SATELLITE U400

The 13.3" lightweight stylebook

The great looks of the Satellite U400 mean that you will want to take it everywhere – and it's so lightweight, you can do just that. At less than 2 kg, this laptop makes a serious, ultra-portable fashion statement with an industry-leading design. Toshiba's eye-catching silver-line Horizon design together with its white LEDs makes it one of the sharpest machines around. Just take a closer look! But it's not just about good looks... the different configurations available will meet all your requirements, so the Satellite U400 is perfect whether you are after a value or high performance model. All machines are also packed with Toshiba EasyMedia – a unique mix of innovative features that make communicating, entertainment and computing smarter and easier.

UNCOMPROMISED MOBILITY

Everything you would expect from Toshiba and more... including WLAN, web camera and the best on-the-go entertainment features such as Dolby® Sound Room™ and a DVD Super Multi Drive.

CONNECT WITH EASE

The latest Wireless LAN (a/b/g/Draft-N)* and Bluetooth 2.1 software provide the ultimate in fast connectivity.

Toshiba recommends
Windows Vista® Home Premium.

Illuminated, feather-touch instant-on buttons – our Toshiba EasyKeys – give you the most intuitive access to multimedia entertainment.

The flush-mounted and white LED-outlined Touch Pad fits seamlessly into the brilliant Fusion finish of the laptop to provide the cleanest ease of use.

The 1.3 megapixel web camera with Toshiba Face Recognition software makes sure that only authorised users get access to your machine.

KEEPS GOING WHILE IT SLEEPS

Charge a mobile phone, PDA, MP3 player, gaming console or other device even when the laptop is turned off.

* depending on configuration

Toshiba recommends Windows Vista® Home Premium.

Compact and ergonomic wireless mouse with 3 buttons, scroll wheel and Bluetooth technology for ultimate cordless freedom.
Art. No. PA3573E-1ETA

Portable USB HDD 250 GB 2.5", alu case
To safely store and backup huge amounts of data Toshiba offers a wide range of 2.5" external USB HDD. The fanless design of the high quality and stylish aluminum housing makes them nearly silent. With capacities up to 320 GB, the 2.5" HDDs are a reliable and powerful companion when travelling. Since the power is supplied via the USB cable, no external power supply is necessary for the 2.5" HDDs.
Art. No. PX1275E-1G04

Backpack black
Style, storage and protection for your Toshiba notebook. Cushioned notebook compartment and separate compartment for documents. Additional front pocket for mobile accessories. Comfortable shoulder straps and back cushioning.
Art. No. PX1417E-1NCA

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
