Safety Instruction

⚠   **Warning / Caution**

To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.

Do not use this product near swimming pools or other water bodies.

Important

Read this information before installing or operating this product.

Optimal Phone Performance

● If this phone does cause harmful interference to radio or television reception, which can be determined by turning the phone off and on, user try to correct the interference by one or more of the following measures:

- Increase the distance between the radio or television and the phone.
- Connect the equipment into an outlet on a circuit different from that to which the phone is connected.

● Use the authorized battery and AC power only. Using other type may damage the instrument and will not be treated under warranty.

● Do not use the unit in designated "no cellular phone use" area.

● Do not make calls when connect the charge with the phone.

● We recommend you to fully charge the handset battery before initial use. Backup battery may be got discharged during delivery.

Care and Service

● If any of the following conditions exist; unplug the unit from the wall plug, remove battery, and call the authorized service center.

- The power supply cord is damaged or frayed.
- Liquid has been spilled into the unit.
- The unit has been exposed to rain or water.
- The unit has been dropped or damaged.
- The unit does not work normally by the operating instructions.

Safety Information

● Do not use with car battery. It may cause an electric shock, fire, breakdown or transformation.

● Avoid exposure to high temperature or humidity.

● Avoid exposure of the unit with any liquid. If the unit gets wet, remove the backup batteries and AC power supply immediately.

● Keep it dry. Precipitation, humidity, and liquids contain minerals that will

corrode electronic circuits.

- Do not use or keep it in dusty/dirty areas as its parts can be damaged.
- Do not keep it in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and wrap or melt certain plastics.
- Do not keep it in cold areas. When the phone returns to its normal operating temperature, it may result in moisture getting formed inside the phone, which could damage the phone's electronic circuit boards.
- Do not attempt to open it. It may damage the instrument or cause fire, electric shock and breakdown. Consult your authorized dealer for help.
- Do not drop, knock or shake it. Rough handling can break internal circuit boards.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean it. Wipe it with a soft cloth that has been slightly dampened in a mild soap and water solution.
- Do not paint it. Paint can clog the device's moving parts and prevent proper operation.
- When lightning, do not touch power plug or phone line, it may cause an electric shock.
- Do not install the unit in places where there is direct sunlight. Also do not put the unit on carpets or cushions. It may cause fire or breakdown.
- Before plugging the adapter, check the home power voltage. Inaccurate power voltage may cause fire and damage.
- Do not install in a non-ventilated place. It may cause fire or electric shock.
- Do not peel off or short-circuit the battery. Doing this may result in fire or instrument getting heated.
- Do not throw and break the battery. Do not dispose of batteries by putting them in fire. It may explode.
