proprietary KVM cable (combo free, USB or PS/2)

Package Dimension:
442 x 650 x 44 mm / 17.4 x 25.6 x 1.73 inches

Gross Weight:
35lbs

Certification:
CE / FCC

Operation temperature:
0 ~ 50°C / 32 ~ 122°F

Storage temperature:
-20 ~ 60°C / -4 ~ 140°F

Humidity:
5~90%, non-condensing

Shock:
10G acceleration (11ms duration)

Vibration:
5~500Hz 1G RMS random vibration

Keyboard Mouse:
106 key PS/2 keyboard with touch pad, Optional video input, DVI-D, BNC & S-Video

Touch screen:
Resistive / Capacitive touch screen, USB or RS-232

DC power input:
12 / 24 / 48VDC power input

1.10 How to use “NS” Keyboards

■ Press the Fn/Num button to switch the color the Num LED.

Num LED in Off mode

Key pad behaves as a SUN Solaris system administration command mode

Num LED in Green color

Key pad behaves as a normal key pad mode

KDS 6190

1U rack mount LCD keyboard drawer

1.11 Optional Accessories

1. Combo 4-in-1 KVM cable

- 1.1 6 feet
- 1.2 10 feet
- 1.3 15 feet

3. Power Cord

- 3.1 IEC Power Cord
- 3.2 5-15 Power Cord US
- 3.3 1363 Power Cord (UK)
- 3.4 CEE 7/4 Power Cord (German)
- 3.5 AS 3112 Power Cord (Australia)
