

L84

HEAVY DUTY PISTOL GRIP MEGAPHONE

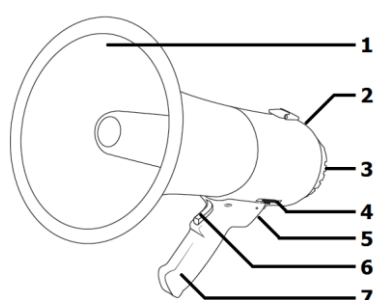

Item ref: 952.128UK

User Manual

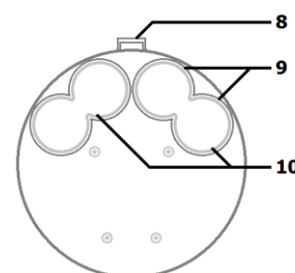

Caution: Please read this manual carefully before operating
Damage caused by misuse is not covered by the warranty

Layout

1. Speaker flare
2. Battery compartment
3. Microphone
4. Siren switch
5. Mic. volume control
6. Trigger switch
7. Pistol grip

8. Battery compartment catch
9. Polarity indication inside
10. Plastic inserts

Setting up

Before using the L84 megaphone, it is necessary to load 8 x "C" cell batteries into the rear compartment. Unclip the top catch to open the compartment and remove the 2 plastic inserts. Load the cells inside the inserts into the battery compartment, observing the correct "+/-" polarity as indicated on the inside wall of the compartment (incorrect installation can result in damage). Alternatively, the L84 can be powered from external 12Vdc battery (car battery etc.) by connecting to the 2.1mm D.C. jack on the rear right-hand side of the housing (again, observing the correct polarity)

Operation

The L84 should be held by the pistol grip with the speaker flare facing the audience.

Ensure that the Mic. volume control is not turned fully down. Holding the megaphone up so that the microphone is close to your mouth, press the trigger switch and speak. Adjust the Mic. volume control as necessary to achieve the required volume level. Release the trigger switch when not speaking into the microphone.

Sliding the siren switch to the "on" position sounds a continuous alert through the speaker, sliding to "off" stops this.

Specifications

Power max.	20W
Power rms	16W
Battery	12Vdc (8 x C, not supplied)
Dimensions	340 x 220mmØ
Weight	1.85kg

Disposal: The "Crossed Wheelie Bin" symbol on the product means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The goods must be disposed of according to your local council guidelines.
